## PREFACE

THIS, the fortieth edition of the *Commonwealth Universities Yearbook*, appears in the Jubilee year of the Association of Universities of the British Commonwealth, whose principal publication it is.

Founded in 1913 as the Universities Bureau of the British Empire, the A.U.B.C. is a voluntary society whose 138 members are institutions of university standing in the various countries of the Commonwealth. The Association, which works in a variety of practical ways to implement its aim of serving the interests of the universities of the Commonwealth and in particular of promoting contact and co-operation between them, is organizing the Ninth Quinquennial Commonwealth Universities Congress in London in July 1963; the Congress is being attended by more than 500 members and 130 Commonwealth universities are being represented.

First published in 1914, the *Yearbook* has been issued annually except during the war years. It is compiled to provide, in a single volume and in an up-to-date form suitable for quick reference, the essential facts about Commonwealth universities needed by university teachers and administrators, students, and others seeking detailed information about staff, organization, facilities and admission requirements. The *Yearbook* is published as a directory to university institutions of good standing in all countries of the Commonwealth and is not restricted to the universities and colleges which comprise the membership of the Association.

In the year preceding the publication of the 1963 *Yearbook* there has been such an expansion in the facilities for higher education that this edition contains entries for the largest number of new universities ever added to one issue. For the first time entries appear here for Waterloo University and Waterloo Lutheran University in Canada; Vidyalsankara University and Vidyodaya University in Ceylon; the Indian Institutes of Technology at Bombay, Kanpur, Kharagpur and Madras, and Kurukshetra University; Ahmadu Bello University and the University of Lagos in Nigeria; the East and West Pakistan Agricultural Universities and the East and West Pakistan Universities of Engineering and Technology; and the University of East Anglia in England.

Among the main features of the *Yearbook* are the 'national introductions' which commence the sections for each Commonwealth country with more than three or four universities. Each introduction (written by a leading university figure) is primarily intended as a factual guide for people abroad who wish to obtain the general background on university education in that particular country before turning to the separate university entries

and who will not necessarily be familiar with the basic assumptions locally current about that country's educational system. These authoritative essays range over the entire university scene in the country concerned; set out under carefully selected headings, they also refer to pre-university education and to institutions of higher education other than universities. Among the entirely new items in the 1963 book is an introduction to the pages for Pakistan which has been specially contributed by Dr. I. H. Qureshi, vice-chancellor of the University of Karachi; this (in accordance with the editors' general policy of making changes from time to time in the authorship of introductions after they have appeared in revised form in several editions) replaces the essay written by Dr. I. H. Zuberi when he was vice-chancellor of Rajshahi University. Professor I. D. Campbell, deputy vice-chancellor of the Victoria University of Wellington, has specially revised for this edition the introduction to the New Zealand section which was originally contributed by Dr. F. J. Llewellyn, now chairman of the New Zealand University Grants Committee.

Other special additions to this Jubilee edition of the *Yearbook* include the frontispiece (which is reproduced from the grant of arms issued to the Association in 1958 by the College of Arms), an historical list of its principal office-bearers since the foundation of the Universities Bureau of the British Empire, and a full description of the Association's aims, organization and activities. Also included for the first time is a section describing the functions of the central office which has been set up in the United Kingdom by the Universities Central Council on Admissions; the office of the U.C.C.A. is integrated with the Association.

Despite the addition of this new material the main reason for the 160-page increase in the length of this book as compared with its predecessor, is the steady growth of the teaching staffs and academic activities of existing universities.

One of the functions of the *Yearbook* is to provide basic data to assist a student proposing to go to a Commonwealth country for study in his choice of a university there (he should of course subsequently write to the registrar or secretary of the chosen university for complete and official information). In addition to the particulars, of for example 'First Degrees' and 'Higher Degrees', which are given in the separate chapter for each university, a detailed 'Directory to Subjects of Study' appears as part of each national introduction; there, in some cases in the form of tables, is given a summarized statement on 'where to study what' in that country's universities.

One of the most frequently used sections of the *Yearbook* is the Names Index. By means of this index it is possible to find at which university any of the 50,000 men and women who comprise the university teaching and administrative staff of the Commonwealth is serving. As well as providing a quick means of reference these comprehensive lists of names will provide raw material for any investigators seeking to measure the considerable movement of teaching staff from one country to another and from one university to another within the Commonwealth, as illustrated by the overseas degrees appearing after names.

As a key to other parts of the book the General Index will be found valuable, containing as it does references to institutions, to subjects of study and to such topics as Admission, Degrees, Superannuation, Vacation Courses, etc. It gives a ready guide for surveying the university provision throughout the Commonwealth in a particular field of study and a means of identifying in the book institutions whose country of location is not known.

The Appendices contain, *inter alia*, full entries for the universities of two countries now outside the Commonwealth which have expressed a wish to remain in the *Yearbook*—those of the Republic of Ireland (which, though not in actual membership of the Association, retain close associations with the Association of Universities of the British Commonwealth) and those of the Republic of South Africa (which under the legal interpretation of its constitution remain for the time being members of the Association). Appendix III con-

tains a unique summary—much used by candidates for admission and those who advise them—of the admission requirements of universities in Australia, Canada and the United Kingdom. Appendix VII describes in summary form the Commonwealth Scholarship and Fellowship Plan which was drawn up at the first Commonwealth Education Conference at Oxford in 1959 and was reviewed at the second conference in New Delhi in 1962.

The editors wish to make the *Yearbook* as effective of a work reference as possible and will give careful consideration to any constructive suggestions for its improvement which readers may wish to offer. Copies of the book may be consulted in the library or registrar's office of all Commonwealth universities and are understood to be available for reference in many other university libraries throughout the world.

The *Yearbook* is a co-operatively compiled work, the material for which is supplied from some 200 university or college offices in 22 countries to the office of the A.U.B.C. in London where it is edited before being sent to press. The Executive Council of the Association again wishes to express its thanks to the registrars, and to the authors of the national introductions, without whose sympathetic help this volume would not have been produced. It must be understood, however, that neither the Association nor the universities, while taking every care to ensure reliability, can accept responsibility for any error that may appear among the very many statements of fact which the book contains.

The Association of Universities of the British Commonwealth is a voluntary society whose members are institutions of university standing in the various countries of the Commonwealth. It was founded in 1913 as the Universities Bureau of the British Empire and changed to its present name in 1948; it is incorporated under the Companies Acts of the United Kingdom. There are at present 138 member institutions.

The headquarters of the Association are situated at No. 36 Gordon Square, London, W.C.1 (tel.: Euston 8572), close to the University of London Senate House and University College. Members of the teaching staff or other officers of any member university are invited, when visiting London, to call at these premises, where there is a common room and facilities for interviews. Overseas visitors are especially requested to register, on or before arrival in the United Kingdom, their names and addresses with the secretary at 36 Gordon Square, to enable enquiries and communications for them to be dealt with. A branch office for Commonwealth Scholarships and Appointments was opened in 1961 at Marlborough House, Pall Mall, London, S.W.1 (tel.: Whitehall 6617).

A full description of the functions of the Association, with its legal constitution and a list of its members and their representatives, will be found in Appendix VIII at page 1620.

The staff of the Universities Central Council on Admissions (secretary, L. R. Kay, BA *Sheff.*; assistant secretary, Mary Lake, BA *Lond.*), the office of which is integrated with the Association, are members of the A.U.B.C. staff.

# GUIDE TO THE UNIVERSITY ENTRIES

The date at the beginning of each *Yearbook* university entry is the date at which the material was completely revised and brought up to date by the university for this edition. Resignations, retirements and new appointments which it was known then would take effect before March 1963 were taken account of in the compilation of the staff lists; and, where universities supplied the necessary information, subsequent senior staff changes were also incorporated up to the time of going to press.

**DATE OF FOUNDATION.** The date of foundation is given immediately below the name of the university and is normally the year in which the institution came into legal existence with the title

of university *i.e.* the year the act or charter incorporating it with the title of university came into force. (In the case of colleges which do not have the title of university, read 'college' for 'university' in the previous sentence). If the university had an earlier existence as a university institution, whether corporate or unincorporated, this may also be mentioned.

The **PRINCIPAL DIVISIONS** of each *Yearbook* university entry are: (1) Principal Officers; (2) Teaching Staff; (3) Administrative and Other Staff; (4) Constituent, Affiliated or Associated Institutions; (5) General Information; (6) 'The Year 1961'.

## PRINCIPAL OFFICERS AND TEACHING STAFF

**DEPARTMENTS.** The directory of teaching staff is subdivided into departments (indicated by bold headings) normally arranged in alphabetical order for ease of reference. Because of the divergent practices of different universities about the organization of subjects, it has not been considered advantageous to group these departments under faculty headings, but in special cases where there is a group of departments constituting a more or less distinct entity to which it is obviously helpful to be able to refer in a consecutive and separate entry (*e.g.* a *multi-departmental* school of engineering, of medicine, or of dentistry), they are set out together at the end of the main list, each group under a separate bold-type heading in capital letters, and cross-references to the subject headings in this grouping have been inserted at appropriate places in the main list.

Where the department of physical education is a teaching department, it is placed in the general subject list in alphabetical order, but where its main function is that of promoting the physical welfare of students of the whole university the names of its staff appear under the 'Administrative and Other Staff' heading.

**SPECIAL LECTURESHIPS** (and the names of the current holders thereof) which carry for the holder the status of a temporary member of the staff of the university or college and which involve an extended course of lectures (rather than merely one or two single lectures) are inserted before the list of 'Administrative and Other Staff', as are also entries for the *teaching* officers of such special institutes and departments, etc., as institutes of education, research institutes and extramural departments.

**ORDER AND STATUS.** The names of members of staff are arranged under each subject heading in order of seniority, wherever possible, and not in alphabetical order. Each individual's special subject (*e.g.* inorganic chemistry, civil engineering, modern history) and status (*e.g.* professor, reader, senior lecturer, lecturer) is indicated opposite his name. Where a Chair or other post has a distinctive title, that title is incorporated in the staff list opposite the holder's name (*e.g.* Slade Prof., Laurence Reader, Sidgwick Lectr.).

**PART-TIME** members of staff are indicated by the symbol †.

**EMERITUS PROFESSORS** are not included unless they are still active members of the teaching staff.

**RESEARCH OFFICERS** (including research fellows) are not listed by name unless they are regarded as regular members of staff.

**JUNIOR STAFF.** The most junior staff (such as temporary assistants and junior demonstrators) are not listed by name; such staff are normally covered only by a composite reference, *e.g.* 3 Jr. Demrs.

**MEN'S FIRST NAMES** are designated only by initials (*e.g.* Smith, J. D.) except in the case of knights and baronets or where it is necessary to distinguish between two men with the same initials, and surname, at the same university or college. One first name of a knight or baronet is given in full.

**WOMEN'S NAMES** are indicated by the writing in full of one first name, any other first names being represented by initials only (*e.g.* Smith,

Mary J.). The word 'Mrs.' is inserted before the names of married women, but the word 'Miss' is omitted except where the woman's first name is likely to be unfamiliar as such to English-speaking readers (as in the case of certain Eastern and African names).

**ON LEAVE.** Absence from the university on study leave, on secondment, on government duty, etc., is indicated by '(on leave)'. It is inserted only where the teacher will be on leave during the greater part of the 12 months following March 1961. If, however, the teacher has been seconded to the university from another university or other body, then '(on secondment from [name of institution])' is inserted.

**ABBREVIATIONS.** Lists of abbreviations (and relevant expansions) used for names of universities, for degrees, for university diplomas and certificates, and for certain non-university qualifications appear on pages xv-xxxii.

Each individual's university DEGREES, DIPLOMAS AND CERTIFICATES and any of his non-university qualifications which are mentioned in the next paragraph are noted in abbreviated form after his name. The university of origin of degrees, diplomas and certificates is also given but it should be noted that degrees, diplomas and certificates awarded by the university in whose entry the name of the staff member appears are indicated by being placed, *without* the name of the university\*, after any other degrees, diplomas or certificates. For example, the qualifications of a teacher possessing an MA of Sydney, a PhD of Adelaide and a diploma in education of Adelaide would be set out as follows if his name appeared in the Adelaide entry: MA Syd., PhD DipEd. If his name appeared in the Sydney entry his qualifications would be set out thus: PhD DipEd Adel., MA. The abbreviations for the names of universities

are set in italic type; it should be noted that these abbreviations are not necessarily identical with those usually employed by the awarding universities. To save space, the word 'Hons.' (= Honours) is not placed after degrees in the staff lists, but 'Hon.' (= Honorary) is inserted before honorary degrees. In the case of staff members who possess predoctorate degrees as well as a PhD, universities have been asked to include the higher of these predoctorate degrees as well as the PhD, e.g. BA PhD Camb. or MSc Bom., PhD Calc. or PhD Syd., MA.

**NON-UNIVERSITY QUALIFICATIONS.** The *Yearbook* aims at providing in the staff directories an accurate and comprehensive list of each teacher's university qualifications. Because of the need to save space, however, the number of titles not of university origin has had to be kept to a minimum and, to ensure consistency, it has been decided to list only the following such qualifications:

- (1) *Honours* conferred by the Crown (listed on pages xxx-xxxii).
- (2) *Fellowships* of learned bodies of high standing. Only those listed on pages xxx-xxxii are included in this edition of the *Yearbook*.
- (3) *Memberships* of the senior professional bodies in each country for physicians and for civil, electrical and mechanical engineers (listed on p. xxx). Only one such membership is allowed after any one person's name. Associate memberships are not mentioned.

In setting out titles and qualifications after names the following order is observed:

- (1) Honours conferred by the Crown.
- (2) University degrees, diplomas and certificates.
- (3) Fellowships and memberships of certain institutions (*see above*).

## ADMINISTRATIVE AND OTHER STAFF

This section includes administrative staff who do not appear in the list of 'Principal Officers'. It also includes names such as those of appointments officer, chaplain, instructors in physical education (see also p. xi), university medical

officers, manager or secretary of university press, student advisers (including advisers to overseas students), wardens of student residences, welfare or lodgings officer, and administrative officers of special institutes and departments.

## THE YEAR 1961

The purpose of this section is to provide a detailed record of events in the university during the calendar year ending December 31, 1961 (the period covered by the sections relating to Degrees, Diplomas and Certificates Awarded is, however, the academic year 1960-61 (southern hemisphere, 1961) plus the long vacation following, and the information about student numbers relates to the

beginning of the academic year 1961-62 (southern hemisphere, 1962)).

**PRINCIPAL BENEFACTIONS.** Only gifts of more than £10,000 or equivalent are listed. Government grants are not included. The total monetary value of all benefactions received is frequently given.

\* But where a teacher has a degree with the same abbreviation from two universities, both are named, even though it is in the entry for one of them that his name appears, e.g. the holder of an MA of Cambridge and an MA of Adelaide would be listed in the Adelaide entry as MA Camb. & Adel.

**MAJOR BUILDING DEVELOPMENTS.** This entry records information about buildings completed or approaching completion during the period under review.

**RESIGNATIONS** of staff members of the rank of lecturer (or equivalent) and above are recorded.

**DEATHS** of staff members, or of distinguished staff members who had retired, are recorded.

**STUDENT NUMBERS.** Students are classified as *part-time* if they are engaged in regular employment during the academic year and therefore cannot devote their full time to their studies. If a university has indicated that it has used a different definition a note has been added to the text. By *new admissions* is meant the number of students entering the university or college for the first time. For *Yearbook* purposes a student 'from another country' is one whose permanent

home residence is in that other country, *i.e.* one whose parents are only temporarily resident or employed abroad is not included, nor is one who was born in another country and may therefore have a foreign nationality but is now living permanently in the country in which the university or college is situated.

It should be noted that, although every effort has been made by the editors to secure uniformity, the figures of student numbers given in the individual university entries may possibly be compiled on slightly different statistical bases even in the one country.

The lists of **DEGREES, DIPLOMAS AND CERTIFICATES AWARDED** give the numbers of students who have the right, under the regulations of the university, to use the title of the degree, diploma or certificate regardless of whether or not it has been ceremonially conferred.

## B. COMMONWEALTH DEGREE ABBREVIATIONS

In the following list the degree title opposite each abbreviation is the expanded form normally used by the university, or universities, in the Commonwealth which currently award that degree.

Many of these degrees are awarded with honours (the courses for some honours degrees being quite distinct from the courses for the corresponding pass degrees), but, for reasons of space, the honours form of the abbreviation and title is not given below (e.g. BA *hons.* is excluded). Similarly 'special' and 'general' degrees are not separately distinguished, e.g. BSc(Sp) and BSc(Gen) are excluded. For the purposes of this list, a 'conjoint' degree, such as MB ChB, is listed as two separate degrees.

Honorary degrees are included in the list below, but they are not distinguished from other degrees.

It should be noted that many of the degrees listed below are awarded by only one university and that many others are awarded by only a relatively small number of universities.

### C. ABBREVIATIONS FOR COMMONWEALTH UNIVERSITY DIPLOMAS AND CERTIFICATES

The list given below is not intended to include abbreviations for all diplomas, certificates and associateships awarded by Commonwealth universities or colleges of universities. It is restricted to those abbreviated forms which appear most frequently in the Yearbook and which consist entirely, or almost entirely, of initial letters; and whose meaning in many cases may therefore not be immediately obvious to the reader. It should be noted that many of the qualifications listed below are awarded by only one university or college.

AA	Associateship in Arts
AAUQ	Associateship in Accountancy of the University of Queensland
ACom	Associateship in Commerce
AFCE	Associateship in Fuel Technology and Chemical Engineering
AGT	Associateship in Glass Technology
AKC	Associateship of King's College, London
AKC(NB)	Associateship of the University of King's College, Canada
AMinTech	Associateship in Minerals Technology
AOSM	Associateship of the Otago School of Mines
ARCS	Associateship of the Royal College of Science
ARSM	Associateship of the Royal School of Mines
ASc	Associateship in Science
AUA	Associateship of the University of Adelaide
CertTM	Certificate in Medical Technology (Certificat en Technologie médicale)
CHP	Certificate in Public Health (Certificat en Hygiène publique)
CLS	Certificate in Library Science
CPH	Certificate in Public Health
CPSS	Certificate in Public Service Studies
CS	Certificate in Statistics
CT	Teaching Certificate
CTTSC	Certificate in the Teaching and Training of Subnormal Children
DA	Diploma in Anesthetics
	Diploma in Anaesthesia (Syl., Tor.)
DAM	Diploma in Ayurvedic Medicine
DAP&E	Diploma in Applied Parasitology and Entomology
DBM	Diploma in Business Management
DCE	Diploma in Chemical Engineering
DCEP	Diploma of Child and Educational Psychology
DCH	Diploma in Child Health
DCP	Diploma in Clinical Pathology
	Diploma of Clinical Psychology (W. Aust.)
DDM	Diploma in Dermatological Medicine
DDPH	Diploma in Dental Public Health

#### D. ABBREVIATIONS FOR ORDERS, DECORATIONS AND QUALIFICATIONS OTHER THAN UNIVERSITY DEGREES, DIPLOMAS AND CERTIFICATES

To save space, non-university distinctions are omitted from the staff lists, with the exception of honours conferred by the crown and certain fellowships of learned bodies as set out in this list (see also p. xii). In the case of physicians and civil, electrical and mechanical engineers one membership of the senior professional body as set out in this list may be included. It is regretted that considerations of space have imposed these limitations on the references which can be included to professional qualifications; no disparagement is, of course, intended of professional or other non-academic qualifications which cannot be included in this work.

The abbreviations used are not in all cases those adopted by the body concerned, e.g. FIP is used instead of FinstP.

# THE UNIVERSITIES OF AUSTRALIA

[Contributed by Professor C. Sanders, Professor of Education in the University of Western Australia]

**HISTORY.** The history of the Australian universities may, for convenience, be divided into five periods covering a span of over a century. The first period, which extended from the middle to the end of the nineteenth century, saw the growth towards nationhood of the Australian colonies. During this period four universities were established, and their earliest architecture in the Gothic style bears witness to their Victorian origins. The second period began with the federation of the colonies as Australian states, and the creation of the Commonwealth of Australia in 1901. It continued until the conclusion of the first world war when there were six universities in the state capital cities, the first three—Sydney (New South Wales), Melbourne (Victoria) and Adelaide (South Australia)—carrying the names of the cities themselves, and the second three—Tasmania (Hobart), Queensland (Brisbane) and Western Australia (Perth)—the names of the states in which they were established. The third period lasted from 1918 until the conclusion of the second world war. During its first seven years there was a post-war enrolment bulge followed by a sharp resettlement, after which the depression of the thirties limited development. Two university colleges, Canberra University College (1930) and New England University College, Armidale, New South Wales (1938), were established during the period.

In the main, the years between the wars were years of consolidation rather than of spectacular progress. Student enrolments in the universities and university colleges during 1939 numbered 14,500. This was a modest total; but Australia, in keeping with the university traditions of Great Britain, does not recognize many educational institutions as having university status in the American sense. However, some such institutions, as is explained later, are affiliated for various purposes to the universities.

The cessation of hostilities in 1945 marked the beginning of the fourth period of university growth and the admission to the universities of large numbers of financially assisted ex-service students. The period was associated with heavy enrolments in science, applied science and technology. By 1948, student numbers rose to 32,500, and although an easing occurred with the disappearance of assisted ex-service students, two or three years later, an increasing war-time and post-war birth-rate, migration on a larger scale than hitherto, and a constant need for scientists, technologists and teachers, heralded in the present and fifth period, in which there appears to be no limit to the possible future expansion of higher education in Australia.

Increasing financial difficulties among the universities, during the fourth period, gave rise in

1950 to an interim enquiry into Australian university finances, and then in 1957 to the enquiry conducted by the Committee on Australian Universities under the chairmanship of Sir Keith Murray, chairman of the U.K. University Grants Committee.

The fifth period began, when early in 1958 the Commonwealth government announced, after considering the Murray committee's report, that it would provide an extra £A21,400,000 during the triennium 1958-60. The provision of additional money was a first step towards university rehabilitation, and it was followed by a further decision during 1958 to create a permanent national body, to be concerned, amongst other things, with university finance. This body, in accordance with Commonwealth legislation passed in 1959, is now called 'The Australian Universities Commission' and its present chairman is Sir Leslie Martin, formerly of Melbourne.

Sydney (1850) and Melbourne (1853) are the most senior of the Australian universities. As institutions of higher learning dating from the colonial period, they are of approximately equal size and are also about the oldest of their kind in the Asian-Australasian hemisphere. The remaining universities established before the first world war include Adelaide (1874), which began with private endowments, Tasmania (1890), Queensland (1909) and Western Australia (1911). To these now need to be added the Australian National University, Canberra (1946), now incorporating the earlier Canberra University College, the University of New England (1954), which began as the second of the inter-war university colleges, the University of New South Wales, Sydney (1958), originally established in 1949 as the New South Wales University of Technology, and Monash University (1958) at Clayton, near Melbourne in Victoria, which began teaching in 1961. At the time of writing, therefore, there are ten universities in Australia, including three in New South Wales and two in Victoria (see also 'The Universities To-day', below).

Canberra University College was a Commonwealth creation in the Australian Capital Territory to provide for the higher education of civil servants and their families when the Commonwealth parliament moved from Melbourne to the national capital in 1927. This college in 1960 became the school of general studies (with faculties of arts, economics, law and science) of the Australian National University. New England University College in northern New South Wales was, until its elevation, an offshoot of the University of Sydney, and it is still the only non-metropolitan university in Australia.

Nevertheless, there is now a further trend

towards decentralization of university education in both New South Wales and Queensland. For example, Newcastle University College (1951) and Wollongong University College (1961) function as constituent institutions of the University of New South Wales, while the University College of Townsville (1961), is a constituent institution of the University of Queensland.

**CONSTITUTION** (a) *Structure of Universities.* The Australian universities are unitary teaching, examining and research institutions in the arts, social sciences, sciences and applied sciences; and among them to-day, at the undergraduate level, there is considerable emphasis on education for the professions. Most of the universities have residential colleges or halls, associated with them, in which tutorial assistance is provided for resident students, and sometimes for other students. Such teaching, however, is generally supplementary to the teaching of the universities which conduct the examinations and award the degrees. Historically, the universities are secular institutions although many of the residential colleges (located on the university sites) are religious foundations. Each university has certain characteristics which give it individuality. Some more than others have affiliations with governmental research institutes, agricultural colleges, forestry schools, technological institutions, technical colleges and teachers' colleges (see section below on 'Institutions of Higher Education other than Universities').

Among universities created since the second world war, more significant differences are to be observed than among universities of earlier establishment. The Australian National University, which began as a postgraduate research institution, was reorganized in 1960 on more conventional lines when the Canberra University College became its school of general studies. The original university, which incorporated four postgraduate schools, was renamed the institute of advanced studies. At this level the university is substantially residential. Further, the University of New England, which for internal students is almost entirely residential, now makes provision for a large number of external students. Moreover, the teaching work of the universities of New South Wales and Queensland, as explained already, is undertaken not only on their own sites but also elsewhere.

Since the war all the universities have greatly extended their departments of science, medicine, engineering and social science. Newer institutions have very strongly reflected the trend towards science and technology, while postgraduate studies and research now receive a much greater emphasis than formerly.

(b) *Internal Government.* Except for the Australian National University in the Australian Capital Territory, the universities are situated in the six Australian states, and in or near the Australian capital cities. Although it is now becoming a practice to refer to these mainly 'metropolitan' institutions as 'state' universities,

they have a considerable measure of independence, and their staffs are conscious of the importance of university autonomy and academic freedom (see 'Relationships to Government', below).

Some differences in the legislative and academic practices of the 'state' universities arise from their geographical separation as well as from their history. Most of them were created to serve local needs and Commonwealth interest in their welfare is of fairly recent origin. Even to-day they are regional institutions, and most Australian students expect to receive their undergraduate education within the boundaries of their own states.

Periodic royal commissions, or committees of enquiry, and the subsequent or independent actions of legislatures, both state and national, have altered from time to time the constitutions of the universities as well as the composition of their governing bodies. Each governing body in its own way is representative of community interests, and most governing bodies are also representative of the body of graduates and the academic staff. The Australian National University, since its reconstitution in 1960, has an academic board responsible for the institute of advanced studies and a board responsible for the school of general studies. There is in addition a professional board, which, although it has no executive powers, acts in an advisory capacity to the governing body of the university. The vice-chancellor serves as chairman of each of the academic bodies.

Among the universities some appointments to governing bodies are made by governors-in-council, and on a number of the governing bodies there are parliamentary members, or ex-officio members, such as a state director of education or an appointee of a state treasury, or co-opted members. In some universities the students are represented on the governing body, while at Melbourne and at the University of New South Wales, industry and commerce have specific representation. Among the universities the size of the governing bodies varies between nineteen and thirty-eight.

Except for Sydney, Queensland and Western Australia, the governing body of each university is called the council. At the three universities mentioned the term 'senate' is employed to denote the governing body.

Each Australian university, with the exception of the University of New South Wales and Monash University, has a second body with a certain amount of responsibility in university government. This body, which mainly consists of university graduates, has several names. At most of the universities it is called convocation; but at Queensland it is called the council, and at Adelaide the senate.

The major function of the graduate body is to elect members to the governing body; but only at the University of Adelaide does the graduate body have a preponderance of representation. In other universities it provides about one-fifth to two-fifths of the membership. Although in none of the universities has the graduate body

power to initiate legislation, it occasionally has authority to approve, refer back or delay statutes and similar legislation referred to it by the governing body, and it may make suggestions regarding university welfare. In exercising its functions it sometimes works through standing committees.

The governing body, whether council or senate, generally meets at least once a month. It appoints standing committees or committees to deal with finance, investments, buildings, site development, staff and establishments, and so forth. Some of its work may be channelled through a general purposes committee, or there may be a joint committee of governing body and teaching staff to deal with matters of common policy. The powers, functions and procedures of governing bodies and graduate bodies are generally defined in university acts and statutes. When a governing body adopts statutes or by-laws, they must, as a rule, be submitted for final approval to a minister, governor or governor-in-council, or the particular legislation must be laid on the table of each house of parliament. Although the universities are not divorced from public criticism, most governing bodies have power without further reference to establish rules and regulations for ordinary university working.

The titular head of an Australian university is the chancellor, usually a citizen of distinction, who acts as chairman of the governing body and confers degrees and diplomas. He is supported by a deputy or pro-chancellor.

The vice-chancellor is central to the organisation of university government. He provides the liaison between the various deliberative and executive bodies, both general and academic, although his powers and functions vary somewhat from university to university. The vice-chancellor holds a permanent appointment as chief executive officer of the university, and is a member of the governing body. At most of the universities the chairman of the chief academic body or a senior professor acts in the absence of the vice-chancellor. Some universities have created the position of deputy or pro-vice-chancellor. Among these universities, Melbourne has two pro-vice-chancellors who are senior members of the academic staff, while at Sydney, where the vice-chancellor is also the principal of the university, there is a deputy vice-chancellor as well as an assistant principal. Below the rank of vice-chancellor, deputy vice-chancellor, principal, etc., the registrar is the senior administrative officer, although the chief financial officer exercises a considerable amount of authority. At each of the older universities the state governor acts as 'visitor'.

The chief academic body is generally called the professional board and corresponds to some extent with the senate of a university in the United Kingdom. It consists of deans, professors and certain other staff, some of whom may be non-professional heads of departments, or staff representatives below professional rank. The board usually appoints its own chairman and it may work through committees such as a committee of deans. At the Australian National University, as

mentioned previously, the vice-chancellor acts as chairman of the academic boards, and in some other universities is empowered to act as chairman of the professional board. Instead of a professional board, Adelaide has an education committee, including chancellor, vice-chancellor, council members, heads of academic departments and the librarian.

University government usually works from below upwards, the chief academic body advising the governing body on academic matters or transmitting legislation for the governing body's imprimatur or further action. Below the senior academic body are the faculties in which degrees are awarded, or the boards of study responsible for diploma or similar courses. Many matters remain at faculty level and most of the rest are finally dealt with by the professional board or its equivalent. The deanship is an honorary academic office in most universities; but sometimes the dean receives an allowance. At Melbourne there is a permanent dean of graduate studies.

**RELATIONSHIP TO GOVERNMENT** The Australian universities, by legislative enactment or charter, are autonomous and self-governing, and as most of the earlier ones were created by colonial or state governments, they were, until 1958, mainly financed by state parliaments. The Commonwealth is directly responsible only for the Australian National University. However, the second world war made clear the national as well as the local importance of the state universities, and as already indicated, this led during the post-war period to an increasing Commonwealth interest and financial support, culminating in the Murray recommendations in 1957 and the creation of the Australian Universities Commission in 1959. Thus, at the present time, the universities are a Commonwealth as well as a state responsibility, the commission providing the link between the various parties.

Most university governing bodies, as explained above, contain members of the local parliament or appointees of the governor-in-council. One reason for having parliamentarians (usually not drawn from one house or party) is to have spokesmen in the legislatures. Mostly the idea has worked well and it has tended to be incorporated in the constitutions of universities of recent creation.

Communication between a university governing body and a state government is usually by way of vice-chancellor and state premier or state minister of education. However, the work of universities generally lies outside the function of the minister of education, who is more directly responsible for the schools. Occasionally the chancellor will lead a deputation to the premier on an important issue. Each year the universities present a report on their activities to the local parliament. The first report of the Australian Universities Commission was presented to the Commonwealth government in 1960.

After the war the Commonwealth provided

special grants to the universities to assist in the higher education of ex-servicemen. It also made increasing sums of money available for research. It converted a war-time assistance scheme for reserved students into a broadly based system of scholarships, and it began to sponsor students from Asia and the Pacific islands under the Colombo Plan. This increase in Commonwealth activity, now supported by the Murray recommendations, and the existence of the Australian Universities Commission, has greatly added to the importance of the Australian Vice-Chancellors' Committee at the national level, even though the committee's function is consultative rather than executive. To-day the National Union of Australian University Students (N.U.A.U.S.) concerns itself with national as well as international issues affecting students. Thus it may be referred to by the appropriate authorities, or it may submit its own proposals for consideration. Within each university there is a student body which negotiates with university and other authorities on matters affecting student interests.

**FINANCE** In the early post-war years the time-honoured method of university finance by state government grants, student fees and income from endowments began to collapse. During the war the Commonwealth gained control of income tax collection which previously had been shared with the states. After the war considerable numbers of ex-service students were admitted to the universities, and to assist their education the Commonwealth made special annual grants towards university running costs, and by agreement with the states it made capital grants for buildings. However, with the tapering off of Commonwealth monies for ex-service students, most of the universities began to feel the effects of financial stringency. As a result, the Commonwealth, after negotiations with the states, appointed in 1950 the interim committee of enquiry into university finance, referred to earlier. This action represented a positive step towards a permanent co-operative relationship between Commonwealth and states in the maintenance and development of the universities.

After considering the interim committee's findings, the Commonwealth enacted legislation to make grants to the universities on the basis of £A1 for each £A3 of state grant and fees to a specified maximum. In 1951 the States Grants (Universities) Act was passed, and subsequent acts were passed in 1953, and annually from 1955 to 1958. With the enactment of the 1951 legislation, previous Commonwealth grants and subsidies for various purposes, including grants for research, were consolidated into a single amount to be paid to each university through its state government. However, following receipt of the Murray committee's report in 1957, the Commonwealth enacted new legislation in 1958 and 1959 so that there is now a triennial review of university finance undertaken by the Australian Universities Commission. As indicated previously,

the initial triennial grant was made on the recommendation of the Murray committee, and a considerable part of it was regarded as emergency money to compensate for existing deficiencies. The first report of the Australian Universities Commission was published in October 1960. It surveyed developments during the period 1958-60 and made recommendations for the triennium 1961-63. The financial recommendations of the commission were given effect in the States Grants (Universities) Act (1960) of the Commonwealth government.

In 1960, total university income from all sources (i.e. revenue and capital income for 'general' and 'special' purposes), amounted to £A31,376,791. The revenue income for 'special' purposes, included in the total sum, was £A4,005,292. The capital income ('general' and 'special'), for buildings and equipment, amounted to £A7,483,540 (Commonwealth, 43 per cent.; states, 50 per cent.; other, 7 per cent.).

Income from endowments and donations, included in the total university income, was £A1,726,494, or about 6 per cent. of the whole. But of the amount received from endowments and donations, £A1,308,891 was for 'special' purposes. Revenue and capital income for research, during the year, totalled £A1,898,633.

If 'general' revenue, for ordinary university running expenses only, is taken into account (i.e. when all capital income, as well as revenue income for 'special' purposes, is excluded), then the total amount available to the universities during 1960 was £A10,887,959 (Commonwealth, 34 per cent.; states, 46 per cent.; fees, 15 per cent.; other, 5 per cent.).

In 1960, Commonwealth and state governments provided 79 per cent. of the money needed to meet the day-to-day expenses of the universities, and they also provided 93 per cent. of the money for buildings and large capital equipment.

**PRE-UNIVERSITY EDUCATION** (see also Appendix III). Students are usually admitted to the Australian universities between the ages of 17½ and 18½ years after twelve years of schooling although there is a trend in some states towards increasing the length of secondary education by a year. In some states children transfer to secondary education between the ages of 12 and 14 years after spending seven years in primary schools. Thus the children in these states usually receive five years of secondary education before being admitted to the universities. In Victoria the transfer is made a year earlier and in Queensland a year later so that children in these states receive six years or four years respectively of secondary education before entering the university. However, the pattern, organisation and content of secondary education are being re-examined in most Australian states; and a rapidly increasing proportion of children is continuing at school between the ages of 15 and 17 years inclusive. In New South Wales, following the government's receipt of a report, prepared by a committee under

the chairmanship of the director-general of education, Dr H. S. Wyndham, there are now six years of primary education followed by six years of secondary education, with transfer of children at about the age of 12 years.

In all states the examinations, often called 'public examinations', which mainly qualify for matriculation are held in November or December, while students tend to enter the universities in the following March. In Western Australia, matriculation is mostly granted by means of a leaving certificate examination at the age of 17 to 18 years. An examination, used for matriculation, is set at the same level in Queensland and is called the senior public examination, while in Victoria and Tasmania the comparable examination is known as the matriculation examination. In New South Wales a school certificate examination is now held after four years of secondary education, followed by a higher school certificate examination two years later and linked with matriculation. In South Australia matriculation is gained at a leaving certificate examination set to school pupils between the ages of 16 and 17 years, but there is at least one further year of study beyond the minimum matriculation level, and many intending university students take the additional year and set for a leaving honours examination at the end of it. Victoria has a leaving examination for school pupils between 16 and 17 years, and Tasmania a similar examination called schools board examination. In Victoria and Tasmania, therefore, the examinations mentioned are taken a year before the matriculation examination.

In all states except New South Wales the universities either conduct the public examinations or co-operate in their organization. In New South Wales the state department of education undertakes the responsibility. Some universities conduct a supplementary leaving or matriculation examination in February each year; but in each case where a 'matriculation examination' is set it is directly under a university matriculation board or the university's professional board. In several states there still exists an examination between the ages of 15 years and 16 years. This is called either the junior examination or the intermediate examination, and sometimes passes in the examination exempt from certain matriculation requirements. In Queensland the junior examination is conducted by the state education department, while the university remains responsible for the senior public examination on which matriculation is based.

In the organization of Australian secondary education there are many independent secondary schools modelled on the pattern of the English grammar schools. Most of these schools are religious foundations. In the state educational systems, most secondary schools, although by no means all, are called high schools. Many of the older state secondary schools are of the academic type but newer schools are being erected on the comprehensive principle adapted to Australian conditions. For many years more students entered

the universities from independent (i.e. non-government) schools than from state (i.e. government) schools, and although this continues to be so in some states, the balance is changing, due to the rapid post-war growth of secondary education in every Australian state.

**Admission** (see also Appendix III). Each university decides its own matriculation requirements, and though there is no general standard for Australia, the universities recognize each other's qualifications. However, where faculty prerequisites apply, or where entry is restricted, a matriculated candidate from another state usually needs to comply with the local conditions.

The universities of Adelaide, New England, New South Wales, Sydney, Tasmania and Western Australia, as well as the Australian National University and Monash University, have a general matriculation with minimum or no faculty prerequisites. The University of New South Wales recognizes in addition the qualifying examination of the department of technical education of the state of New South Wales. Universities, other than those mentioned, have prerequisites for entry to faculties. For admission to the University of Melbourne a student must pass the leaving examination to set for the university's matriculation examination, and he must also meet prerequisites. To-day, however, at the universities of Sydney and Melbourne, faculty entry is on a competitive basis.

Some universities have subgraduate diplomas or certificate courses to which admission may be gained on qualifications less than matriculation. Most universities have some provision for unmatriculated students not proceeding to a degree; but there are restrictions on this form of enrolment. All universities make provision for students of mature age, and various tests of fitness are used in mature age examinations, including tests of general ability as well as of English usage.

A student with United Kingdom matriculation is generally admitted to matriculant status without further examination unless he has prerequisites to meet or there is a faculty entry restriction. Ordinary G.C.E. passes and Scottish leaving lower passes are insufficient, so that all or some of local requirements must generally be met. Students from Asia with principal level passes in the Cambridge Higher School Certificate examination, or an equivalent qualification, have a reasonable chance of acceptance into unrestricted courses provided they meet any special conditions including an adequate command of English. However, most universities treat applications individually. Thus, although Sydney and Melbourne specify the qualifications from abroad they are prepared to accept for matriculation, they employ, as indicated above, additional selection measures. Because mastery of the English language is a factor in student success, some universities prefer an Asian or similar student to spend a period in an Australian school or technical college and, if possible, gain a local matriculation before university

entrance. Graduates of recognized universities are usually accorded matriculation status and such additional status as each university is prepared to grant.

There is a summary of admission requirements in Appendix III, but students from abroad must always obtain direct from the registrar of the university concerned up-to-date information about the precise conditions of entry to first degree or postgraduate courses.

To-day most universities insist that students shall have a clean bill of health to gain admission. Apart from Sydney and Melbourne, there is a restricted entry to certain faculties and courses in other universities. This is particularly true in medicine. Restriction in medical and other faculties, giving rise to selection following matriculation, is due mainly to insufficient facilities to meet a rapidly increasing number of qualified applicants. In some cases intending medical students, as well as students wishing to enter other faculties, need to qualify for matriculation in the state in which the university is placed. To continue in a course, and especially a course with restricted enrolment, students, whether Australian or other, may need to show a satisfactory rate of progress.

Admission to postgraduate diplomas demands graduation from a recognized university and often passes in an undergraduate course relevant to the diploma course. The admission of overseas students to higher degrees is decided by each faculty and university. To proceed to the degree of master in faculties of arts or science, a bachelor degree with honours is normally needed. Graduates with a lesser qualification must undertake additional study and pass an examination at honours standard before being permitted to present a thesis. The PhD degree is awarded in a number of departments and faculties in the Australian universities (see 'Directory to Subjects of Study', below). For admission to the course for the PhD degree, students need to be graduates of senior standing with first or second class honours, and preferably with a master's degree or some research experience if their honours work has not involved research. Most universities have a special committee or board of studies to decide applications. Reference to the higher doctorates (LittD, LL.D, DSc, etc.) is made in the next section.

#### STRUCTURE OF DEGREE AND DIPLOMA COURSES

The pattern of Australian degree courses has been influenced more by the pattern of degree courses in England and Scotland than elsewhere. But there are differences in the structure of degree courses as between Australia and the United Kingdom. For example, although Australia endeavours to keep its standards in line with those of the United Kingdom, it places more emphasis on the importance of the pass degree. Its universities usually have more faculties, and there is a considerable stress on professional education at the university level. In addition, most Australian universities, but not all, admit 'external' students, at least within their own states, as well as 'part-

time' internal students. There is also a tendency in Australia, especially in science and applied science, for honours courses to require an additional year of study, including research, while at the undergraduate level, examinations in most university departments tend to be set at the end of each academic year of study.

The 'unit' of study is an academic year's work (30 weeks approx.) in 'part' of a 'subject', but a unit in the American sense would represent only a small, or very small, section of an Australian bachelor course. Australian universities, like universities in Britain, throw responsibility on the student, and hours in class are seldom an adequate criterion as to the quantity and quality of work expected to be covered by students. Although general-type courses exist, there is more emphasis on 'depth' and less on 'breadth' in the structure of Australian degree courses.

A 'faculty' consists of a broad division of knowledge (e.g. arts, science, medicine, engineering, etc.), including its teachers, and it may incorporate a single 'department' or many departments. In the former case the head of the department may by annual or periodic election become the permanent dean of the faculty. In the latter case the deanship tends to rotate. A department is responsible for a 'course of study' in a subject (e.g. English) or in a group of subjects (e.g. modern languages). The course of study is divided into stages or parts by 'years of study' (e.g. year I or part I or stage I of the course, etc.), the parts comprising the units of the course (e.g. English I, II, III), English I being a first-year unit and English III a third-year unit. Students are not generally allowed to proceed to units of higher grade until they have passed the corresponding units of lower grade. Sometimes after the first year a department sets out its offerings in the following manner: English IIA, English IIn, English IIC, etc.; students being allowed to select two or more units in their second and third years. Occasionally there is selection in each year of study, honours candidates being required to take certain specified units or more units than pass candidates. To-day, because of the use of machines in the university administrations, course units are often designated by code numbers.

Departments often suggest 'schemes of study', and sometimes related departments combine to make 'schools of study'. A unit in the arts faculty may involve from two to four lectures a week plus assignments, tutorials, attendance at discussion groups and so on. The lecture requirement is similar in science, but four, six or more hours of laboratory work are required.

Nine units spread over three years are normally needed to complete a bachelor course in arts or science, but courses of ten units exist. A typical nine-unit course would include four units in the first year, three in the second and two in the third, an 'annual' examination being held at the end of each year. A science student taking a first-year unit might spend six or more hours a week in class work. The same student taking a

third-year unit would probably spend twelve or more hours a week, most of them in the laboratory. In place of the laboratory, students of arts, economics and law need to make good use of the facilities provided in the library. Because of the time-consuming demands of science courses, there is to-day a trend in some universities to retain the three-year pass course but reduce the total academic load, while in other universities the lengthening of the course to four years (for pass and honours) is being attempted or debated.

The failure-rate in the first-year examinations is fairly high (of the order of 35 per cent on average). In Australia the first year of study operates as a diagnostic year for student retention. This means that the first-year examinations function as internal selection examinations; but after their successful completion the chances of a full-time student completing his course are fairly good in most, though not in all, faculties. Many students take longer than the minimum period to complete their courses because they are required to repeat failed units or to repeat a year of study.

Practical tests in science subjects and oral tests in language subjects are employed as part of the annual examinations. Supplementary examinations may be allowed students who fail one or more units at an annual examination, but the type and time of examination vary with faculty and university, and not all faculties grant supplementaries. The terms used in grading passes also vary, such expressions as high distinction, distinction, honours, merit, credit, etc., being employed. The University of Melbourne and Monash University use the term 'honours' to grade their units as well as their degrees.

The units in professional courses are greater in number than in arts and science, and often part-units are introduced in higher years of study. Lesser units or part-units are also found in diploma courses. Altogether there are fourteen faculties among the Australian universities, including arts and science, the basic pass courses of which are still of three years' duration in most of the universities. The length of professional courses for the bachelor degree varies from three to six years, e.g. agriculture, forestry, law, economics-commerce, education, music—mostly 4 years (although at Sydney economics takes 3 years and there is an alternative course of 3 years in agriculture); engineering, technology—4 or 5; architecture, veterinary science, dental science—5; medicine—6. Some of the shorter courses require an additional year for honours, and some professional courses begin with a pre-professional year in arts or science. In a few professional areas, bachelor degrees are given only at the postgraduate level, for example, in divinity, and at Melbourne and Queensland in education. In divinity the major work may be undertaken at an affiliated theological college or even outside the university altogether (see section on 'Institutions of Higher Education other than Universities', below). The most common qualification in education is a diploma in education involving one year

of professional training following a first degree; and in some universities promising candidates may proceed direct to the MEd degree on completion of the DipEd. There are first degree courses of 4 years for the BEd degree at Sydney and Western Australia, but both these institutions award the DipEd to graduates. However, while at Sydney a graduate who has completed the DipEd may, under certain conditions, proceed direct to the MEd degree, in Western Australia he normally completes the BEd degree (of which the DipEd is the first year of the course for graduates) before undertaking the work for the MEd degree.

In some universities, where the content of honours courses during the second and third years in arts is more demanding than the content of pass courses, a student may succeed in completing a BA with honours in three years. But the trend of the times is towards a four-year honours course particularly in science. In law and medicine, honours are usually decided on the quality of the passes in the course. In basic faculties students are allowed in some universities to take either a pass course or an honours course, although students mostly need to obtain permission to undertake honours and many avoid doing so because of the extension of time. Students who do not gain honours may be credited with a pass degree, while some students who take only pass courses produce not undistinguished records. The increased subsidisation of students to-day, especially in science, is encouraging a rising percentage to proceed to honours, and particularly when an additional honours year involves not only extra study but also an honours thesis exemplifying some competence in the methods of research.

Many Australian students in faculties of arts, commerce and economics are 'part-time' in that they undertake university study while engaged in full-time employment as teachers, civil servants or clerical workers. Mostly, students of this type are not allowed to enrol in all the units of a given academic year. Often the maximum permitted is two per year. Part-time enrolments in the faculties concerned cause lectures to be repeated in the late afternoon or evening. Thus the minimum period for graduation of part-time students is often five or six years. Some universities allow the enrolment of part-time students who attempt a full-time course, but this is generally discouraged (see section on 'Students', below).

Further, most of the undergraduate teaching universities make provision for 'part-time external' students in remote country districts. Many such students are teachers in primary or secondary schools. The universities of Queensland and New England have special external departments, and Queensland makes provision for external 'overseas' students, some of whom are enrolled under the Colombo Plan. The University of Sydney, however, does not permit external enrolment (see section on 'Students', below).

The minimum period of full-time study for

an MA or an MSc degree is five years from matriculation or two years from completion of the ordinary bachelor degree. But, if a BA or BSc degree with honours is obtained in four years, a student can usually proceed with his research and present his master's thesis without further examination. Pass graduates must undertake additional study and undergo further examination, usually at honours standard, before being permitted to present their theses for the master's degree.

In professional faculties, including medicine, law, engineering and education, there are varying procedures at the master level, often involving additional examinations and sometimes professional experience. For graduates proceeding to higher degrees the current trend is towards the supervision of their work up to the degree of PhD.

To-day an increasing number of candidates with good honours degrees in science is by-passing the master's degree and proceeding direct to the degree of PhD, although some departments, particularly in the arts faculty, prefer students to take a master's degree first. The minimum period for the PhD degree is usually six years from matriculation, although seven or eight years of study and research are common among able students. The PhD is the highest award for supervised research work and the thesis usually needs to be acceptable for publication in whole or in part if its material has not already been published. Not all faculties or departments permit students to enter for the degree (see p. 18), which in most universities is controlled by a special committee. Students enrolled for the PhD degree may be required to take special units of study appropriate to their doctoral researches. Some universities allow part of the course to be carried out under approved supervision in other universities or research institutions, or else they permit a section of the work to be undertaken part-time. The higher doctorates (LittD, LL.D, DSc, etc.) are generally awarded to-day to graduates of high standing for published work or independent research which represents a substantial contribution to knowledge. Most universities will not accept submissions for the higher doctorates unless candidates are their own graduates or unless they are members of staff.

Diploma courses vary in length from one to three years; some are awarded for subgraduate study and others for postgraduate study. Most diploma or certificate courses have a practical bearing and emphasize techniques and skills although they not infrequently include units which form part of degree courses. The practical work required is often carried out in affiliated or associated institutions such as hospitals, schools, teachers' colleges, technical colleges, conservatoriums, etc.

The 'practical' requirement in degree courses in science and applied science frequently includes 'field work' (e.g. in botany, zoology and geology), or experience on farms, in industry, or in engineering works. Sometimes practical experience of

this type is 'sandwiched' into a course by using occasional terms or long vacations. More often, perhaps, the experience necessary for registration by professional bodies needs to be obtained after the completion of the degree course. At the University of New South Wales, students working for degrees in architecture, engineering, medicine, science and technology take, as part of their courses, units in the humanities and social sciences. Similarly, students undertaking meta-type studies, take at least two courses in scientific thought or in the natural sciences.

**TEACHING STAFF** The head of a full university department is a professor; but in large departments there may be several professors, one acting as the administrative head with an appropriate title. In a university research institute one of the professors may hold an appointment as director. Departments of more junior standing are often administered by staff of sub-professional rank. Although in some universities it is not uncommon to fill professional chairs by internal promotion, such positions are usually advertised. It is a more frequent practice to fill positions of lower rank by internal promotion from among lecturers with a good teaching or research record.

Professorships are regarded as permanent appointments although they may need to be confirmed after an initial term of service. Below professional rank there are various gradings. The most junior positions (tutors, teaching fellows, graduate assistants, etc.) are often limited in tenure, with a maximum of three years. Demonstrators in science departments, according to their qualifications and experience, may hold short-term or long-term appointments, and some of the more senior posts rank with lectureships. In departments of science and applied science there are positions of varying seniority including laboratory manager and technical assistant, which may be held by graduates or by the holders of technical qualifications.

Most university teaching staff hold the rank of lecturer or senior lecturer, and above these positions there is a grading of associate professor or reader. These positions are regarded as permanent, even though they may be subject to periodic review. In the Institute of Advanced Studies of the Australian National University the permanent grades include: professor, reader, senior fellow and fellow. Short-term appointments in the Institute are made to the positions of senior research fellow and research fellow. Among the Australian universities, the normal retiring age for holders of permanent appointments is 65 years; but holders of more senior positions, and especially of chairs, occasionally have their appointments extended beyond this age.

The usual teaching methods include lecture, seminar and tutorial. In science departments these methods are supplemented by demonstration and laboratory class, and often by field work or work in a museum. The use of audio-visual aids, as well as mechanical aids to computation,

is common to-day in most departments. Essays, assignments, dramatic work and methods of oral expression are frequent in arts departments, which lean heavily on the library, and some universities are experimenting with the idea of supplementing class work by television broadcasts. Because research and publication provide avenues for promotion an attempt is made to limit the teaching load of more junior lecturing staff even though enrolments in first-year classes are considerable. Some staff members devote their time to research and to postgraduate students; but most lecturing staff, according to their teaching, tutorial and laboratory commitments, have about one-half of their time theoretically available for their own special pursuits. Heads of departments, however, need to devote much of their time to administrative duties including attendance at faculty and other meetings.

Among the Australian universities academic salaries are reasonably comparable, and although some differences between them occur from time to time, the similarities are usually greater than the differences. For certain positions in medicine, law, engineering and science, the standard salaries may be supplemented, especially at the professional level. Allowing for some variation between institutions, at the time of writing, the approximate standard rates of salary being paid in Australia are: professor, £A4250 or more, according to the institution concerned; reader or associate professor, between £A3000 and £A3500; senior lecturer, between £A2500 and £A3000; lecturer, between £A1700 and £A2500. Salaries at the lower levels are graded, while professional salaries tend to be fixed.

Subsistence or study leave is granted to teaching staff of the grade of lecturer or above, and a number of the universities provide grants of varying amount, in addition to salary, to assist staff members to travel overseas during their leave. Financial provision is also made by some universities to help staff travel to conferences in Australia and occasionally abroad. All the universities have superannuation schemes, mostly on the lines of the F.S.S.U., although some schemes are more generous than others. At Sydney, for example, professional staff may elect to contribute either to the Sydney University professional superannuation scheme or to the New South Wales superannuation scheme. A professor who elects to contribute to the first scheme, which is similar to the F.S.S.U., is granted a non-contributory pension additional to the benefits of the scheme. The lecturing staff comes under the New South Wales state superannuation scheme. Among other amenities are staff houses or clubs at a number of the universities. Each university has its staff association, and there is a federal council of staff associations. Various universities own or rent houses or flats for the benefit of newly arrived staff, and most of them also have schemes to assist the purchase of homes by staff members.

The usual Australian practice is to advertise vacant teaching posts. There is no statutory

restriction as to nationality and vacancies are generally open to candidates of foreign birth or nationality provided they have an adequate command of the English language. The advertisement of junior positions is frequently confined to Australia and New Zealand, but lectureships and more senior posts are very often advertised in the United Kingdom, and to a lesser extent in European countries and North America. With the most senior posts (e.g. professor or reader), even though positions are advertised, a university may retain the right to appoint by invitation after private enquiry.

In 1960 the total number of full-time and part-time teaching and research staff in the Australian universities (part-time staff in brackets) was: professors, 335 (including 3 part-time); readers, associate professors, lecturer-in-charge, etc., 292 (2); senior fellows and fellows of the A.N.U., 55; senior lecturers and lecturers, 2940 (294); research fellows and research fellows of the A.N.U., 51; tutors, demonstrators, etc., 1314 (599); external studies, 86 (63). Total, 5953 (1592). In addition, library staff numbered 396 (9).

Disregarding part-time and visiting staff, as well as junior staff (tutors, demonstrators, teaching fellows, graduate assistants, etc.), who are mostly recruited locally, Australian full-time staff from lecturer to professor in 1960 consisted of: (a) Australian graduates without degrees from other countries, 49 per cent (local degrees 27%, graduates from other Australian universities 22%); (b) graduates from the United Kingdom, 34 per cent (London 9%, Cambridge 8%, Oxford 71%, other English 64%, other U.K. 24%); (c) graduates from other British Commonwealth universities, 4 per cent; (d) graduates from continental Europe and the U.S.A. (in about equal proportions), 10 per cent; and (e) others, 3 per cent.

One-half of staff with U.K. degrees consisted of Australian graduates, who mostly studied at the doctoral level. As two-thirds of staff with U.S. degrees and one-quarter of staff with European degrees were also Australians, the total effect was that in 1959 seven full-time staff members out of ten were Australian born.

Further, the more populous universities of Sydney, Melbourne, Queensland and Adelaide appointed one-quarter of senior staff members, of the rank of reader or professor, from among those who did not hold degrees of other universities. In the less populous universities of Western Australia, Tasmania and New England senior appointments of this type were few in number. However, the first group of universities appointed 52 per cent of senior staff from those holding degrees of the United Kingdom (three-fifths of them Australians), while the second group appointed 63 per cent from the same source (three-quarters of them Australians).

STUDENTS. In 1960 the gross enrolment in the Australian universities was 54,322 students. Of these, 32,144 were full-time (60 per cent), 16,691

were part-time (50 per cent), and 5497 were external (10 per cent). The number of women was 12,654 (23 per cent.). In the total were 2771 graduates proceeding to higher degrees (5 per cent.) of whom 141 (including 15 women) were full-time students in the Institute of Advanced Studies of the Australian National University. During 1960 15,898 new students were enrolled (29 per cent. of total students). Of the new students 6 per cent. were age 16, 31 per cent. age 17, 21 per cent. age 18, 8 per cent. age 19 and 34 per cent. age 20 years and over. Most of the new students in the last category were part-time or external.

Part-time students usually study in the evening. However, there are part-time day students, and in some universities there are evening students who take full-time courses. As mentioned earlier, part-time students are generally limited in the number of units they may take in each academic year (see section above on 'Structure of Degree and Diploma Courses'). Sometimes tutorial classes for external students are arranged in country districts or at convenient centres during vacations. This is done by the universities of New England and Queensland, while lecture notes, reference lists and not infrequently library books are sent to these students by various universities (see section below on 'Extra-Mural Classes and University Extension').

Australian students mainly live at home (72 per cent.). The reason is that the majority of the universities are situated in areas of greatest population density. The percentage quoted relates to the year 1960 when there were 41 residential colleges or halls. These, however, accounted for only 8 per cent. of students, while a further 20 per cent. were living in lodgings. At the University of New England almost all internal students are in residence. The Australian National University is largely a residential institution at the postgraduate level. University House provides accommodation for staff as well as for postgraduate students without children. There is also a hall of residence for other students.

Most universities have a student union responsible for student amenities including refectory, club rooms, sports buildings and ovals, occasionally a theatre, and so on. Student affairs are generally under the control of a student representative council and there is a wide range of sporting, social, cultural, religious and political clubs and societies. At the University of Western Australia, student societies as well as clubs and societies are under the control of a body called the guild of undergraduates, while at the Australian National University the social life of the staff and postgraduate students is centred in University House, which is also a residential college. At most of the universities there is an officers' training corps or university regiment and at a number of the universities there is also an air training squadron. During the short vacations inter-university cultural and athletic contests are held. The federal body dealing with student

affairs is the National Union of Australian University Students.

Various welfare services exist for the benefit of students. A number of the universities have health services, and students to-day are required to undergo a compulsory X-ray examination of the chest. There are also student advisers, counsellors or guidance officers. At some of the universities there is a warden of students, or a similar officer of senior standing, who is responsible for the general administration of student buildings and affairs, and for the co-ordination of student activities. Most universities have an appointments board or an appointments officer, and various universities have special research officers or staff members, associated with their administrations, or with their departments of education and psychology, to study student problems as well as the broader issues in university education at the present time. To-day many students take paid employment during their long vacations, and even at other times, to assist them financially with their studies. Some of the universities have housing officers; otherwise information is obtainable from the central administrations or the student bodies. In most universities the student bodies gather information about lodgings or hostel accommodation. Most student bodies publish their own newspapers, and a number of them also produce orientation booklets at the commencement of each year for the benefit of new students. To help such students, student organizations and teaching staff co-operate during an 'orientation week' before lectures begin.

The general fee for membership of student bodies, including the use of union facilities, varies from a nominal amount up to about £15 p.a. according to the amenities provided. Additional charges are made for individual membership of student clubs and societies. The fees charged by residential colleges and halls are separate from ordinary university fees, including the fees of the student bodies which are usually collected at enrolment time. College fees include residence during term as well as tutorial assistance. Additional costs are involved when a student remains in residence during vacations. The charges made by university colleges or halls of residence vary between £A150 and £A300 a year, and taking account of university and other fees, college students will probably need up to £A600 to carry them through a full calendar year. The normal cost of reasonable lodgings or hostel accommodation varies from £A3 to £A7 per week. Tuition fees vary according to university and faculty; but in Monash University there is an overall fee irrespective of faculty. In addition, Monash University makes no compulsory charge for student amenities.

Most university students are Australian born; but since the war increasing numbers of students from migrant families have been enrolled. Many of these have come not only from the United Kingdom, but also from continental Europe. In addition, 3272 students from Malaya-Singapore, Hong Kong, India, Pakistan, Ceylon and Indo-

nesses, as well as from other countries in south-east Asia and the Pacific, were enrolled in the universities during 1961 (including 496 under the Colombo Plan). The university enrolment represented about three-tenths of all overseas enrolments from primary school to university. Australian National University postgraduate scholarship holders in March 1962, included 95 from overseas, many of them from the United Kingdom, Europe and North America.

Of all students enrolled in the Australian universities during 1960 (i.e. including full-time, part-time and external students) almost one-half were assisted by scholarships, bursaries, free places and other forms of financial assistance; but of full-time students only the proportion was four in five. Further, four-fifths of the total assistance available came from Commonwealth and state governments, of which over half was represented by scholarships under the Commonwealth Scholarship Scheme\*. This scheme was established by the Commonwealth government of Australia in 1951. Under it 4000 new scholarships are now provided annually for open competition among intending students who wish to undertake courses in the Australian universities or in other approved institutions of higher education. The scholarships are awarded on merit; and because of rapidly rising numbers of qualified applicants selection standards have been increasing in severity. To qualify for the scholarships, applicants and their parents must be resident in Australia at the time of the award of a scholarship and must intend to remain permanently in Australia. The maximum annual value of an undergraduate award to a full-time student, including (i) fees, etc., and (ii) living allowance (the latter being subject to a means test) at a high-cost university, such as Sydney, and in a high-cost course such as medicine is—*living at home*—fees, etc., £A150 plus living allowance £A247, total £A397, *living away from home*—fees, etc., £A150 plus living allowance £A384, total £A534. Many students, because of the means of their parents, do not qualify for the living allowance. Additional Australian Commonwealth scholarships and fellowships of a value varying from £A750 p.a. to £A1260 p.a. are available for postgraduate study and research. A residential qualification attaches to these awards, so it does to the undergraduate awards. Financial assistance provided by the states to university students includes 'bonded' awards which bind recipients to subsequent professional service in the states concerned. Bonded awards are often made to prospective teachers, scientists and engineers.

Except at the Australian National University, there are relatively few awards open to overseas students although considerable numbers of Asian students have their higher education paid for by Australia under the Colombo Plan. Other students are assisted under Unesco schemes or by scholarships awarded to them in their own

countries. However, greater opportunities for postgraduate study by overseas students are now available under what is called the [British] 'Commonwealth Scholarship and Fellowship Plan' (see last paragraph of section on 'Inter-University Organisations', below). To-day, such bodies as the Australian C.S.I.R.O., as well as banks and industrial organizations, provide scholarships for undergraduate and, especially, for postgraduate study, but few such awards are open to overseas students.

Estimates of future university enrolments indicate a rise from approximately 37,000 students of all types in 1957, at the time of the Murray report, to a total of approximately 88,000 by 1965. The latter figure, which is dependent upon the provision of university facilities and staff, represents an estimate made by the Australian Universities Commission in 1960.

**ACADEMIC YEAR.** The Australian academic year accords with the seasons of the southern hemisphere. On average the teaching year of three terms begins in early to mid-March following the enrolment of students and, in a number of the universities, in orientation week. The first term ends about the second or third week in May. The second term begins during the first or second week of June and continues until the first or second week of August. The third term begins about the first of September and continues until the end of October or early November, after which the examinations, occupying a period of three weeks to a month, are held. In most universities the ordinary teaching and examining work of the year finishes about mid-December, when the long vacation begins (see next section).

**VACATION COURSES.** Regular summer sessions of the American type, with university credit for work successfully performed, are not held in Australia but 'summer schools' for extra-mural students are held, and in most states these are not under direct university auspices even though university staff assist. Practical field work, and work in industry, hospitals or schools, required as part of degree or diploma courses, is often done during long vacations, similarly, staff and postgraduate students usually use these vacations to further their personal researches. At some universities seminars for students who study externally are arranged in the vacations. During vacations and occasionally during term, individual university departments arrange conferences or run in-service courses for the benefit of teachers, business and professional groups, farmers and those engaged in the social services or in scientific occupations. Sometimes this work is linked with university extension services or with adult education activity (see next section).

**EXTRA-MURAL CLASSES AND UNIVERSITY EXTENSION.** University extension lectures began at

\* This Commonwealth (of Australia) Scholarship Scheme is completely distinct from the [British] Commonwealth Scholarship and Fellowship Plan (see pp. 14, 15 and Appendix VII) in which many countries of the British Commonwealth participate.

Sydney University in 1886 and at Melbourne in 1891. In 1913 workers' educational associations were formed in these states. Since then changes have taken place in the organization of the work which is now mostly known as adult education. However, where the W.E.A. continues, it is assisted by university staff in the conduct of tutorial classes, a university officer usually acting as director. The Sydney organization includes a joint committee of W.E.A. and university, the committee appointing the tutors and supervising their work. In Victoria adult education is under a statutory council set up by the state government, while the University of Melbourne has a separate extension board. In Tasmania there is a board of adult education with university representation, and a body of the same name exists in Queensland. Adult education in South Australia is shared between the University of Adelaide department of adult education, the W.E.A., which works in close collaboration with the university department, and the state education department. In Western Australia, where adult education is an extra-mural function of the university, there is an adult education board responsible to the university senate. The University of New England takes responsibility for adult education in its area; the University of New South Wales, which has its own radio station, conducts extension courses under a co-ordinator of postgraduate and extension studies; and at the Australian National University there is a department of adult education within the school of general studies. In states which have adult education boards, whether under direct university auspices or not, the responsible officer is usually called the director of adult education. For many of their courses the boards depend on the co-operation of university teachers, and during the summer schools held in January, professors and senior lecturers are among the leaders. The boards are not only responsible for classes and study groups in city and country, but they also sponsor drama, music, ballet, art, etc., and arrange for groups of performers as well as tutors and lecturers to tour country districts.

Although not specifically regarded as part of adult education or university extension, the comprehensive system of correspondence education developed for external university students (and even for overseas students) by the University of Queensland, supplemented by classes in country districts, represents a substantial extra-mural function. A similar service is conducted by New England, while some other universities have less ambitious schemes (see sections on the 'Structure of Degree Courses, etc.' and 'Students', above). Despite these particular activities, as well as tutorial class activities in New South Wales, adult education in most Australian states is not regarded as instrumental in the attainment of higher technical or academic qualifications, but rather as a means towards general cultural education, or assisting with leisure-time pursuits and skills.

**INTER-UNIVERSITY ORGANIZATIONS.** The present Australian Vice-Chancellors' Committee developed from a standing advisory committee created to deal with matters of common interest following a university conference in Sydney in 1920. Although it is still in the main a consultative body, the committee now performs many important functions where general university policy and the national interest are involved. This is especially true since the report of the Murray committee and the increased interest of the Commonwealth government of Australia in the welfare of the universities, including the establishment of the Australian Universities Commission, referred to previously. The Vice-Chancellors' Committee keeps in touch not only with the Australian Universities Commission but also with the Commonwealth government itself, and with its departments, including the Commonwealth Office of Education and the Commonwealth Scholarships Board on such matters as local and overseas students, as well as the [British] Commonwealth Scholarship and Fellowship Plan. The committee usually meets five or six times a year; and with its support periodic meetings of university registrars are held, usually in the middle of each year.

The present chairman of the Vice-Chancellors' Committee is Professor J. P. Baxter, CMG, OBE, vice-chancellor of the University of New South Wales. The deputy chairman is Mr. S. L. Prescott, OBE, vice-chancellor of the University of Western Australia, and the secretary is Brigadier R. G. H. Irving, CBE, University of Melbourne, Parkville, N.Z., Victoria. The address of the Australian Universities Commission is Commonwealth Offices, Treasury Place, Melbourne, C.Z., Victoria. The commission's chairman is Sir Leslie Martin, CBE, and its secretary is Mr. D. St. A. Devlin.

The staff associations of the universities have combined to establish a Federal Council of University Staff Associations of Australia. The president of the Federal Council, which came into existence in 1952, is Professor R. H. Thorp, department of pharmacology, University of Sydney. The hon. secretary/treasurer is Mr. K. D. Buckley, department of economics, University of Sydney.

The National Union of Australian University Students dates from 1937, when, during an Australasian university conference at Adelaide, it was decided by the representatives of the student bodies to form a union on the lines of the union in England. The N.U.A.U.S. has its own council to which the student bodies send their delegates. Each year the N.U.A.U.S. holds a congress in January.

Office-bearers of the N.U.A.U.S., at the time of writing, include Mr. G. Harvey, Guild of Undergraduates, University of Western Australia (president) and Mr. G. W. Evans, N.U.A.U.S. Secretariat (vice-president). Lieutenant-Colonel R. G. L. Bowles (administrative secretary) is in charge of the secretariat, the address of which is 52 Storey Street, Parkville, N.Z., Victoria.

To administer the scheme by which students granted reservation for university study during the war were financially assisted, the Commonwealth government established a Universities Commission in 1942. However, with the creation of the Commonwealth Office of Education under the Commonwealth Education Act of 1945, the Universities Commission became responsible for the Commonwealth Scholarship Scheme as its major function. Then in 1959, to avoid confusion with the new Australian Universities Commission, an amendment was made to the Education Act whereby the name of the older commission was changed to the Commonwealth Scholarships Board.

The director of the Commonwealth Office of Education is Mr W. J. Weeden, who is also chairman of the Commonwealth Scholarships Board. The address of the Commonwealth Office of Education and of the Commonwealth Scholarships Board (the secretariat of which is provided by the C.O.E.) is 50 Miller Street, North Sydney, or Post Office Box 189, North Sydney, New South Wales.

There are branch offices of the C.O.E. and of the Commonwealth Scholarships Board in each state except Tasmania, and these offices work in close conjunction with the university administrations.

As a result of the legislative changes in 1959, the Commonwealth Office of Education and the Australian Universities Commission function as separate entities under the prime minister's department. Before the establishment of the Australian Universities Commission, the Commonwealth Office of Education was responsible for Commonwealth grants to the universities under the States Grants (Universities) Act.

One of the activities of the Commonwealth Office of Education is the supervision of the university training of overseas students who now come to Australia under a number of international scholarship schemes. The biggest of these is the Colombo Plan Technical Co-operation Scheme, but in addition, the C.O.E. supervises the training of students under such schemes as the Korean Training Scheme, the United Nations Expanded Programme of Technical Assistance and the scheme of Australian International Awards. There are also commitments towards students who come to Australia to study under the [British] Commonwealth Scholarship and Fellowship Plan, an aspect of the scheme of Commonwealth co-operation in education which resulted from a conference at Oxford in 1959. Further, Australia's intention to participate in a new scheme of assistance to African countries, under the Special Commonwealth African Assistance Plan, was announced by the Australian government during 1961; and the C.O.E. is now acting as a training authority for students in Australia under this scheme.

**THE UNIVERSITIES TO-DAY.** By 1960 the universities of Sydney and Melbourne had each

enrolled more than 11,000 students, and other universities had shown a corresponding growth. After the conclusion of the second world war none of the universities experienced a settling-down period. Research deficiencies, which became evident during the war, an increasing demand for higher professional, technological and academic qualifications, new national and international responsibilities, and an accelerated industrialization have all affected the growth and pattern of Australian higher education, and especially of the universities. During the past few years, apart from large-scale power and water schemes, defence projects involving also the United Kingdom, and nuclear research and automation, there has been an increasing tide of adolescent youth remaining longer in the secondary schools. This particular evidence of rising educational expectations has not only created problems of organization and staffing in the schools, but it has also caused the universities to be flooded with applicants qualified for admission according to the accepted matriculation standards. In this regard, it has not been easy to apply educational solutions, characteristic of countries with long traditions, small land area and high population density, to a continent, such as Australia, with shorter traditions, large land area and low population density. Nevertheless, the universities of Sydney and Melbourne have lately found it necessary to introduce post-matriculation selection, to cope with numbers, and a possible development in 1964 is the proposal to establish a joint matriculation board for Melbourne and Monash universities. Both these solutions are reminiscent of educational practice in Britain.

Reference has already been made to the increasing commitment of the Commonwealth government of Australia in university finance since the war. A major effect of this development has been a general acceptance, during the past ten years, of the view that the universities can now function successfully only on the basis of a joint Commonwealth-states responsibility. This attitude is to be seen in the recommendations of the Murray committee of 1957 and in the first report of the Martin commission of 1960, the financial proposals of which for the triennium 1961-63 were accepted in full by the Commonwealth government. The charter of the Martin commission required that it should (1) act as a liaison body between Commonwealth, states and universities; (2) report on university development every three years; and (3) make recommendations to the governments concerned on university finance.

Developments in the Australian universities since the report of the Murray committee have been considerable. More money has been available for staff and other expenses, salaries have been raised, many new buildings have been started or erected, new equipment has been supplied, research work has been extended, new departments established and new universities created. This growth has not been without controversy; and there is constant discussion about matriculation,

selection, failure rates, university teaching, expansion problems and staff recruitment.

Recent developments include the creation of the University of New South Wales in 1958 from the earlier New South Wales University of Technology, the establishment in the same year of Monash University in Melbourne, the change in status and organization of the Australian National University, Canberra (in 1960) and the beginnings of university decentralization in Queensland with the opening of the University College of Townsville (in 1961).

Further, in March 1961, Monash University opened its doors with 3,500 students in the faculties of arts, economics and politics, engineering, medicine and science. When fully developed it is expected that the university will have about 8,000 full-time students and 4,000 part-time students. Also early in 1961 the government of Victoria appointed a committee to survey university needs during the next decade, and it asked the committee to report whether a further university should be established in Victoria, or whether there should be university colleges in city and country. Later in the same year the Commonwealth government established a committee to examine the future of tertiary education throughout the whole of Australia, including universities, technological institutions, technical and other colleges, and teachers' colleges.

Another significant development in 1961 was the holding of the first biennial conference of the Australian universities at the University of Sydney, under a co-operative arrangement between the Australian Vice-Chancellors' Committee and the Federal Council of University Staff Associations of Australia. The intention to hold periodic university conferences reflects the model of the Home Universities Conference in the United Kingdom.

**INSTITUTIONS OF HIGHER EDUCATION OTHER THAN UNIVERSITIES.** It has been mentioned already that there are Australian institutions of higher education which are not regarded as university institutions (e.g. technical colleges, schools of mines, agricultural colleges, forestry schools and teachers' colleges) although a number of them are affiliated to or are associated with universities. In Australia there are no private or denominational universities, and, with one exception (see section below on 'Theological Colleges'), only the universities have the right to award the degrees of bachelor, master and doctor. Non-university institutions award associateships, diplomas or certificates; but some higher level institutions award fellowships and similar qualifications. Entrance to most diploma courses is at a lower standard than that of matriculation and is often at the level of the junior or intermediate certificate examinations (see Appendix III). However, there are varying admission standards according to the types of course students elect to take. Some courses (e.g. architecture) normally require university matriculation or its equivalent, while holders of certain college diplomas may be

granted university matriculation, or in addition they may receive partial credit towards university degrees.

**Agricultural Colleges.** The colleges of agriculture such as Gatton (Queensland), Hawkesbury and Wagga (N.S.W.), Longerenong and Dookie (Victoria), Roseworthy (South Australia) and Murrumbidgee (Western Australia) provide practical courses up to four years in length in the different aspects of agriculture. Their admission standard is generally below that of the leaving examination and matriculation although most of them are associated with the universities in the practical or the experimental aspects of agriculture. Some of the agricultural colleges assist in the training of teachers for rural communities.

**Conservatoriums of Music.** These are conservatoriums at the universities of Adelaide and Melbourne and degrees in music as well as diplomas are awarded. In these institutions the standard of admission to major courses is at the level of matriculation, but at Adelaide many conservatorium students, studying to become performers or teachers of music, are admitted below the matriculation level. In New South Wales and Queensland there are state conservatoriums separate from the universities. These admit students below the normal university entrance standard, although applicants need to possess practical qualifications in music.

**Forestry Schools.** The best known school of forestry is the Australian Forestry School in Canberra. Sydney awards its degree in forestry on work done at the school. In other universities degrees in forestry are usually awarded to students who spend part of their time in a university science faculty and part of it at the Australian Forestry School. The University of Melbourne recognizes the Creswick Forestry School in Victoria for degree purposes.

**Service and Administrative Colleges.** At the more advanced level students of the royal naval, military and air force colleges require not less than the equivalent of matriculation to be admitted, while certain college courses in science and mathematics are accepted by the universities as a part qualification towards degrees. The Australian School of Pacific Administration (Sydney), under the Commonwealth department of territories, trains students in the various aspects of service and administration in dependent areas. There is also an Australian Administrative Staff College (Melbourne) for the higher level training of business and other executives.

**Teachers' Colleges.** The standard of admission to the teachers' colleges varies somewhat from state to state but most students are recruited at the level of the school leaving certificate (see Appendix III) and many of these also hold university matriculation. The standard course for primary teachers is of two years, but matriculated students, preparing for secondary teaching, who attend the universities, may spend three, four or five years as 'college' students. There are shorter courses for certain categories of student,

and not infrequently the colleges assist in the training of graduates for the DipEd awarded by the universities. To-day there is an increasing tendency for the work of the colleges to be integrated with that of the universities. This is being done by co-operative association or by affiliation, and in Tasmania by incorporation in the university framework. Most teachers' colleges are controlled by the state governments, but there are a few independent teachers' colleges.

**Technical and Technological Institutions.** Admission to diploma and similar courses in technical colleges is usually at the level of the junior or intermediate examinations (see Appendix III), although some courses (e.g. architecture) require the leaving certificate, matriculation or the equivalent of these qualifications. The more advanced teaching in the colleges and schools of mines, especially in the physical sciences and mathematics, is often at a standard which permits candidates to enter for university examinations, and occasionally passes in the examinations of the institutions mentioned provide a partial exemption from university degree requirements. Although many diploma students are enrolled full-time, the technical colleges admit considerable numbers of part-time students. Technical, associate or diploma courses in engineering and science, which are of five years' or three years' duration, have a more practical bearing than degree courses.

In 1936 the University of Adelaide joined with the South Australian Institute of Technology to enable degrees in technology to be awarded by the university. In Western Australia the Kalgoorlie School of Mines is associated with the university faculty of engineering in the award of university degrees in mining engineering.

The trend of the times is to refer to 'technological education' or 'higher technological education' when emphasis is placed on the more advanced and scientific aspects of what was formerly known as 'technical education'; and while some areas of technological education are now established as functions of universities, others are being developed within the framework of institutes or colleges of technology or else in departments providing a higher level of teaching in technical colleges. In recent years the Royal Melbourne Technical College has become the Royal Melbourne Institute of Technology, and similar changes are occurring elsewhere. An earlier development, as indicated previously, was the establishment of the New South Wales University of Technology in 1949. This was done by streamlining off the more advanced courses at the Sydney Technical College. However, in 1958 the N.S.W.U.T. became the University of New South Wales.

**Theological Colleges.** The teaching of theology is mainly done in denominational colleges or seminaries, providing their own qualifications independent of the universities, although some of the residential colleges affiliated to the universities and administered by the churches assist in the teaching work. The standard of admission ap-

proximates to the level of the leaving certificate and it may be at matriculation level. Teaching in some of the colleges is at a standard comparable with that of university undergraduate courses, and a few colleges are recognized by one or two universities for degrees or diplomas in divinity. Among Australian theological colleges is the Australian College of Theology and the Melbourne College of Divinity. The latter institution awards the degrees of BD and DD.

**Research and Professional Institutions.** The best known independent medical research foundation in Australia is the Walter and Eliza Hall Research Institute in Melbourne which is linked with the Royal Melbourne Hospital as well as with the University of Melbourne. Among other bodies is the Australian Council for Educational Research, also situated in Melbourne. However, the largest single research organization in the country is the government-controlled Commonwealth Scientific and Industrial Research Organization which has many branches, as well as close affiliations with the universities, including C.S.I.R.O. laboratories on most university sites. At the postgraduate level there are royal Australian colleges of physicians and surgeons. There are also professional associations of lawyers, engineers, scientists and teachers (e.g. the Law Society, the Australian Institution of Engineers, the Australian Academy of Science and the Australian College of Education). These institutions admit to membership as a mark of professional recognition, and in some cases to fellowship as an award of special distinction.

## DIRECTORY TO SUBJECTS OF STUDY

**FIRST DEGREE COURSES, ETC.** The table on pp. 20-21 shows the main courses and subjects of study in the Australian universities. The symbol  $\nabla$  is used to indicate major courses,  $\pm$  those studied for two or three years for a bachelor degree. The symbol  $\checkmark$  indicates minor courses forming part of the course for a bachelor degree. Diploma courses, which are referred to below, are not included in the table.

Newcastle and Wollongong university colleges, and the Broken Hill division of the university, prepare students for degree and diploma courses of the University of New South Wales (see pp. 74-77). Similarly, the University College of Townsville prepares students for courses of the University of Queensland (see p. 86).

**HIGHER DEGREES** The PhD is awarded by the universities as follows. *Adelaide*: in agriculture, architecture, arts, economics, engineering,

law, medicine, science. *Australian National University*: in each of the research schools of the institute of advanced studies and in departments of the school of general studies. *Melbourne*: in all faculties except music. *Mowbray*: in all faculties. *New England*: in all faculties. *New South Wales*: in applied science, architecture, arts, commerce, engineering, science. *Queensland*: in all faculties. *Sydney*: in agriculture, architecture, arts, dentistry, divinity, economics, engineering, medicine, science, veterinary science. *Tasmania*: in arts, engineering, science. *Western Australia*: in agriculture, arts, dental science, education, engineering, medicine, science.

**DIPLOMA AND CERTIFICATE COURSES.** New England and Western Australia do not award subgraduate diplomas although the latter co-operates in the award of several diplomas by outside bodies. Other universities award diplomas

at subgraduate and postgraduate levels and some also co-operate in the award of diplomas by outside bodies. The two courses in which diplomas are mainly postgraduate are education and medicine. The University of New South Wales offers postgraduate diplomas in certain technological fields as well as in librarianship.

**Education.** Awarded by Adelaide, Melbourne, New England, New South Wales (Newcastle University College), Queensland, Sydney, Tasmania and Western Australia. Subgraduate awards are also made by Adelaide, Queensland and Tasmania.

**Medicine.** Melbourne and Sydney award diplomas in anaesthesia, diagnostic radiology, gynaecology-obstetrics, laryngology, ophthalmology (also Queensland), psychological medicine (also Queensland), public health, therapeutic radiology. Sydney also awards diplomas in clinical pathology, dermatological medicine and tropical medicine and hygiene.

<sup>1</sup> Minor courses are usually provided in agriculture.

<sup>2</sup> Metallurgy often forms part of the course in mechanical engineering (see also Engineering, Metallurgical).

<sup>3</sup> At Tasmania appropriate passes in an outside examination enable candidates to be credited with a unit of misc towards an arts degree.

<sup>4</sup> Courses in statistics may be classified under (a) general, (b) mathematical, and (c) economic. Most universities provide more than one course in statistics. Melbourne and Sydney give a broad coverage. Adelaide provides major courses in mathematical statistics and economic statistics. New South Wales gives two major courses including economic statistics.

## GENERAL INFORMATION

The univ. was established by act of the provincial legislature in 1874. It began with endowments of £A30,000 each from Sir W. W. Hughes and Sir Thomas Elder, a land grant of 50,000 acres (subsequently repurchased by the govt. for £A40,000), a rate of 5 acres in the city and an annual govt. subsidy of 5 per cent. on endowments. The original site was increased to 8 acres in 1920, to 14 acres in 1927, in 1929 to 27 acres and in 1960 to about 30 acres. It is now about 32 acres.

**CONSTITUTION.** The council consists of the chancellor, the vice-chancellor, 20 members elected by the senate and 5 elected by parliament.

The senate consists of all grads. holding degree of master or doctor and all other grads. of 3 yrs. standing.

**INCOME (1961).** Total for general running costs, £A2,285,304 (govt. grants, 88 per cent., endowments, 2 per cent., fees, 9 per cent., other, 1 per cent.). Income and grants for specific purposes, £A184,000. Original capital of endowments, about £A1,540,000.

**FACULTIES.** Agric. sci., archit. & town planning, arts, dent., econ., engin., law, med., music, sci., technol. Deans elected annually.

**BOARDS OF STUDIES.** Pharmacy, phys. educ., physiotherapy, soc. studies, research studies (for PhD degree).

**UNIVERSITY PRECINCT.** The campus consists of about 32 acres within the city of Adelaide and about 45 acres in park-lands for playing fields (with addnl. 15 acres playing fields at Waite Inst.), 3 major bldgs. in progress.

**LIBRARY.** Approx. 250,000 vols., excl. 18,000 vols. in Waite Inst. library.

**LABORATORIES.** At the univ.—anat., biochem., bot., chem., engin. (civil, electr., mech., mining, metall. and chem. engin.), geol., histol., microbiol., pathol., pharmac., phys., physiol., pharmacol. and zool. For the Waite Inst., see *ibidem*.

**MUSEUMS.** Anat., bot., geol., pathol., physiol. and zool.

**TEACHING HOSPITALS.** See *ibidem*.

The **ELDER CONSERVATORIUM OF MUSIC** (for staff see p. 28 above), established in 1898, is part of the univ. and provides tuition in a wide range of studies in the performance of music. Its students include not only those proceeding to the univ. dipl. but also many others who wish to study a principal subj. (e.g. singing or pianoforte) or to undergo trg. in group work such as orchestral and operatic performances and who study the dir. of their fitness to be admitted.

The **WAITE AGRICULTURAL RESEARCH INSTITUTE** (for staff see p. 28 above) was established in 1924 as a result of a gift by the late Mr. Peter Waite of an estate of 290 acres, a mansion-house and a trust fund of £A38,450. Subsequent endowments and govt. grants have expanded the work of the inst., the purpose of which is 'to further the cause of res. and educn. in agric. and allied subjects'.

**COMPUTING CENTRE.** (For staff see p. 29 above). Formed in Jan. 1961 to handle data processing problems for admin. and depts., and to promote res. in computing. Contains IBM punch-card equipment and a 1620 computer.

The **COMMONWEALTH SCIENTIFIC AND INDUSTRIAL RESEARCH ORGANIZATION's** div. of mathl.

scats and div. of biochem. and general nutrition are housed within the univ. grounds and its div. of soils at the Waite Inst.—a total of about 60 scientific res. officers and their ancillary staff.

**OTHER SPECIAL RESEARCH DEPARTMENTS.** (1) Field lab. at Koonamoose for investigation of plant regeneration in arid areas. (2) Sheridan Medical Res. Foundation for support of med. res. (3) Animal Products Res. Foundation, which conducts investigations into problems of animal nutrition (see staff list, p. 28 above). (4) Bd. for Anthropological Res. on aboriginals of Australia. (5) Anti-Cancer Foundation directs res. into cause, treatment and cure of cancer. (6) Mortlock Res. Centre for animal prodn. (7) Gwendolyn Michell Res. Foundation for med. res. (8) Mawson Inst. for antarctic res.

**COLLECTIONS OF INTEREST TO SPECIALIST SCHOLARS.** Collection of Australian endoparasites. The collection of the higher Australian fungi (basidiomycetes) given to the Waite Inst. by Prof. J. B. Cleland is by far the largest of its kind and is available for study by mycologists and forest pathologists. Collection of representative specimens from all the Australian opal fields. Anthropological collection of Australian skeletons. Collections of mammalian material. Herbarium of Australian plants. Reference library of Australian Salmonellas.

**ADMISSION.** See Appendix III.

**ORDINARY DEGREES.** 3 yrs., BA, BEc, BSc, BTech (courses in bldg. technol., civil, electr., electronic and mech. engin.; surveying, given chiefly at S. Australian Inst. of Technol.), 4 yrs., BSc in forestry (incl. 2 yrs. at Australian Forestry Sch., Canberra), BAgtc, LLB, MusBac, BAppSc (courses in appl. chem., primary metall., sec. metall.; given chiefly at S. Australian Inst. of Technol.), 5 yrs., BE (civil, electr., mech., metall. and chem.), BDS, BAuch, 6 yrs., MB BS.

**HONOURS DEGREES.** 4 yrs.—BA (classics; econ.; Engl.; French; geog.; German; hist.; Latin; maths.; philas.; pol.; psychol.; or an approved art. course in 2 of those subjs.); BEc (comm., econ.), BSc (biochem.; bot.; genetics; geol.; mach. phys.; maths.; microbiol.; org. chem.; pharmaceut.; phys.; phys. & inorg. chem.; physiol., zool.), MusBac (both addnl. work and higher standard than for ord. degree), BMedSc (aust.; biochem.; genetics; microbiol.; pathol.; pharmaceut.; physiol.), 5 yrs.—BAgtc (any approved branch of agric. sci.), BE (both addnl. work and higher standard than for ord. degree, in chem., civil, electr., mech. and metall. engin.); BArch, LLB (both addnl. work and higher standard than for ord. degree), BAppSc (in appl. chem., primary metall. and sec. metall.), 6 yrs.—BDS (addnl. year after passing the third, fourth or final exam. for ord. degree). No hon. degree in med.

**HONOR. DEGREES.** MArch (not less than 1 yr. after ord. degree); MA, MEd, MSc, MAgSc

(1 yr. after hon. degree or 2 yrs. after ord. degree); ME (2 yrs. after BE); LLM (2 yrs. after hon. LLB), MEd (after bachelor degree, dipl. in educ. and 3 yrs. experience in educ.); MD, MS, MDS, MusDoc (3 yrs. after MB BS, BDS, MusBac), MAppSc (1 yr. after hon. BAppSc or hon. BE, or 2 yrs. after any other approved degree); MTP (normally 1 yr. full-time or 3 yrs. pt-time), MIM (1 yr. full-time or 2 yrs. pt-time, plus thesis 1-2 yrs. after final exam.), PhD (3 yrs. after hon. bachelor degree in agric. sci., archit., arts, econ., engin. law, med. sci., or sci.), LL.D., DDSc (4 yrs. after LLB, BDS), DLitt, DSc (5 yrs. after graduation).

The univ. does not award HONORARY DEGREES.

**EXTERNAL DEGREES.** The univ. does not award any degree or dipl. for external studies, though in certain courses, e.g. arts, S. Australian students may, in special circumstances, be exempted from attendance at lectures in some subjs. of the degree course.

**DIPLOMAS.** Any subgrad. dipl. awarded by the univ. entitles the holder to use the letters AUA—Associate of the University of Adelaide—and, if desired, to specify the subj., e.g. AUA(Pharm).

Pharmacy, 4 yrs., music, phys. educ., soc. studies, physiotherapy, 3 yrs.; DipEd (postgrad.), 1 yr. Fellowship of the Elder Conservatorium of Music (FECM) by exam. or by unanimous resolution of fac. of music for entrance as a performer. A 'final cert. in law' for admission as a practitioner in the supreme court is obtainable by articled clerks on a curriculum less extensive than that for the LLB; a dipl. in arts & educ. (AUA) is granted to candidates who complete prescribed work in the fac. of arts plus prescribed profess. trg. in a recognized teachers' coll. (3 yrs.), a dipl. in pub. admin. is granted to candidates who successfully complete a prescribed course of study in the fac. of econ. and who have had at least 3 yrs. satisfactory service in the S. Aust. public service or similar orgn.

**PUBLIC EXAMINATIONS.** The univ. conducts the 3 public exams. in general secondary educn. in S. Australia—inter., leaving and leaving hon.—and the public exams. in music.

**POSTGRADUATE COURSES NOT LEADING TO A QUALIFICATION.** The postgrad. cities in med., dent and legal educn. organize regular postgrad. lectures by local, interstate and overseas lectrs.

**RESEARCH.** Facilities for postgrad. res. in every subj. listed under 'Teaching Staff' (above); the univ. makes annual allocation for special support of res. projects and postgrad. res. students; and in 1961 grants from outside sources for specific res. projects amounted to about £184,000. A *Research Report* is published annually; copies may be had free of charge by univs. and libraries on request to the registrar.

**STUDY LEAVE.** The univ. has a special fund to support study leave, which is granted not at regular intervals of right but after consideration of all

applications, for such leave in a particular yr. Study leave is granted on full salary, with £A600 for fires overseas and a daily allowance for men with family responsibilities.

**Fees** **Mature**, £A3.3s.; *ad eundem status*, £A4.4s.; admission to degrees; any degree of bachelor, whether ord. or hon., £A5.5s.; any degree of master or doctor, £A10.10s.; any dipl. and **FECNI**, £A5.5s.; statutory annual fee, £A13.10s.; general service fee, £A6.6s. or £A3.3s.; tuition fees for degree courses in arts about £A53 p.a., econ. about £A58 p.a.; sci. about £A93 p.a., agric. sci. about £A84 p.a.; engin. about £A84 p.a.; law about £A68 p.a., med. about £A95 p.a. (excl. hosp., £A40), dent. about £A90 p.a.; music about £A53 p.a.; technol. about £A75 p.a.; appl. sci. about £A71 p.a.; archit. about £A84 p.a.; dipl. courses in music, physiotherapy, phys. educn., and soc. studies, about £A63 p.a., in pharmacy, £A105 p.a. (all inclusive) payable to Pharmaceutical Soc. of S. Aust.; Elder Conservatorium tuition about £A40 p.a.

**ACADEMIC YEAR.** Mid-March to early Dec.; 3 terms of 10, 9 and 15 wks., each lecturing term comprising 9 wks.

**ADULT EDUCATION** (For staff see p. 29 above) Univ. bd. of adult educn. conducts extensive range of lecture, tutorial and discussion classes and study circles for adults in metropolitan area of Adelaide and is extending its work to country centres.

**VACATION COURSES** Summer sch. of bus. admin., organized by dept. of econ. (see also 'Publications' below).

**PRINCIPAL 'OPEN' AWARDS.** About 350 Commonwealth scholcs. (see p. 13) and 60 state bursaries (for residents of S. Australia, fees plus living allowance) each yr. for undergrad. studies. Not less than 13 Commonwealth postgrad. scholcs. (for residents of Australia: £A800 p.a., renewable each yr. up to 4 yrs. on recommendation of supervisor) About 60 (no varies each yr.) scholcs. and fellowships (£A550-£A1700 p.a.) for postgrad. studies.

**MAJOR BUILDING DEVELOPMENTS.** Bldgs. completed: Bragg labs (phys.); Napper bldg., stages 1 & 2 (arts & econ.); 2 addnl. floors on med. sch.; addnl. floor for archit. Bldg. in progress: addnl. floor on union refectory. *Major alterations.* Benham labs. (bot.); staff club bldg.; psychol. dept.

**REQUIREMENTS** A. J. Hannan (council); M. Hope Creighton (French).

**RESIGNATIONS** P. Dixon (Engl.), to Belf.; D.

**APPOINTMENTS BOARD.** The univ. maintains a small appts. service for the benefit of its grads. Sec. D. G. McKie, BA.

The **GRADUATES' UNION** is a constituent member of the univ. unios. Hon. Sec.: D. G. McKie, BA.

**RESIDENCE.** St. Mark's Coll. (accommodates 110 men), fee for residence during term about £A65 p.a.; St. Ann's (about 80 women), about £A233 p.a.; Aquinas (about 90 men), about £A219 p.a.; Lincoln (about 120 men), about £A235 p.a. These colls. provide tutorial instruction for their students over a wide range of the subjs. taught in the univ.

**SERVICE UNIT.** The univ. regiment was formed in 1947 and the univ. air squadron in 1950.

**UNIVERSITY UNION.** All students proceeding to a 1st degree or a dipl. are members of the union, and all full-time students are members of the sports assocn. Also a compulsory fee of £A13.10s. p.a. covers both. The union council controls the refectory and the union hall and maintains the health service, which offers without charge to the student a full med. and physical exam., including X-ray, Mantoux, etc., and advice about specific treatment (if any) needed and general health matters. The sports assocn. provides facilities for the whole range of organized games played in S. Australia; playing fields of about 45 acres in the parklands adjoining the univ., and about 15 acres at Waste Inst. The students' representatives council is responsible for all other student activities associated with the union. Sec. of the union: H. Swales Smith.

**PUBLICATIONS.** *Calendar* (April), 7s. 6d.; *Public Exam. Manual* (April), 7s. 6d.; *Regulations*, 2s.; *Syllabus and Timetable*, 2s.; *Gazette* (quarterly, by Graduates' Union), 3d.; *Australian Journal of Experimental Biol. and Medical Sci.* (two-monthly), £A3 p.a.; *Joseph Fisher Lecture in Commerce*, free; *Research Report* (June), free; *Proceedings of the Summer Sch. in Economics* (April), free. ### GENERAL INFORMATION

The Australian National Univ. was founded by an act of parliament of the Commonwealth of Australia in 1946. The act provided for the establishment in Canberra of a univ. consisting of a council and convocation, and grad and undergrad. members. The prime function of the univ. was to undertake postgrad. res., incl. the tpg. of grad. students. No undergrad. members were enrolled until 1960 when, by amending legislation to the act, the Canberra Univ. Coll. became part of the univ. Canberra Univ. Coll. was establd. in 1929 by an ordinance of parliament as a teaching instn. where undergrad. members were prepared for degrees of the Univ. of Melbourne. The emphasis on res. is maintained under the new organization, the former work of the univ. being continued in the Sch. of General Studies. The resources of the univ., whilst serving the rapidly growing needs of Canberra, will be developed to make a univ. which will be national at all levels.

**CONSTITUTION.** The council, on the incorporation of the coll., was enlarged from not more than 30 members to not more than 38 incl. the vice-chancellor, 4 members elected by parliament, up to 12 apptd. by the governor-general, up to 4 elected by convocation, 8 elected by the academic staff (of whom a will be dirs. of research schs. and a deans of facs.), and a by students. The sr. academic bodies are the bds. of the instn. and of the sch.; there is also a professional bd. which includes all full profs. in the univ. and which is advisory and does not meet regularly. The bd. of the Inst. of Advanced Studies is responsible to council for matters relating to doctoral degrees

and the bd. of the Sch. of General Studies for matters relating to the degrees of bachelors and master. Candidates for doctoral degrees are, however, supervised by members of either the inst. or the sch. as is appropriate. Convocation will eventually consist mainly of the council and grads of the univ., but at the outset the opportunity was taken to add to it the chancellor and vice-chancellor and 5 other reps. of each other Australian univ. instn.; following the amendment to the Australian National Univ. Act in 1960 further names have been added (in addition to all former members of council of Canberra Univ. Coll., members of staff, and grads of 3 yrs' standing who obtained a degree through the coll.) incl. members of parliament who have degrees and members of learned socs.

**INCOME (1960)** Running expenses of Inst., £A1,847,883 (Commonwealth govt. grants, 96.1 per cent.; rentals, 3.3 per cent.; fees and sundries, 0.4 per cent.). Commonwealth govt. grants for capital works, £A585,866. Sch. (1960): £A311,600 (Commonwealth govt. grants, 92.4 per cent.; fees, 6.3 per cent.; other, 0.3 per cent.).

**UNIVERSITY PREMISES.** The univ. site consists of 340 acres of well-situated land in the Canberra district of Acton. The first permanent bldg. erected was the lab. of the Res. Sch. of Phys. Sci., University House, which provides collegiate accomm. for about 160 single staff members and grad. students, was opened in 1954. The permanent lab. for the John Curtin Sch. of Med Res. were completed in 1956 and the inst. lab. bldg. is to be completed in Oct. 1962. Also under constrcn. are permanent bldgs. for the Res

Schs. of Soc Scis and Pacific Studies, a maths dept. in the Res Sch. of Phys Scis., and addnl. accomm. at Mount Stromlo Observatory. The observatory (10 miles from the city) was transferred in 1956 from the Commonwealth to the univ. and is now the dept. of astron. Up to 1960, Canberra Univ. Coll. was housed in temp. quarters. In June 1960, the coll. occupied its first permanent bldg—the Haydon-Allen bldg—to accomm. arts depts., a phys. bldg and a hall of residence—Bruce Hall—were completed in 1961 for the Sch. of General Studies. Bldgs for chem., geol. and the general studies lib. are under constrn. and later in 1962 constrn. of a bldg for sool. will begin. In the design stage are bldgs for bot., law, oriental studies and a union.

**LIBRARIES** Inst. lib. 160,000 bound vols. and 30,000 vols. in oriental collection. General studies lib. 60,000 vols. plus 23,000 vols. in oriental collection.

**INSTITUTE OF ADVANCED STUDIES.** As was contemplated by the act of 1946, the univ.'s activities were in the first instance concentrated on the 4 res. schs. named in the act—the John Curtin Sch. of Med Res. (named after Australia's war-time prime minister), and Res Schs. of Phys. Scis., Soc. Scis. and Pacific Studies. It is intended that each sch. should be led by a dir., but the responsibilities for the organization of the work of particular depts. within the schs. will rest with their professional hds. Dirs. have been apptd. in 3 schs., but in the John Curtin Sch. of Med. Res. a dean is apptd. In addition to the dirs. and profs. the staff comprises permanent readers and professorial fellows, sr. fellows and fellows, and short-term sr. res. fellows and res. fellows. The univ. seeks to provide members of staff with the most favourable conditions for res. They have their whole time available for res., their teaching and admin. duties being of a quite minor kind. They have opportunities to move about among their colleagues in Australia and the permanent staff has generous provision for study leave.

**THE SCHOOL OF GENERAL STUDIES** is largely concerned (apart from the res. interests of its staff) with undergrad. teaching, although the staff, together with the staff of the inst., supervises students for higher degrees. There are 5 facs.—arts, econ., law, oriental studies and sci.—each with a dean. Deans of facs. *arts*, Prof. C. M. H. Clark (hist.), *econ.*, Prof. G. S. L. Tucker (econ. hist.), *law*, Prof. J. E. Richardson; *oriental studies*, . . . , *sci.*, Prof. J. D. Smyth (sool.).

**ADMISSION.** Each dept. of the res. schs. of the inst. accepts a no. of grad. res. students of first-class calibre, the general minimum entrance qualif. being a good hon. degree from a recognized univ. and evidence of capacity for res.

For admission to the sch., see Appendix III.

**FIRST DEGREES.** 3 yrs.—BA pass, BEc pass, LLB pass, BEc pass 4 yrs.—BA hon. (more intensive than pass degree and more thorough trig. in one of following hon. aths.—Greek, Latin,

Engl., French, German, Russian, hist., math., Chinese studies, Japanese studies, S-C Asian studies, phlos., pol. sci., psychol., econ., math. stats.), BEc hon. (students take pass course with distinction work in more important units; in fourth yr., hon. students specialize in 1 of the 4 subs. of the 1st yr.: econ., pol. sci., stats., econ. hist.), LLB hon. (course as for pass degree with final hon. exam. held about 3 mos. after completion of course); BEc hon. (students obtaining high standard in first 3 yrs. of course may be admitted to hon. yr. to specialize in 1 of following—bot., chem., geol., maths, phys., psychol., sool.). Pass degrees can be taken on the basis of pt.-time attendance at the sch. For hon. students in arts, econ. and sci., fourth yr. must be taken full-time.

**HIGHER DEGREES.** MA, MEd, LL.M., MSc (2 yrs., exam. and thesis for pass grade; 1 yr. and thesis for hon. grade). Pt.-time students may be required to undertake longer candidatures. For PhD, each student pursues course of res. under supervision and, subject to certain conditions, may proceed to degree, normally after 3 yrs.' work. DLitt, DSc and LL.D. are conferred for distinguished work in appropriate fields publd. by persons with a substantial connection with univ.

**HONORARY DEGREES.** Persons of distinguished eminence in learning or in pub. service may be admitted to degrees of DLitt, DSc or LL.D. *honoris causa*.

The univ. does not award **EXTERNAL DEGREES**.

**STUDY LEAVE.** Profs. of the inst. may take a yr.'s study leave with full salary in each 4 yrs. of service, readers and sr. fellows in each 6 yrs. of service and fellows in each 7 yrs. of service. Substantial travel allowances granted. In the sch., full-time members of academic staff are eligible for 1 yr. on full pay after 6 yrs.' service. The sch. also has a scheme of financial assistance towards study leave.

**FEEs.** Inst. £A53 11s. (covers all charges except board and residence). Sch. metric or status fee—£A2 2s. Degree courses (per unit)—arts and econ. units £A27; law subs. £A12 to £A27, sci. units 1st yr. £A27, 2nd yr. £A54, 3rd yr. £A54. Approx. total cost of courses—arts, econ. and sci. pass degree £A370, hon. degree £A551, law pass and hon. degrees £A408. Higher degree courses—approx. £A30 p. a. plus status fee on admission.

**ACADEMIC YEAR.** Early March to early Dec 3 terms of 10, 9 and 14 wks.

## GENERAL INFORMATION

The Univ. was founded in 1853 by an act of the Victorian legislature and declared open in 1855. Schs of law and med were establd. in 1857 and 1862 respectively. The ceremonial Wilson hall (destroyed by fire in 1952) was opened in 1882, 2 yr. after women students were first admitted; the new hall was opened in 1956. Residential colls. were establd as follows: Trinity, 1872; Olmond, 1881; Queen's, 1888; Newman, 1919. The conservatorium of music was opened in 1895 and the coll. of dent. affiliated with the univ. in 1904. A yr inter schs. of dent. and agric. were establd. By 1920, 2000 students were attending the univ., and during the ensuing 10 yrs. schs. of arts, anat., bot. and geol. were built and the univ. press establd. In 1935 the univ.'s first salaried vice-chancellor was apptd., previous holders of that office having acted in an honorary capacity. 1937 saw the establd. of Union House, a recreation centre for students, and the opening of Univ. Women's Coll. to which major extensions were made in 1952. Chem and comm. bldgs. were opened in 1939. During the second world war the univ. became a centre of technical trg and res. In 1947 enrolments had risen to 9100, and a branch was opened at Mildura for 1st-yr. students in certain sci. facs., this branch was closed in 1949. Twenty-four new chaus were created in the yrs. 1945-58, a second arts bldg. was opened in 1949 and a new floors added in 1956. The Bessemer centre for phys

educn. was completed in 1958 and the Baulieu library was opened in March 1959. The Russell Gramscie sch. of biochem. and the Redmond Barry bldg. were opened and occupied in 1961.

Melbourne (pop. 1,911,895) is the capital and metropolitan city of the state of Victoria

COMPOSITION. The honorific offices are those of chancellor and dep.-chancellor (elected annually by council from among its members); they are assisted by the chief executive officers, viz. the vice-chancellor, registrar and accountant, and their staffs. The council is composed of 33 members—10 elected by grads.; 4 reprs. of the teaching staff, 2 of affiliated colls., 2 of undergrads.; 8 apptd. by the govt. (3 being members of parliament, the others representing business interests and technical schools); 4 ex officio; 1 nominated by the council of Monash Univ.; and 2 co-opted members. Convocation (the body of grads.) elects a standing comm. with certain legislative and advisory functions. There is a professorial bd., and individual courses are controlled by facs. and bds. of studies.

INCOME (1960). £A4,335,993 (principal sources: state govt. grants, 29.1 per cent., Commonwealth govt. grants, 30.9 per cent., students' fees, 22.9 per cent.; pub. exam. and cert. fees, 3.6 per cent.; interest and non-capital donations, 9.9 per cent.; other income, 3.4 per cent.)

## GENERAL INFORMATION

Monash Univ., which has been named after Sir John Monash, a distinguished soldier and engineer, was established by act of the govt. of Victoria in

1958 to meet the pressure on the Univ. of Melbourne of a rapidly growing population of young people. It was opened by the premier of Victoria,

Mr H. E. Bolte, on March 12, 1961. The permanent council took office in July 1961, planning up to that date having been done by an interim council of 25 persons widely representative of academic and professional life in Victoria. Instruction began on March 13, 1961, in the face of arts, econ. & pol., engin., med. and sci.

Melbourne (pop. 1,911,897) is the capital and metropolitan city of the state of Victoria.

**CONSTITUTION.** The governing authority of the univ. is the council consisting of not more than 36 members and constituted of 9 persons appointed by the govt. in council, 2 elected by gradts., 8 by facs, 2 profs. or deans, 1 elected by teaching staff other than profs., 5 ex-officio and 4 co-opted members, 2 hds. of affiliated instns and 1 member of Univ. of Melbourne council; there is provision for representation of students. The main academic body, the professional bd., was established in 1960 and is charged with responsibility for all questions relating to studies and exams. The facs, which are subordinate to the bd., were established in 1961.

**INCOME (1961).** £A3,317,000 (capital grants). Commonwealth govt. 38 per cent., state govt. 37 per cent.; gen. purposes. Commonwealth govt. 7 per cent., state govt. 17 per cent.; student fees 1 per cent.).

**FACULTIES AND DEANS (1962)** Arts, Prof. W. A. G. Scott (Engl.), econ. & pol., Prof. D. Cochrane (econ.); engin., Prof. K. H. Hunt; med., Prof. R. R. Andrew; sci., Prof. K. C. Westfold (maths).

**UNIVERSITY PLACENT.** The 250-acre site at Clayton, a suburb some 12 miles E-S-E of Melbourne, is being developed in accordance with a plan which provides for the siting of the bldgs. in the form of a stylized 'U', the open end facing eastwards towards the distant Dandenong Ranges. The bldgs. will be on the more elevated portion of the site and part of the area is reserved for sports grounds. The 5 facs of arts, econ. & pol., engin., med. and sci. are at present functioning in these parts of the sci. and engin. bldgs. so far completed. The sci. and engin. library bldg. is also in use as main univ. library and half of Alfred Deakin hall of residence is completed and occupied. Work has begun on first stages, planned for completion in 1963, of med. sch., Robert Menzies Sch. of Humanities and main univ. library. The plans provide for completion at a total cost of £A20-£A30 million by 1968, by which time the univ. will have some 8000 students.

**LIBRARIES.** The libr., already (April 1962) consisting of 80,000 vols., is being rapidly developed. In addition to the main lib., there will be separate librs. of med., sci. and engin., and possibly law.

**LABORATORIES.** J1. & sr. chem., J1. & sr. phys., sr. 2001.

**ADMISSION.** See Appendix III.

**NON-MEMBERS OF THE UNIVERSITY** are not at present admitted to classes.

**FIRST DEGREES.** 3 yrs.—BA pass, BEc pass,

BSc pass, 4 yrs.—BA honrs., BEc honrs., BE pass, honrs., BSc honrs.; 6 yrs.—MB BS pass.

First degrees in the facs of arts and econ. & pol. may be taken on the basis of pt-time attendance at the univ., but there are at present no avg. classes.

**HIGHER DEGREES.** PhD is available in all facs and master's degrees are available in the facs of arts, econ. & pol., engin. and sci. The detailed requirements are under consideration.

**RESEARCH.** Expanding facilities for res. in all facs. Details of those available in 1962 may be obtained on request.

**STUDY LEAVE.** Academic and admin. staff, 1 yr. on full salary after 6 yrs. of service, or *pro rata*. Travel allowances may be granted.

**FEES.** For a full-time undergrad. student in any fac, annual fee is £A135. There are no other charges for such items as music, exams, graduation, union, etc. Pt-time fees vary according to fac. and yr. Annual fees for higher degrees: master's degree (arts, econ. & pol., engin., sci.), £A45; PhD, £A30.

**ACADEMIC YEAR.** March to Nov. 2 terms of 9 wks. each, 1 term of 7 wks.

**PRINCIPAL 'OPEN' AWARDS.** Commonwealth scholarships, Govt. scholarships.

**PRINCIPAL 'OPEN' POSTGRADUATE AWARDS.** Shell postgrad. schol., Monash Univ. postgrad. schol., Australian Dairy Produce Bd. postgrad. studentships, Commonwealth postgrad. awards, C S I R O. postgrad. studentships, General Motors-Holden's postgrad. res. fellowships, Rothmans fellowships.

**STUDENT RESIDENCES.** At present there is accomm. for 50 men and 30 women in the part-completed Alfred Deakin hall of residence. There will ultimately be residential accomm. for 3000-4000 students.

**STAFF RESIDENCES.** There are no staff residences. There is, however, a staff members' home-purchase scheme by which loans up to 90 per cent. of property valuation may be secured from the univ.'s banks and contain life insurance aspects.

**STUDENT HEALTH SERVICE.** A free med. exam. for students is conducted in collaboration with the dept. of health, Victoria. It includes antipolymyelitis immunization.

**UNIVERSITY UNION.** The union, bldg. of which will begin in 1963 and be completed in 1965, will provide for extra-curricular activities of students and staff. It will be managed by a bd., already in being, on which staff and students are represented. Within the union, the students' rep. council organizes and encourages all kinds of extra-curricular activities except sports, which are the responsibility of a sports cttee.

## THE YEAR 1961

### GENERAL INFORMATION

In 1918, at the request of the citizens of  
northern N.S.W., the New England Univ. Coll.  
was established as a branch of the Univ. of Sydney.  
The coll. thus became the first experiment in univ.  
decentralization in Australia. Teaching began in  
1938 in the fac. of arts with an enrolment of 19  
and in the fac. of sci. the following yr.

In 1953, following representations over a  
number of yrs, the Univ. of New England was  
established by act of the N.S.W. parliament and  
granted autonomy from Feb. 1, 1954.

CONSTITUTION. The univ. consists of the  
council, convocation, postgrad. and undergrad.  
students. The governing authority of the univ.  
is the council, which consists of 6 members apptd.  
by the governor of N.S.W., the director general of  
educn. of N.S.W., the principal of the Armadale  
Teachers' Coll., the vice-chancellor, 4 reps. of the  
teaching staff, 6 elected by convocation, one by  
undergrads. and 4 by members of council. The  
chancellor, who is elected by council, is the head  
of the univ. and the vice-chancellor is the chief  
executive officer. The ac. academic body of the  
univ. is the professional bd., which consists of the  
vice-chancellor, profs. and hds. of depts.

D

INCOME (1961) For general univ. purposes:  
£A1,445,094 (Commonwealth govt., 33 per cent;  
state govt., 51 per cent; residential fees & sale  
of farm products, 9 per cent; tuition fees,  
etc., 7 per cent). For bldgs., etc., state govt.,  
£A234,468, Commonwealth govt., £A158,310.

FACULTIES AND DEANS Agric. econ., Prof. J. N.  
Lewis, mtr., Prof. G. J. Butland (geog.); sci.,  
Dr. F. H. Hibberd (phys.); rural sci., Prof. G. L.  
McClymont (nuir & biochem).

UNIVERSITY PRECINCT. The univ. site consists  
of some 900 acres on the outskirts of Armadale,  
and includes a 400-acre farm. The original bldg.  
on the site, 'Bookoombah', an old country  
homestead, provides a headquarters for the admin.  
staff and a coll. dining room. A mod. univ. bldg.  
has been built together with a library, teaching  
and lab. blocks.

LIBRARY. Dixon library, about 92,000 vols.;  
subscribes to 1500 periodicals. Addnl. 20,000  
vols. (for use of external students) housed in pub.  
libr. of New South Wales, Sydney.

LABORATORIES. Agric. econ., bot., chem., geol.,  
phys., rural sci., zool.

AUSTRALIA

**FIELD STATION** for res into properties of the biosphere. In the univ. grounds are the lab. connected with a large C.S.I.R.O. field res. stn. of 4500 acres situated about 10 mi. from Armadale. The Univ. Farm of 400 acres provides facilities for field studies connected with the fac. of rural sci.

The **ARMADALE TEACHERS' COLLEGE** provides facilities for teacher trainees who are undertaking univ. courses and for grads. who are pursuing the dipl. in educ. course.

#### ADMISSION See Appendix III.

**NON-MEMBERS OF THE UNIVERSITY.** Anyone wishing to attend univ. lectures may do so upon payment of such fees as the council may from time to time direct, provided that any such person must obtain the approval of the fac. concerned before attending lectures and (if at time of entry he is qualified to do so) he matriculates.

#### General Information

Under the terms of its act of incorporation the Univ. has power to establish colls. within the state of N.S.W. and under this power establish Newcastle Univ. Coll. in Dec. 1951. The govt. of the coll. is vested in the council of the Univ. A bd. of studies consisting of the 41 members of the academic staff of the coll. supervises the teaching and examining of courses at Newcastle and is responsible to the professorial bd. and the council of the Univ. In March 1962 a council for the coll. was appointed, consisting of 12 members. Operating within the act, regns., by-laws and decisions of the Univ. Council, the coll. Council will initiate and supervise the planning of the coll. bldgs. to be erected at Shortland.

## GENERAL INFORMATION

The univ was incorporated by act of the N.S.W. parliament on July 1, 1949—initially under the name of 'The N.S.W. Univ of Technology'—to meet the increasing demand in Australia for grads. in scientific and technol fields. In 1958 these original objectives were extended by the Univ. of N.S.W. Act, 1958, which gave the univ power to provide courses and res facilities and award degrees in the fields of med and humane studies and in such other fields as the council may from time to time determine. Courses for the BA degree were first offered in 1960, and in med (MB BS) in 1961.

The univ from its inception has provided courses in the traditional fields of scientific education and has built up schools in engin and in the physical, math and biol. sciences. On this foundation the univ. has in recent yrs. extended its activities into such specialized technol fields as wool technol., textile technol., fuel technol., and highway and traffic engin. Courses are offered for degrees in most fields on both a full-time and a pt-time basis. The first coll of the univ was establd at Newcastle in 1951. A second univ coll was establd. at Wollongong in 1961, with its own bldgs at North Wollongong. At Broken Hill pt-time courses in mining engin., mech. engin. and metall for BSc(Tech) degree, and in chem. for BSc degree, are available. The univ staff and equipment are accommodated in the tech coll.

The univ has establd. within its academic structure a no. of sp insts to develop res. and conduct courses in fields which overlap the traditional subv divs. There are insts. of admin., highway & traffic res., nuclear engin and rural technol.

The univ has also establd a company, Uni-search Ltd, controlled by the univ council, to provide a res. and testing service to industry. All profits are given to univ.

Sydney (pop 2,181,311) is the capital and metropolitan city of the state of N.S.W.

CONSTITUTION. The univ. is governed by a council of 37 members representing the state parliament, industrial, commercial and agricultural bodies, employee organizations, tech educn., professl orgns, the Univ. of Sydney and the univ.'s own academic staff and its undergrads. and grads. The professional bdy is the main academic body of the univ. There are 7 fca whose membership is made up of the sr. members of the constituent achs.

INCOME (1961) Operating, £A1,993,348 (state parliament grants, 49.81 per cent. Commonwealth parliament grants, 33.81 per cent.; fees & contributions from industry and other sources,

16.38 per cent.). Also in 1961 the state parliament provided £A1,075,000 and the Commonwealth parliament £A1,420,000 to meet capital expenditure of bldgs, furnishings and equipment. In addition contributions from industry, comm and other sources towards sp insts and other purposes amounted to £A1,095,814.

FACULTIES AND DEANS (1962) *Appl. sci.* Prof. M. Chaslen (textile technol.), *archit.* Prof. F. E. Townsend; *astr.* Prof. M. S. Brown (social); *comm.* Prof. E. B. Smyth (economy); *engin.* Prof. A. H. Willis (mech. engin.); *wood.* Prof. F. F. Rundle (surg.); *sci.* Prof. J. F. Clark (appl. psychol.)

UNIVERSITY PRECINCT. The main site of the univ is in the Sydney suburb of Kensington where the original area of 70 acres was in 1960 enlarged to 95 acres with the acquisition of an adjoining golf course. Development at Kensington has reached the stage where all of the univ.'s achs except elect., mech. and civil engin. are located on this main site. The engin. achs are at present located in the grounds of the Sydney Tech. Coll. but bldgs to accommodate the achs of elect. and mech. engin. are under constrcn at Kensington. The 1st bldg. of the med. sch. is nearing completion on the campus at Kensington.

LIBRARY. Central lib. at Kensington and jt. collections in univ. coll. and tech. coll. librs. used by staff and students. Univ. holdings in all collections. 193,841 vols.

LABORATORIES. In addition to teaching labs. in the sci. and engin. achs, there are a no. of specialized labs. including a radiochemical res. lab., the UTECOM computing lab and, at Manly Vale, the water res. lab.

HOSPITALS. Teaching Hospitals—Prince Henry H., Little Bay; Prince of Wales H., Randwick. Other hospis associated with univ.: Canterbury District H.; Mater Misericordiae H., North Sydney; Royal H. for Women, Paddington; St. Margaret's H. for Women, Darlinghurst.

EDUCATIONAL RESEARCH UNIT. Establd 1961. Undertakes res into teaching of univ. educn practices and techniques, and study of problems of higher educn. Includes teaching aids service.

ADMISSION. See Appendix III.

ADMISSION OF NON-MATRINS. With the approval of bdy of achs. concerned, unmatriculated students may attend classes and take exams., but such study cannot be counted as meeting the requirements for a degree.

PUBLIC EXAMINATIONS. See Appendix III.

**FIRST DEGREE** 3 yrs.—BA pass (4th yr for hons in Engl, hist, philos, sci thought, psychol, social, econ, maths), BSc pass (4th yr for hons in appl. chem., biochem., chem., geol., maths, microbiol., entomol., phys., psychol., theory of stats, zool.), BCom pass (4th yr. for hons in accty., appl. psychol., indust. relns, econ, stats, wool comm.). 4 yrs.—BBuild, BOptom, BSc pass, hons (appl. geol., ceramic engin., chem. engin., food technol., fuel technol., indust. arts, indust. chem., metall., polymer sci., textile technol., wool technol.). BE pass, hons (civil, elect., mech., mining, indust. engin.). BSurv pass, hons., 5 yrs (6th yr. for hons.)—BSc (appl. psychol.) (pt-time), BArch pass, hons., combined BSc BE (civil, elect., mech. and indust. engin.), 6 yrs—MB BS pass, hons., BSc(Tech) (pt-time), no hons (aeron. engin., ceramics, chem. engin., civil engin., elect. engin., food technol., fuel technol., indust. arts, indust. chem., indust. engin., mech. engin., metall., naval archit., polymer sci.) Courses for the BCom, BArch, BSurv and BSc (gen. sci. and appl. chem.) degrees may also be taken by pt-time study. Candidates for hons. do work addnl. to that required for pass degrees.

Students in face of appl. sci., engin., med and sci. study the common 1st-yr subjs., maths, phys. chem plus a 4th subj. from psychol., engin., gen. biol. or geol. Choice of 4th subj. depends on course being taken.

Full-time and pt-time courses leading to degrees in appl. sci., archit., arts, comm., engin. and sci. are conducted at Newcastle Univ. Coll. (see p. 74).

A limited number of courses leading to degrees in appl. sci., engin. and sci. are conducted at Wollongong Univ. Coll. (see p. 75).

In all undergrad. courses a certain amount of time is devoted to the study of subjs. of a gen. educ. character outside the student's particular field. Students in facs other than arts take courses in the humanities and soc. sci., while arts students take 2 courses in scientific subjs. A 2nd feature is the inclusion of periods of practical trng. in industry as an essential part of the scientific and technological courses to supplement the lab. and lecture room work.

**HIGHER DEGREES** Research degrees: MA, MSc, ME, MArch, MCom, MBuild, at least 2 yrs. from bachelor's degree of this or other approved univs. Candidates for these degrees may register either as full-time or pt-time students or as students working externally to the univ. (Pt-time students normally take more than 2 yrs to complete the requirements.) Under certain conditions grads. may submit theses for the award of MSc or ME without supervision, PhD (available in facs of arts, appl. sci., archit., comm., engin. and sci.), at least 3 yrs from bachelor's degree with hons. or equivalent from this or other approved univs MD, at least 3 yrs from MB BS with hons. or equivalent from this or other approved univs. DSc (also hon.) in facs. of appl. sci., engin. or sci., 5 yrs or more from 1st degree. Degrees with formal instruct. MTech (available in facs. of

engin. and appl. sci.), 1 yr full-time, 2 yrs pt-time (chem. engin., concrete structures, elect. engin., highway engin., hydraulics & hydrol., machine design, nuclear engin., pub. health engin., structural analysis, traffic engin.), MHA, 2 yrs. (1 yr at univ., 1 yr admin. experience in hospo.), MAdm (sch. of business admin.), 2 yrs pt-time.

**DIPLOMAS** Postgraduate Coal and mineral processing, food and drag analysis, food technol., fuel technol., highway engin., indust. engin. and wool technol., open to grads in appropriate fields, 1 yr full-time, 2 yrs pt-time Librarian-ship, 2 yrs pt-time Educn (DipEd), at Newcastle Univ. Coll., 1 yr full-time.

**Undergraduate** The univ. since 1951 has provided the student in dipl. courses in fields of comm., engin., sci. and technol. leading to the N.S.W. dept. of tech. educn's dipl. award (ASTC). Commencing in 1961 these courses are being gradually withdrawn and replaced by 6-yr pt-time degree courses leading to the univ.'s new pass degree BSc(Tech).

Dipl. in sociol. (3 yrs pt-time).

**SPECIAL POSTGRADUATE COURSES** In addition to courses leading to a higher degree, the univ. presents series of lectures designed to keep grads in touch with latest devels in their respective fields. Less intensive courses on specific technol. problems are given to personnel in industry. The univ. operates its own radio station, VLaUV, and through this medium presents special courses covering a wide field. The 'med sch. of the air' provides courses of interest to med. practitioners. The station's broadcasting range is 100 miles.

**STUDY LEAVE** Academic and sr. admin. staff, one yr after 6 yrs' service, or in the case of profs., 6 mos. after 3 yrs' service. Provision is made for special cases.

**FEE** Payable by all students: univ. union membership, £A6 p.a.; students' union and sports assocn. membership, £A3 p.a.; library fee, £A5 p.a. Undergrad., intric., £A3; graduation, £A3; full-time course fee (except comm. and arts), £A120 p.a.; pt-time course fee, £A60 p.a.; comm. full-time and pt-time course fees, £A60 p.a.; arts course fees, (pov.) £A27 p.a. per subj. (hons.) £A36 p.a. per subj. DSc, £A31; 10s. PhD: registration, £A2; graduation, £A21; supervision, £A30 p.a. MSc, ME, MArch, MCom: registration, £A2; graduation, £A15; internal students, full-time, £A30 p.a.; pt-time £A15 p.a.; external students, £A20 p.a. MHA: registration, £A2; graduation, £A3; course fees, 1st yr., £A12, 2nd yr., £A30 MTech and grad. dipl., registration, £A2; graduation, £A3; course fee, term payment of £A2 multiplied by no. of weekly hrs. of instructn. involved.

**ACADEMIC YEAR** March to Nov.: 3 terms of 10 wks each.

**VACATION COURSES** (a) Summer sch. for chem. teachers in Jan. Proceedings publ'd. annually as

*Approach to Chemistry*, (b) Summer sch. for maths teachers.

## GENERAL INFORMATION

The Univ. was establd. in Brisbane, the capital of Queensland, by an act of the state legislature in 1909 and teaching in the facs of arts, sci. and engin. commenced in 1911. Other facs. establd. were comm. 1926: agric. 1926; law 1930, dent. 1935; vet. sci. 1936; med. 1936; archit. 1948; educn. 1948. Provision for external students has been made since 1911.

The move from the temp. bldgs. to the permanent site at St. Lucia was planned in 1936 but as a result of war-time delays the transfer began only in 1949.

Enrolments first reached the following levels in the years indicated: 1000 (1934), 2000 (1945), 3000 (1946), 4000 (1948), 5000 (1956), 6000 (1958), 7000 (1959), 8000 (1960), 9000 (1961), 10,000 (1962)

Special strengths in engin., vet. sci. and agric. sci. have been developed through close connexion with and support from indust.

Recent devels. incl. the installation of a electron microscope and a digital computer centre.

A programme of interservice training for academic staff is held each year, incl. a course in teaching for dems. and jr. lectrs., a conference on teaching for new lectrs. and a seminar for sr. staff members.

The Univ. serves the state of Qld (pop. 1,522,329; area 667,000 sq. mi.) and enrolls external students from adjacent Commonwealth territories.

CONSTITUTION. The governing body, the senate, consists of 27 members, 14 apptd. by the governor in council, 9 elected by the Univ. Council.

(consisting of all grade, all teaching staff, benefactors, etc.), 3 ex-officio members (the director-general of education, vice-chancellor and the pres. of the prof. bd.) and an elected member of the staff assocn. A full-time vice-chancellor is the exco officer of the senate and the chief admin. officer of the univ.

The Univ. Coll. of Townsville is an associated coll.

## GENERAL INFORMATION

Founded in 1850, the Univ. of Sydney is the oldest univ. in Australasia. Its development has been largely due to private benefactions. The act of incorporation provided for the appt. of a senate of 16 fellows (later increased to 26) and a statutory grant of £A5000. The first provost and vice-provost (later entitled chancellor and vice-chancellor) were elected the following yr., and the first 3 profs. arrived in Sydney from the U.K. in 1852, the yr. of the univ.'s inauguration in the Sydney coll. bldg. (now occupied by Sydney Grammar Sch.) in College St. These bldgs. proved to be inadequate, and the state govt. made a grant of land at Grace farm on the western boundaries of the city, with provision for subgrants by the senate for 4 colls. and for subsidies towards the coll. bldgs. and the salaries of their hds. The univ. was transferred to this, its present site, in 1857. St Paul's College (C of E) was establd. in 1854. St John's (R.C.) in 1857. St Andrew's (Presb.) in 1867, the Women's College (undenominational) in 1889, Wesley College (methodist) in 1910 and Sancta Sophia College (R.C. women) in 1929. All were built on univ. land and subsidized on equal terms.

Most of the univ. bldgs. have been provided from public funds. The Great Hall, a replica of Westminster Hall, London, was opened in 1859 and the main bldg. completed the following yr.

The univ. was granted a royal charter in 1838. Women were admitted to membership of the univ. in 1882 and were given the same rights as men 3 yrs. later.

Sydney (pop. 2,181,211) is the capital and metropolitan city of the state of N.S.W.

**CONSTITUTION** The body politic and corporate of the Univ. of Sydney consists of a senate constituted of 4 fellows apptd by the governor, 1 elected by the legislative council, 1 by the legislative assembly, 10 by the grads., 3 by the fellows, 1 the vice-chancellor of the time, 5 rep. of the teaching staff, 1 (a grad.) rep. of the undergrads. The chancellor and deputy-chancellor are elected

by the senate from its own members. The chancellor or, in his absence, the deputy-chancellor, presides at all meetings of the senate; if both are absent, a chairman is elected by the fellows. The entire management of the affairs, concerns and property of the univ. is controlled by the senate, which makes the by-laws and signs subject to approval of the governor, who is the visitor to the univ. No religious test is administered to any person.

There is a professional bd. to further and co-ordinate the work of the facs and depts and encourage scholr. and res. The facs. are responsible for supervision of teaching and conduct of exams. The proctorial bd. may, on reference by the vice-chancellor, impose penalties for breach of discipline or misconduct by students.

**INCOME** (1961) £A4,803,373 (state govt. grants, 43 per cent.; Commonwealth govt. grants, 33 per cent.; fees, 20 per cent.; endowments, 2 per cent.; other sources, 2 per cent.).

**FACULTIES AND DEANS** (1961) Agric., Prof. J. R. A. McMillan; archit., Prof. H. I. Ashworth; arts, Prof. J. M. Ward (hist.), dent., Prof. A. J. Arnott; econ., Prof. S. J. Butlin; engin., Prof. W. H. Wittrick (aeron. engin.), law, Prof. K. O. Shatwell, med., Prof. F. R. Magarey (pathol.); sci., Prof. T. G. Room (maths.); vet. sci., Prof. D. McFarlane.

**UNIVERSITY PREMISES.** The univ. has now purchased some 70 per cent. of the privately-owned land adjacent to its existing grounds. With the completion of certain new bldgs., development of the conception of the precinct can proceed, but the full pattern of precinct planning to provide for an ultimate pop. of 16,000 students will not be clear for about 7 yrs.

**THE UNIV. LIBRARY**, 758,707 vols., consists of the Fisher lib. and its 3 branches together with 52 dept. librs., the largest of which are: agric., 5943; archit., 13,221; dent., 7345; econ., 9552; engin., 25,246; geog., 8401; geol. & geophys., 11,006;

**FIELD STATIONS.** Croninell biol. stn., Penil Beach, via Woy Woy (biol. res. on central coast of N.S.W.). Cecil Hill res. stn. for cereal breeding, metropolitan area (23 acres), Waterhouse plant breeding stn., Cuthbert (nr. Gunnedah, N.E., N.S.W.). Univ. of Syd. cereal rust survey stn., Brookstead, Darling Downs, Q'ld (5 acres). McGarvie Smith animal husband. farm, nr. St. Mary's, N.S.W. (400 acres), vet. sci. farms (770 acres) for teaching of animal husband. and rural vet. centre (30 acres) for teaching of clin. vet. med. & surg. (Camden district, N.S.W.). Univ. of Syd. astron. stn., Narrabri, N.S.W. (stellar interferometer project in collaboration with Univ. of Manchester).

**HOSPITALS**—recognized clin. schs. Royal Prince Alfred, Sydney, St. Vincent's, The Royal North Shore, Concord Repatriation General and St. George H., Kogarah; Women's H., Crown St., King George V Memorial H. for Mothers and Babies (obstet. & gynaecol.); Royal Alexandra H. for Children (pediatrics); a number of others are recognized for special postgrad. trg.

The **LAW SCHOOL** (univ. dept.) is located at 167 Phillip St., Sydney (tel.: 28 5944), and the **DENTAL HOSPITAL OF SYDNEY** (univ. dept. of dent.) at 2 Chalmers St., Sydney (tel.: 61 7591), dept. of sticht. at 146-148 City Rd., Darlinghurst (tel.: 68 0522), and dept. of sticht. sci. at 118-120 City Rd., Darlinghurst (tel.: 68 0522). **POSTGRAD. CTRFF.** IN MED. at Herford House, 188 Oxford St., Paddington (tel.: 31 0671).

**SCHOOL OF PUBLIC HEALTH AND TROPICAL MEDICINE.** The sch. acts as the teaching and exam. centre for the univ.'s dipls. of pub. health and of trop. med. and hyg. In addition, a course in pub. health and prev. med. is given for undergrad. students. Courses are also given in architectural hyg., soc. hyg., trop. hyg. and indust. nursing. The sch. is financed by the Commonwealth health dept., but all teaching is directly controlled by the univ. and the fac. of med., together with all matters concerning dipls., syllabuses, fees, exams, etc. An advisory council of reps. of the univ. and of the Commonwealth dept. of health deals with all matters of policy. The staff consists of a dn. (also prof. of prev. med.), a prof. of trop. med., 11 med. officers, a number of visiting lects., 4 entomologists, 4 parasitologists and 11 technical officers. The DPH entry requirements are those of the General Medical Council of Gt. Britain, the DTM&H courses correspond to similar courses at the London Sch. of Hygiene and Trop. Med. and the Liverpool Sch. of Trop. Med. The main divisions of the school are those of pub. health and prev. med., trop. med. and hyg., indust. hyg., bacteriol. and pathol., parasitol. and protozool. med., entomol. & vital stats., child health and environmental health. Library of about 15,500 vols., dealing espec. in trop. med. and hyg., is available.

In the univ. grounds is the **TEACHERS' COLLEGE**, a branch of the state dept. of educ. The courses leading to the univ. postgrad. dipl. in educ. (DipEd) are arranged through co-operation between the staffs of the univ. and the coll. The **COMMONWEALTH SCIENTIFIC AND INDUSTRIAL RESEARCH ORGANIZATION** (C.S.I.R.O.): National Standards lab., situated in the univ.'s grounds. Close collaboration in res. activities exists between many univ. depts. and relevant divisions of the C.S.I.R.O. This applies particularly in agric., biochem., bot., zool., vet. physiol., electr. engin. and chem. engin. At the McMaster animal health lab., div. of animal health and production, C.S.I.R.O. facilities are available for res. in parasitol., bacteriol. and biochem. The McMaster field station (800 acres), attached to the same div., adjoins the univ. McGarvie Smith animal husbandry farm (see above). It is equipped primarily for investigations in genetics and reproductive physiol. in sheep and cattle under field conditions. In the dent. hosp. bldg. is the inst. of dent. res., which was established in 1948 for investigations into the causes and prevention of dent. caries. The inst. also does the routine pathol. work for the dent. hosp. The Queen Elizabeth II res. inst. for mothers and infants, which is in the univ. grounds, was established in 1958 for investigation of the causes and prevention of illness and deaths of mothers and infants. The Syd. group of the Radio Res. Bd. is under supervision of prof. of electr. engin. The group's main field of res. is study of ionosphere.

**ADMISSION.** See Appendix III. It should be noted that admission at the present time is re-

stricted generally to residents of N.S.W. because of shortages in staff and accommodation.

**Non-Members of the University** In exceptional circumstances only, a person without matric may be given permission by fac. concerned to attend lectures upon payment of necessary fees.

#### PUBLIC EXAMINATIONS. See Appendix III

**FIRST DEGREES.** BSc(Med) pass, honours (after completing 3 yrs in med.), 1 yr. BAgr, 3 yrs., BScAgr, 4 yrs. candidates may do a general course or specialize in agric. econ. beginning in 1st yr. or an animal husband in 3rd yr., the gen. course and the one specializing in animal husband are identical in 1st and 2nd yrs. The BAgr degree is not awarded with honours but the BScAgr may be awarded with or without honours, depending on standard achieved throughout course. BA pass, 3 yrs (4th yr. for honours): pass course—either (a) 3 sequences of 3 courses or (b) a sequence of 3 courses and 1 sequence of 2 courses with 1 individual course or (c) 1 sequence of 3 courses and 3 sequences of 2 courses, honours course—either (a) honours sequence and 1 sequence of 3 courses with 1 individual subject or (b) honours sequence and 2 sequences of 2 courses. BEc pass, 3 yrs (4th yr. for honours): 4 courses must be taken to complete 1st yr., 3 to complete 2nd yr. and 3 to complete 3rd yr.; apart from the sequence, econ. I, II and III, which is compulsory, all candidates must take 1 other sequence of 3 courses; honours are only awarded after completion of a 4th yr. but candidates for honours are expected to attend dist. courses in their chosen subject from beginning of 2nd yr. BPharm pass, 3 yrs (4th yr. for honours) BSc(GenSci) pass, 3 yrs (no honours): this degree may be taken on the basis of individual courses rather than by completion of yrs. 10 courses must be taken with minimum of a 1st and 2nd-yr. level and 1 3rd-yr. level and certain 1st-yr. courses are compulsory. Students of exceptional merit may be allowed to proceed to the BSc degree with honours. BEc pass, 3 yrs (4th yr. for honours): pass course—4 courses in 1st yr., 3 courses in 2nd yr. (1 of which may be a 1st-yr. course or a sp. subord. course); in 3rd yr. 3 alternatives are offered: (a) a full 3rd-yr. course, (b) 1 advanced course counting as a double subject, (c) 1 3rd-yr. course, 1 2nd-yr. course and 1 1st-yr. course; honours course is in addition to the foregoing. 4 yrs.—MEd pass (no honours), BE pass, honours (aeron., chem., civil, mech. or mining engin.), BE pass (electr. engin.) (5th yr. for honours), BScChemEng pass, honours, BScFor pass (no honours), LLB (full-time) pass, honours, BMus pass, honours; 5 yrs.—BArch pass, honours, BDS pass, honours, LLB (pt-time) pass, honours, BVSc pass, honours; 6 yrs.—MB BS pass, honours, 2 yrs. advanced study or res. (for persons aged 21 yrs. or upwards whose general educ. and sp. qualif. for advanced study and res. have been approved by fac. concerned)—BA or BSc. Matriculated students who have completed 7 specified courses for BA and fulfilled all requirements for DipSocWk may qualify for

pass BA and DipSocWk in 4 yrs. The LLB qualifies conditionally for admission to the Bar. Law students may take the BA first, selecting law subjects in 3rd yr., and complete combined course in 6 yrs, thereby gaining concessions in regard to periods of studentship and service as articled clerk.

In general, candidates for honours are required to do extra work except in the facs. of law, med., dent., vet. sci. and archit., in which honours are awarded on the pass work of the whole course.

There are honours schools in the following subjects: BA—(a) [ordinary honours degrees] Greek, Latin, classics, Engl., French, German, Italian, Chinese, Japanese, Indonesian and Malaysian studies, hist., philos., govt., psychol., educn., econ., anthropol., pure maths, appl. maths., mathl. stats., geog., music and archaeol.; (b) [in sch. of soc. sci.] hist., philos., govt., psychol., educn., econ. and anthropol. BSc(Med)—anat., histol. & embryol., biochem., physiol., bacteriol., pathol. and pharmacol. BSc—chem., inorg. chem., org. chem., phys. chem., agric. chem., phys. geol., geophys. with geol., geog., psychol., bot., zool., physiol., biochem., anat., pure maths., appl. maths., pharmaceut. sci. and analysis of foods and drugs, microbiol., phys. anthropol., pharmacol. and mathl. stats. BScAgr—agric. chem., agric. econ., agric. entomol., agric. genetics, agric. microbiol., agron., animal husband., gen. agric., plant pathol., soil sci., agric. bot. and biometry. BEc—econ., econ. hist., govt., econ. stats. and accounting.

The BA, LLB, BSc(GenSci) and BEc may be taken solely by pt-time attendance, the BA and BEc solely by evg. attendance.

**HIGHER DEGREES.** When the 1st degree is awarded with honours, the period necessary to qualify for a higher degree is reduced in some cases as indicated. Div. (BD), 3 yrs. from 1st degree, Master's degree: agric. (MScAgr), 2 yrs. (pass), 1 yr. (honours) from BScAgr, 3 yrs. from BAgr; archit. (MArch), 3 yrs. (or 2 yrs. advanced study and res.) from BArch, MBEc, 3 yrs. (pass), 2 yrs. (honours) or 1 yr. (honours) full-time study and res. from 1st degree; arts (MA with or without honours), 3 yrs. (pass), 2 yrs. (honours), (MA with honours), 1 yr. (honours) from BA; dent. (MDS), 2 yrs. (pass), 1 yr. (honours) from BDS; econ. (MEc), 2 yrs. from BEc, educn. (MED), 5 yrs. from 1st degree; engin. (ME), 4 yrs. (pass), 3 yrs. (honours) from BE or BScChemEng, (MEngSci), 2 yrs. (pass), 1 yr. (honours) from BE or BScChemEng, law (LLM), 2 yrs. from LLB; pharmac. (MPharm), 2 yrs. from 1st degree, 1 yr. from BPharm with honours, sci. (MSc), 2 yrs. (pass), 1 yr. (honours) from BSc, surg. (MS), 5 yrs. from MB BS; town & country planning (MTCp), 1 yr. after award of DipTCC (2 yrs.); vet. sci. (MVSc), 2 yrs. from BVSc. Doctorates (except PhD) div. (DD), 5 yrs. from 1st degree in div., or equivalent, med. (MD), 5 yrs. from MB; agric. (DScAgr), dent. (DDS), engin. (DScEng) law (LLD), letters (DLitt), sci. (DSc), vet. sci.

(DVSc), 8 yrs. from degree qualifying for candidature which (except dent and vet. sci.) may be a degree in another fac. if approved by fac. concerned. Grads. of other univs. are required to pursue at least a yrs.' advanced study and res. in Univ. of Syd. Senate has power to confer HONORARY DEGREES of bachelor, master and doctor; so far, the following have been conferred: Hon. LL.D., Hon. D.Litt., Hon. DSc and Hon. MSc. After graduation, an approved candidate may proceed to the PhD in div. and in all facs. (except law) which takes 3 yrs. from 1st degree (see below, 'Postgraduate Study').

All higher degrees (except DD and ME) are open to grads. of other approved univs. Courses of instruction for BD, MBSc, MEd and MTCP and facilities for res. for PhD and all degrees of master (except MS) are provided. Grads. of other univs. who are candidates for PhD or any master's degree (except MS) may be required to attend courses of instruction, in addn. to undertaking supervised res. which must be carried out at Univ. of Syd.

Except for MEngSc and PhD, grads. of Syd. Univ. are not required to carry out, within Syd. Univ., the res. for above higher degrees. The res. for MEngSc and PhD must be carried out within Syd. Univ.

**HONORARY DEGREES.** See 'Higher Degrees', above.

**DIPLOMAS.** *Postgraduate:* admin. sci. (Dip AdminSci), by exam., open to grads. in any fac. 2 yrs.; agric. by exam. & thesis, open to grads. who have completed courses acceptable to fac., 1 yr. —(DipAgrChem); (DipAgrEc); (DipAgrEnt); (DipAgrGen); (DipAgrMicro); (DipAgrPath); (DipAgrSci); (DipAgrHus); (DipAgrHus); (DipAgrHus); educn. (DipEd), which may be taken also in the teaching of English as a foreign lang., by exam., open to grads. in any fac., 1 yr.; dent. (DipDent), by exam. and thesis, open to grads. of 1 yr.'s standing who have completed courses acceptable to fac. of dent., 1 yr.; numerical analysis & automatic computing (DipNA&AC), by exam., open to grads. who have completed maths. ## GENERAL INFORMATION

Founded in 1890 under an Act of the Tasmanian legislature, the univ. was granted a royal charter in 1915. To the original faculties—arts, sci. and law—comm. was added in 1919, engin. in 1922 and educn. in 1951. Teaching in agric. begins in 1963. Music was taught in the fac. of arts from 1935 to 1938 but the lectureship has lapsed.

Hobart (pop. 116,000) is the capital of the state of Tasmania and one of the oldest Australian settlements.

**CONSTITUTION.** The univ. consists of a council and convocation. The council, which has the management and control of the affairs and property of the univ., consists of 19 to 21 members, 4 of whom are elected by the convocation, 3 by the teaching staff, 2 by members of parliament, 4 by the governor, and 3 by the governor on the recommendation of the council; the dir. of education and the chairman of the professional bd. are *ex-officio* members. The offices of chancellor and vice-chancellor may be filled by election by and from the members of council or by the appt. of persons not members of council. The governor is *ex-officio* visitor of the univ. The chancellor is elected every 2 yrs. and is a member *ex-officio* of every fac. and of every bd. or extee. within the univ. The vice-chancellor is the chief executive officer of the univ. Convocation consists of all grads of the univ. and members of council and teaching staff, its chief officers being the warden and vice-warden, who are elected every 2 yrs. Its main functions are to elect members of council and of a standing extee. which considers proposed new statutes or amendments to existing statutes. The professional bd. is the main academic body and exercises a general supervision over all matters concerning the studies and exams. of the univ. The facs. exercise similar functions but are subordinate to the bd.

**INCOME (1961)** £A732,233 (state govt. grant,

54 per cent., Commonwealth govt. grant, 34 per cent., fees, 10 per cent.; misc., 2 per cent.)

## GENERAL INFORMATION

In 1909 the govt. of W. Australia apptd. a royal commission with Sir John Winthrop Hackett, who subsequently became first chancellor of the univ., as chairman. Following the commission's report, the Univ. of Western Australia was endowed by an act of the state legislature which recd. the royal assent on Feb. 16, 1911. The first senate was gazetted on Feb. 13, 1912. Teaching began on March 31, 1913, and the formal inauguration of the univ. took place on Oct. 20, 1913.

At the time of its estab., the univ. had 3 facs.—arts, sci. and engin. Law was added in 1927 and agric., originally a dept. of the fac. of sci., became a sep. fac. in 1937. In 1946 the fac. of dent. sci. was establd., and in 1947 the fac. of educ. (from 1916 till 1947 educ. was under the fac. of

arts). Economics, a dept. of the fac. of arts since 1924, was establd. as a sep. fac. in 1954 and reconstituted as fac. of econ. and comm. in 1961. The fac. of med. was establd. in 1956.

St. George's Coll., the first residential coll. within the univ., which was built and endowed by the Anglican church from funds bequeathed by Sir John Winthrop Hackett, was opened in 1931. A univ. hostel for men students and a women's coll. were opened in 1946. The hostel, renamed in 1961 Currie Hall, is now a hall of residence. The women's coll., renamed in 1959 St. Catherine's Coll., now occupies a new bldg. opened in 1960. St. Thomas More Coll., establd. by the Roman Catholic Church, was opened in 1953.

Perth, the capital city of W. Australia, has a

pop. of 420,000. The univ. serves the whole state of W.A. (pop. 737,000).

**CONSTITUTION** The admin. of the univ. is vested in a senate of 21 members, of whom 6 are nominated by the govt and 7 are *ex-officio* or co-opted members. A second body with mainly elective and revisionary functions is known as convocation. Convocation elects 6 members of the senate. The teaching staff elects a member.

**INCOME (1961)** £A1,509,630 (state govt, 53.5 per cent; Commonwealth govt, 13.8 per cent; other sources, 12.7 per cent).

**FACULTIES AND DEANS.** *Agric.*, Prof. E. J. Underwood; *arts*, Prof. F. Callaway (music), dent 21, Prof. K. J. G. Sutherland; *econ.* & *comm.*, Prof. I. I. Bowen; *educn.*, Prof. C. **HONORS DEGREES.** MA, LL.M., MEd, MEd, MSc, MEngSc, MSc(Agric.), 1 yr. from 1st degree with hon., 2 yrs. from 1st degree pass; MDSoc, 2 yrs. from 1st degree, ME, 3 yrs. from 1st degree pass or hon., DLitt, 5 yrs. from 1st degree, LL.D., 3 yrs. from 1st degree with hon., 5 yrs. from 1st degree pass; DSc, DSc(Agric.), 6 yrs. from 1st degree; DEng, 3 yrs. from 1st degree with hon., 4 yrs. from 1st degree pass; DDSoc, 4 yrs. from 1st degree, PhD (agric., arts, dent., sci., educn., engin., sci. only), 2 yrs. from 1st degree with hon., 3 yrs. from 1st degree pass. In arts and sci. a master's degree cannot be obtained in less than 5 yrs. from matric. All higher degrees involve res. To proceed to master's degree a student must graduate with hon. or pass a prelim. exam. All degrees open to grads. from other recognized univs. Master's degrees and the PhD are supervised degrees.

**HONORARY DEGREES.** The senate on the recommendation of the honorary degrees cttee may confer any of its degrees as an honorary degree.

**EXTERNAL DEGREES.** Only BA may be taken wholly externally (most of the univs. for BEd, BEc may also be taken) but only by residents of W. Australia who live outside Perth metropolitan area and in special circumstances by students who have done a major portion of their course and have gone to live in another state. Enrolment is restricted almost entirely to non-lib. subs. except for lab. subs. taken at affiliated univs., e.g. Sch. of Mines, Kalgoorlie. Tuition is given by correspondence and a calculating library service.

**EVENING OR LATE AFTERNOON CLASSES** are held for first degrees in the facs. of arts, econ. & comm. and educn. only, and a full degree course may be undertaken by evg. study. Certain sci. and engin. classes may be taken in the evgs. at affiliated colls. but a full degree course is not available by evg. study in these facs.

**DIPLOMAS.** Educn., 1 yr. postgrad.; child and aducl. psychol. (DCP), 2 yrs.; clin. psychol. (DCP), 3 yrs.

**RESEARCH.** Postgrad. res. is carried out in most depts and £A62,250 was provided for this purpose by the univ. res. grants cttee. In addition in 1961 £A122,209 was obtained from outside sources for res. Reports published annually.

**STUDY LEAVE.** At the end of every 6th yr. of continuous service, staff are entitled to study leave up to a max. of 12 mos. on full pay for a programme of study approved by the senate. The senate may also grant up to 6 mos' study leave after 3 yrs' continuous service.

**Fees.** Matric, no fee. *Ad eundem statum*, £A1. 15. Admission to degrees: bachelors, £A5; master's and PhD, £A10; other doctor's degrees, £A25. Fees are charged per unit except in professional fees. Approx fees are: arts, econ & comm, educn and law—1st yr., £A70, subsequent yrs £A51-£A72, sci—1st yr., £A86, subsequent yrs, £A57-£A81, engin, agric—1st yr., £A79; subsequent yrs, £A74; med., dent sci—1st yr., £A79, subsequent yrs, £A99. Students coming from overseas and neither normally nor likely to become permanently resident in Australia are charged an annual fee of £A20, in addition to all charges normally payable by W. Australians except in case of med and dent sci, when the fee is £A10 p a.

**ACADEMIC YEAR** March to Nov three terms of 9, 9 and 8 wks.

**ADULT EDUCATION.** Adult educn, work is controlled by the univ. adult educn. bd, which has its HQ and library in Chancery House, Howard St., Perth. Its activities, which are state-wide and include extension lectures, orchestral concerts, drama, opera and ballet, are carried on in the metropolitan area of Perth as well as in country districts. In assocn. with other interested bodies the bd. runs an annual 'festival of Perth'.

## GENERAL INFORMATION

The coll began in 1945 to work for Catholic higher educn in Africa. 'Statutes' approved by the Sacred Congregation for Seminaries and Univs in 1955 established govt of the coll in a council advised by a senate in all academic matters. The congregation of the Oblates of Mary Immaculate, who also conduct the Univ of Ottawa, Canada, is in charge. Staff, consisting mostly of lay people, and students include a significant number of non-Catholics. This deliberately pursues the fundamental aim of contributing to the African scene, genuine univ objectivity, autonomy and love of truth and, within an atmosphere of tolerance, a Christian mind and Christian values. The coll has been entirely gift-supported.

**FACULTIES AND DEANS** *Arts*, Rev. Fr D. Tuohy (Engl.), *educn*, Rev. Fr G. A. Auger, *sci*, Rev. Fr D. Paby (psychol.); *med sci*, Rev. Fr H. Cabon.

**COLLEGE SITE.** The main site of 108 acres is in Roma valley, 25 miles E. of the territorial capital, Maseru. An over-all development plan exists to provide for a student enrolment of 1000. Present facilities include: central admin block with a wings, a monastery and a men's hostel, power plant, warehouse and garage, dining block, temp arts block; women students hostel, incl chapel; sci block incl physiol., chem, zool. and bot; *lib*, temp library, and lecture theatre, 24 staff houses.

**LIBRARY** 40,000 vols and 150 current periodicals, member of South African, British and American library unions, and inter-library loan service of South Africa.

**ADMISSION.** Minimum entrance requirement is 2nd class matric cert from Jt Matric Bd of South African Univs in Pretoria, or the equivalent.

**FIRST DEGREES** (of Univ of South Africa) Under the agreement of 1950, with the Univ of South Africa, courses are provided for the following degrees of the Univ of South Africa: BA, BA(SS), BSc (3 yrs each).

**DIPLOMAS, ETC.** 2 yrs.—jr sec teachers dipl for High Commission territories, 1 yr.—inter. of Chartered Inst of Secs.

**FEES** Residence and board, £100 per yr of 4 terms; tuition & exam fees average £3. 10s. per course per yr; registration fee, £3. Students Representative Council, £1 per yr, lab. fee £2, per course.

**ACADEMIC YEAR** Early Feb to mid-Nov. 2 terms.

**RESIDENCE** The coll is entirely residential. Halls of residence have been built on the coll. site and provide each student with a separate furnished study-bedroom.

**PUBLICATION** *Prospectus* (free on application to registrar).

# THE UNIVERSITIES OF CANADA

[Contributed by Colin M. McDougall, Registrar, McGill University]

**HISTORY** In 1635, the year before the colonists of Massachusetts Bay voted to found what would become Harvard College, the priests of Quebec city, capital of the French colony of Canada, founded the Collège des Jésuites. The Séminaire de Québec, lineal forefather of the mighty Laval University of to-day, was founded in 1663. To this institution the Collège des Jésuites transferred its arts courses in 1765; and from these roots grew the whole vast system of French-Canadian education. One lusty infant of the same parentage, which grew into a giant, was the University of Montreal, established as a 'succursale' of Laval in 1876, and receiving its own charter in 1920. Scores of classical colleges, each attached to one of the universities, were founded over the years, and the French-language institutions even spilled over the provincial frontiers. The Collège de St-Basile, for instance, was established in Manitoba in 1818, the bilingual University of Ottawa in 1848 and St. Joseph's, of New Brunswick, in 1864.

Colleges in the English-speaking tradition came later. For a decade after the conquest of the French colony in the 1760s, the British military shouldered their muskets and tended to military affairs. It was the American revolution which brought English-speaking education to Canada. Streaming north from their absconced colonies came the civilian loyalists, and these men concerned themselves at once with the task of providing education for their children. The first institutions they founded were named, predictably, 'King's' Colleges. King's College, at Windsor, Nova Scotia, was founded by provincial charter in 1789, receiving its royal charter in 1802. The University of King's College is now located at Halifax and is intimately associated with Dalhousie University. In New Brunswick the Provincial Academy of Arts and Sciences became the College of New Brunswick by provincial charter in 1806, receiving its royal charter as King's College, New Brunswick, in 1828. In 1829 this institution became the University of New Brunswick. A third, 'King's College at York' (precursor of the University of Toronto), was founded in 1827. One may reflect how the influence of King's College, New York (which took the name of Columbia University after the revolution), spread to Canada: a group of Anglican clergymen in New York planned King's College, Windsor, while awaiting the ships that would carry them into exile. The loyalists were as devout as they were loyal, not only did they name these colleges for their King, they prescribed for them his religion. Each institution was firmly and fervently

Anglican, and thus the denominational precedence in Canada was firmly established. Only some of the loyalists, and only some of the English-Canadians, of course, were Anglican, and this division was to give rise to bitter disputes.

The universities of Canada may be classified in one of three main groups:

1. Those founded, supported and controlled in varying degree by religious denominations: e.g. Laval, Montreal, Ottawa, St. Francis Xavier, St. Joseph's—Roman Catholic; King's—Anglican; Mount Allison—United Church; Acadia (and, until 1957, McMaster)—Baptist.

2. Those primarily supported by their province, and to some extent subject to provincial control: e.g. New Brunswick, Toronto, Manitoba, Saskatchewan, Alberta, British Columbia.

3. Those independent of church or state (although perhaps denominational at the outset), and at one time dependent upon private benefaction: e.g. Dalhousie, McGill, Queen's, Western Ontario, Carleton.

The Anglican King's Colleges demanded and received financial grants-in-aid from their local and home governments, a privilege at first denied to the other denominations. This engendered considerable strife and bitterness, and the 'college question' became entangled with the current political struggle for responsible government. As quickly as possible the other denominations moved to establish their own institutions. Thus, to cite a few examples: Acadia (Baptist 1838), Queen's (Presbyterian 1841), Victoria (Methodist 1841), St. Francis Xavier (Scotch R.C. 1853), Woodstock College (Baptist 1857, now McMaster), Mount Allison (Methodist 1858).

During these years generations of stern, dedicated clergymen, some of them inspired teachers and educators, others denominational martinetts, came to dominate the Canadian educational scene. For the most part there was nothing 'demish' about these men; they had a hard job of education to do in a new country and they did it well. If the sweet delights of meditation in an Oxford cloister, or the revels of a Heidelberg beer-hall were missing, so were these things from the Canadian landscape itself. They bred *clow* men to live in a clow country: the doctors, lawyers, teachers and fellow-clergymen who had to serve and earn their living in a new country whose very boundaries were unknown. Given the political-governmental background, it is little wonder that denominational battle lines were clearly drawn and bitterly contested.

The only early exceptions to this denominational

emphasis were Dalhousie and McGill. Having seized the sum of £11,000 from the American customs in the war of 1812-14, Lord Dalhousie founded the university bearing his name in 1818. This was in direct protest against the sectarianism and allocation of government support to the King's Colleges, and at Dalhousie registration was opened 'to all occupations and sects of religion'. James McGill left his estate and £10,000 to found McGill College, which received its royal charter in 1828. As a Presbyterian, turned Anglican, who married a Roman Catholic, McGill too deemed that his college should be non-sectarian. To accomplish this purpose one of the first principals, who was also rector of Christ Church in Montreal, had to be dismissed after bitter wrangling. Both these institutions were modelled on the University of Edinburgh pattern. A third institution of the Scottish type was Queen's, at first under Presbyterian control, but later non-sectarian. It is worthy of note that these three universities emphasized the study of science and medicine during the nineteenth century, and attained national prominence in these fields.

The universities of Canada are products of their times and geography. Hence in the early-settled Atlantic provinces, late as poor, there are no fewer than seventeen degree-granting institutions for a population of less than two million. Only three of these receive provincial aid in substantial amounts; and all envy the prodigal support received by universities in the central and western provinces. If poor in relative terms, the Atlantic universities are rich in academic accomplishment. It is these universities which have for the most part produced the presidents and principals of the other universities of Canada.

Quebec and Ontario, with a population of ten million, have fewer universities. In the case of Ontario financial support has been lavish, at least as seen by Maritime eyes; in Quebec, since the recent resolution of the federal-provincial constitutional impasse, support has been generous. The process of consolidation and federation proceeded rapidly in the central provinces after national confederation in 1867. Various subdivisions of Presbyterian and Methodist colleges were united; and larger institutions gathered hosts of small colleges under their wings. The University of Toronto, Canada's largest, is a classic example both of federation and affiliation, containing within itself three universities, and a number of affiliated colleges, as well as perpetuating the names of other superseded precursors.

In the west, the newest section of the country, a new philosophy is evident. Each of the four western provinces, Manitoba, Saskatchewan, Alberta and British Columbia, has its provincial university, and the provinces have decreed that degree-granting powers shall be confined to these provincial universities. All are large (the University of British Columbia is now Canada's second largest in enrolment), flourishing and generously supported by their provinces. All have affiliated or federated colleges. Manitoba began on the

University of London model as an examining and degree-conferring body, and Alberta and Saskatchewan each operate on two campuses (Edmonton and Calgary; Saskatoon and Regina). It is probable, as a result of the population explosion, that institutions such as Brandon College (Manitoba) and Victoria College (British Columbia) will be assigned roles of greater importance in the future. In statistical summary, Canada has forty-seven universities and colleges with degree-conferring powers, more than 300 other institutions offer courses at university level.

The movement in Canada to establish new universities gains additional impetus each year. Four new institutions have been proposed for the province of Quebec; even one for New Brunswick, already so plentifully endowed. In recent years the following new institutions have come into being, or changed to university status: Assumption University of Windsor, Carleton University, Lakehead College of Arts, Science and Technology, Laurentian University of Sudbury, Osgoode Hall Law School, Royal Military College of Canada, University of Sherbrooke, Sir George Williams University, University of Waterloo, Waterloo Lutheran University, York University. The existing universities will expand, and still more universities will be founded in the years ahead. For the enrolment in 1961-62 of 129,000 students will more than double by the end of the decade.

**CONSTITUTION** In structure Canada's universities range all the way from simple unitary types like, say, St. Dunstan's, based upon one faculty with an enrolment of 426, to a federated and complex giant like Toronto with more than 14,000 students. On the scale between these extremes every size and type of institution is represented. Despite this diversity, however, it is interesting to note that a fairly constant academic standard prevails. One institution will, perhaps by ten per centage points, be less or more exacting than another in entrance requirements, but there is nothing equivalent to the U.S. state university which is required by law to admit any high school graduate of that state. In this particular of relatively uniform standards Canadian universities on the whole more closely resemble those of the United Kingdom than the United States. For the same reason, of course, it is more difficult to pluck out and identify any one as being the Harvard or Oxford of Canada.

Plenary control is exercised in almost every case by a board of governors who reserve to themselves full financial powers, but assign matters of academic concern (including curriculum, standards, degrees, etc.) to a senate or faculty council. The president or principal (and, usually, in this case, the vice-chancellor) is appointed by the board as the university's chief executive officer. The chancellor may, in the case of denominational institutions, be an archbishop; in other cases a retired and distinguished academic; and, in others still, a businessman who acts as chairman of the board. The board itself draws heavily on the

business world, hardly at all upon the academic. Provincial universities will have governmental representatives on the board, the religious will have their clerics, but the most striking feature of all boards is the preponderance of businessmen who govern the universities of Canada. It says much for the urgency and potency of these men that universities have flourished as they have. Inevitable conflicts of interests or convictions between business and academic attitudes have been met head-on and solved, financial management for the most part has been excellent. Still, the academics are calling more urgently each year for a greater voice in university government. (For an interesting debate on this topic see recent issues of the bulletin of the Canadian Association of University Teachers.) The one focal point at which the interests of board, senate and faculty intersect is the president or principal. As a member, and often the sole academic member of the board, and usually also the chairman of senate, he has been likened to a 'narrow isthmus' linking the academic body to its governing head, and the academics would have it that the isthmus needs considerable broadening.

**FRENCH-CANADIAN UNIVERSITIES** Unique in the Commonwealth are the French-Canadian universities, patterned after the French model, and resembling neither those of Great Britain nor the United States. While denying their structural origin from France, it should at the same time be noted that the French-speaking universities have developed distinctively Canadian characteristics of their own. The core of their structure is formed by the numerous *collèges classiques*, each attached to one of the universities, and in aggregate forming the faculty of arts of that university. Study in these *collèges* leads to the degree of BA after an eight-year course, the first four years being at secondary school level, the last four years constituting the *cours collégial*. Yet note the differences between one of these *collèges* and a French *lycée*. The French-Canadian baccalaureate demands one more year of study than its French counterpart; it allows for few curricular choices, and its curriculum differs in many other important respects. This is the distinctively Canadian pattern that has evolved over the centuries, and it will help to remember that the pattern was modelled on the French system before secularization occurred.

There are scores of these *collèges classiques* scattered throughout the province of Québec, at least one in every Roman Catholic diocese. They are mostly residential and are not co-educational, separate colleges existing for girls. Comparing the French-speaking BA to its English university equivalent, it will be seen that it is a 'general BA', offering little specialization and few electives. For this reason, and because instruction is given only in French, transfer into or out of the stream from another academic system is almost impossible. This BA is the primary means of admission to the university proper, considering that the *collèges classiques* constitute the faculty of arts, the BA qualifies the holder for admission to every other

faculty of the university. It is, moreover, the prerequisite for admission to medicine, law, theology, graduate faculty of arts, pharmacy and dentistry.

The second method of admission to university is by attendance at a French-speaking high school. Here there are normally twelve years of schooling, and at the end of the *secondaire* course the student may be admitted to courses in engineering, science, commerce, education, physical education, forestry, agriculture, nursing, physiotherapy and laboratory technique. In each of these cases the student will study toward the baccalaureate in the field concerned. As a rough guide, the *secondaire* course of the French-speaking high schools is considered equivalent to 'O' level in the General Certificate of Education.

The French universities correspond to their English-language counterparts in offering the master's and doctor's degrees at postgraduate level. It is sometimes assumed that the *baccalauréat* is the usual second degree, but this degree, with some exceptions, is conferred only on graduates of a *collège classique*, and is designed to qualify them to teach in a *collège classique*. It involves four dissertations instead of one thesis, and differs in other respects from the usual master's degree. The student coming to a French-Canadian university from another system will, in any event, either work toward a bachelor's degree in his chosen field, or toward the usual postgraduate master's or doctor's degree. Transfers at postgraduate level from the English to the French system are quite usual and can be effected without difficulty.

The foregoing is a simplified account of a complex subject, and for more detailed information the reader is referred to the institutional listings of Laval University (p. 211) and the University of Montreal (p. 269), as well as to some of the publications listed under 'Further Information' on p. 135.

**RELATIONSHIP TO GOVERNMENT** Under the terms of the Canadian constitution, as defined in the British North America Act of 1867, education is assigned to the various provincial governments and not to the federal government. Thus each province has its own department of education, and until recently, apart from running the Canadian Services Colleges and supporting various research activities, the federal government did little more than keep a benign eye on the universities. Since 1952, however, the federal government has recognized the financial needs of the universities as a national responsibility, and hence a federal grant, at present calculated on the formula of \$2.00 *per capita* of provincial population, and divided among institutions according to individual enrolment, has been paid to all universities. To avoid any imputation of governmental interference these payments are remitted to the universities in nine provinces through an incorporated academic body known as the Canadian Universities Foundation (see p. 133). Grants to universities in the tenth province, Québec, are paid by the provincial government which is then reimbursed in an

indirect way by the federal government. In eleven years the government of Canada has paid 166 million of sorely needed dollars to its universities.

Provincial grants, both to provincial and non-provincial universities, vary from generous to scant. One province, for instance (Alberta), allocates 7 per cent of its provincial budget to universities, another (Newfoundland) less than 1 per cent. The most recent survey shows that annual grants to universities ranged from a low of \$195,000 in Prince Edward Island, to a high of \$32,500,000 in Ontario, or, on a per capita basis, from \$190 per student in Nova Scotia to \$2878 per student in Alberta.

Quebec presented a very serious problem of its own. As the guardian of *la science française* in Canada, Quebec has fiercely resisted any encroachment upon its exclusive rights in education. For six years, from 1953 to 1959, the universities of Quebec grew poorer and sadder and more desperate as the shouting war on the subject of provincial autonomy raged between the government of Quebec and the government of Canada. Education belongs to the province, cried the provincial government of that time; hence federal aid is unconstitutional and a violation of provincial rights. While the war raged the universities grew poorer and sadder and more desperate still. Happily to relate, however, a resolution\* was reached in 1959, and in lieu of federal grants the Quebec universities now receive a statutory amount from the province plus generous supplementary amounts for operating and capital costs. In effect, the government of Quebec has accepted the obligation of attempting to balance the budgets of its universities.

**CANADA COUNCIL.** In 1957 the government of Canada set up a Canada Council charged with the task of implementing certain recommendations of the royal commission on national development in the arts, letters and sciences, which had been headed by the Right Honourable Vincent Massey. The announced object of the Canada Council was 'to foster and promote the study and encouragement of, and the production of works in, the arts, humanities and social sciences'. This was a bold and imaginative venture indeed in a country never previously noted for an over-zealous concern with its arts and letters.

To accomplish this purpose the government gave to the council the sum of \$100 million, divided into two funds, the University Capital Grants Fund and the Endowment Fund. The first fund of \$50 million is being spent over a ten-year period in matching grants to universities to help with the erection of buildings in the arts, humanities and social sciences. These grants were offered to ninety-five eligible institutions according to a complicated formula based on provincial population figures in relation to student

enrolment, and they have already been put to extremely productive and effective use.

The second \$50 million, constitutes an endowment fund, the interest on which now yields almost \$3 million per year, and this money is used to accomplish all manner of good works. About \$1 million per annum is expended on a scholarship programme which provides some 600 annual scholarships and grants-in-aid to Canadian students at the postgraduate level. Grants totalling well over \$1 million are awarded each year to orchestras, theatres, ballet and opera companies, universities and various cultural or academic bodies to enable them to maintain or expand their activities. In addition, many individual artists, writers, musicians and scholars receive grants to enable them to complete given projects and to free them for creative work. Imagination has been evident in every phase of the council's activities. Recently, for instance, grants of \$2000 each were made to seven universities to commission sculptures on their campuses—note the dual purpose achieved here, that of beautifying the campus and at the same time enabling the sculptor to practice his art and earn a living. Special grants of up to \$5000 are now being made to university libraries to develop programmes of instruction and research in Asiatic, African and medieval studies.

In the retrospect of only a few short years it seems almost inconceivable that Canada, and especially its universities, ever survived and prospered without the Canada Council.

The chairman of the Canada Council is Lieutenant-Colonel D. B. Weldon, chairman of the board of governors, University of Western Ontario. The vice-chairman is Gérard Filion, and the director is Dr Albert W. Treisman. The address of the Canada Council is 140 Wellington Street, Ottawa, Ontario.

**FINANCE.** The total income of Canadian universities and colleges for the academic year 1960-1961 was approximately \$179,000,000, including net income from ancillary enterprises and also research grants. The chief sources of income and the average proportion of the university budgets derived from these sources are as follows: student fees, 27 per cent; gifts 3 per cent; endowments, 5 per cent; federal grants, 16 per cent; provincial grants, 37 per cent. These averages are far from being representative of individual universities. Thus student fees range all the way from approximately 9 per cent, to 68 per cent, of some of the budgets; gifts range from 0 per cent to 24 per cent; endowments from 0 to 27 per cent; federal grants from 0 to more than 42 per cent; provincial grants from 0 to more than 67 per cent.

**PRE-UNIVERSITY EDUCATION.** In the English-speaking system children usually enter school at the age of six. Attendance is compulsory from

\* This whole problem makes a page of fascinating reading in Canadian history. For an excellent account see Edward F. Shefield's *Canadian Government Aid to Australian Universities' Royalties*.

the age of six to fifteen or sixteen. Approximately two-thirds of the children entering grade I continue into secondary school, and about one-third complete the requirements for a high school leaving certificate at the end of eleven or twelve years. In most provinces secondary schooling follows the composite pattern, although technical schools provide vocational courses in many of the cities.

Secondary schooling ends either at junior or senior matriculation level. As a rough guide, 'O' level in the General Certificate of Education is considered to be equivalent to junior matriculation, and 'A' level equivalent to senior matriculation. The junior matriculation year is grade XI in Newfoundland, Nova Scotia, Quebec and Manitoba; and grade XII in Prince Edward Island, New Brunswick, Ontario and British Columbia. The senior matriculation year is grade XII in Nova Scotia, Quebec, Manitoba, Saskatchewan and Alberta, and grade XIII in Ontario, New Brunswick (occasionally) and British Columbia. The senior matriculation year at school is generally accepted as being equivalent to first year at a university which admits from junior matriculation level.

In French Canada children either attend a high school, in which case the '*deuxième année*' is usually the terminal year of secondary education, or they enter a *collège classique*, already described on p. 129.

**ADMISSION** (see also Appendix III). Except in faculties such as medicine, where the number admitted depends on the available number of clinical places, all applicants who meet the stipulated entrance requirements of a university are admitted. Residential universities, of course, can admit only up to their limit of available rooms; and a few universities are so crowded at present that a small proportion of qualified applicants must be turned away until new buildings and class-rooms are provided. In general, however, applicants who write provincial examinations at the end of their secondary schooling and obtain the required average (usually from 60 per cent. to 70 per cent.) in certain prescribed papers (as detailed in Appendix III) will be admitted. A small, but perhaps notable trend of the future, is the desire of a few universities to limit enrolment and to select the best students out of the total number who apply. McGill, for instance, requires College Entrance Examination Board tests of its Canadian applicants and issues some 'provisional early acceptances' before the provincial examinations have been written. It should also be noted that competition for admission is becoming keener, and in 1961 five universities raised their entrance standards.

For admission to graduate school a first degree with at least 'second-class honours standing' in the subject proposed for the higher degree is usually required. Some graduate faculties will admit a student to a 'qualifying year' if he has good general standing but lacks the necessary prerequisite subjects. Graduates of other universities

throughout the world are admitted if they have equivalent standing.

Instruction is in either English or French, according to the university. A good working knowledge of the appropriate language is essential, and a number of universities require applicants whose mother tongue is not English to submit the English Language proficiency certificate of the University of Cambridge or the University of Michigan. Non-Canadian students should apply as early as possible before the session commences. Canadian immigration authorities will require proof of health and financial competence.

**STRUCTURE OF DEGREE AND DIPLOMA COURSES.** A pass or 'general' first degree is usually conferred after four years of study from junior matriculation, or three years from senior matriculation. The BA normally comprises five full courses each year, science, and especially engineering courses usually considerably more. Examinations are held each session on the work of the year in each course, and 'pass standing' is required in order to be admitted to the subsequent year. In the general degree the student proceeds according to some basic pattern of major, concentration or cognate subjects. The vast majority of Canadian students are registered in general rather than in honours degree courses.

The honours degree usually demands an additional year of study, although this requirement is by no means universal. In honours courses the student may take 'joint honours' in two subjects or concentrate exclusively upon the one chosen subject. Concentration is the keynote of an honours course; the grooming board of the academic banquet is not for the honours student. He dines exclusively from the one academic dish. 'Honours standing' (usually from 65 per cent. up) is required both to enter and to remain in an honours course.

A master's degree demands at least one year of study in certain prescribed courses beyond an honours bachelor's degree, and an acceptable thesis. The PhD requires at least two additional years, prescribed courses, examinations and the presentation of a comprehensive thesis. The work of the postgraduate student is carried out under a specified director of research, and his thesis must indicate some original capacity for research. Proof of competence in German or French, or both, is required, there is usually an oral examination, and sometimes the student must publicly defend his thesis.

Advanced degrees are also awarded in such faculties, colleges or schools as medicine, law, dentistry, social work, library science, etc. A prior period of study in another faculty and, more often, a first degree, is required for admission to these professional faculties, which are usually quite separate and distinct entities from the university's faculty of graduate studies and research.

Diploma courses are usually offered at a lower level than degree courses, although they will sometimes signify a further professional qualification,

in the case, for example, of a diploma course in medicine open only to MD graduates. More usually, however, diplomas are awarded to those who seek lesser qualification in such fields as nursing, physical education, music, agriculture, etc.

**TEACHING STAFF** In 1961-62 there were some 9500 teachers and researchers employed in Canadian universities, ranged among the academic grades, in descending order of rank, of (full) professor, associate professor, assistant professor and lecturer or instructor. Another still more junior grade, not included in the above total, is that of demonstrator, a post which is often filled by post-graduate students. 9500 teachers and 129,000 students represents a student-staff ratio of about 14 to 1.

The main teaching method is the lecture, supplemented by seminars; and in the sciences there are often two hours of laboratory periods for each hour of lectures. In general, university teachers find their own time for research activities, although in some institutions the teaching load will be reduced to make more time available for important research projects. A fairly common pattern of maximum lecture-load is nine hours per week for a full professor, and twelve hours per week for an associate professor. Grants in aid of research are made to individual researchers in about half of the universities, about the same proportion provide funds for travel in connection with research, for publication of papers and for attendance at meetings of learned societies. Sabbatical leave is established policy at only about one-third of the universities. At most of the others, however, leave of absence for research is usually granted, and the salary paid during leave, whether sabbatical or other, is usually about 50 per cent of the full-time salary.

During the past decade salaries have more than doubled, the median for all grades now being about \$8500 per annum. Nearly all universities have adopted minimum salary scales for each of the four grades, and in some cases the medians and averages exceed the minima substantially. The minima in the higher-paying universities (it being understood that some are much lower) are as follows: professor, \$12,000; associate, \$9000; assistant, \$7000; lectures, \$5500.

Tenure is nearly always granted to full professors, and often to associate professors. Pensions and superannuation plans are of all forms and kinds, and in general there is difficulty in transferring a plan from one university to another. This is a complex matter and those coming from abroad are advised to seek individual advice from their university when discussing terms of appointment. (At this time it will be found that only one-third of the universities offer contracts; the others will merely provide a letter of appointment.) More than half of the universities have a fixed pension plan with the amount of the pension running at about 2 per cent of the final salary (or average salary of the last five years) per year of

service. Thus a professor whose terminal salary is \$15,000 and who has served thirty years, should retire with 60 per cent of \$15,000, or \$9000 a year. This will be recognized, of course, as being one of the more felicitous examples. Vacancies are usually filled as a result of private enquiry between universities. The Canadian Universities Foundation, however, now publishes periodic lists of 'Academic Vacancies in Canadian Universities and Colleges', and it is expected, in view of the importance of recruitment in the years ahead, that universities will make wider use of this and every other method.

The majority of Canadian professors have taken their first degrees in Canada. Although some Canadian graduate faculties are very good indeed, by choice, or by gravitation to the world headquarters of an academic discipline, many Canadians pursue their graduate training in the United Kingdom, the United States or Europe. Commonwealth and United States scholars are numerous in the Canadian universities; those from other countries constitute less than 5 per cent. In general, there are no restrictions based on nationality, and good scholars and teachers from all parts of the world are welcomed.

**STUDENTS** A 'university student' in Canada is generally taken to mean one who is in full-time attendance during the regular session extending from September until May. There were 129,000 such students enrolled during the 1961-62 session, and it is interesting to note that, although Canada has only one-third of Great Britain's population, this figure exceeds the total number enrolled in that country. The reason is, of course, that a higher proportion of those in the 'college-age group' (for statistical purposes, the population group aged 18-21) attends university in Canada. The proportion now enrolled is close to 12 per cent., and in the years ahead it is estimated that the figure will increase at least to 20 per cent. Most Canadians, however, would qualify at the 30 per cent. proportion now obtaining in the United States. Several universities, e.g. St. George Williams and Carleton, in addition to their day-time programmes, operate 'evening divisions' which offer degree courses to those who are employed during the day. Others enrol students in extra-mural courses and in summer schools from which degree credit may be obtained. In general, however, the road to a Canadian first degree leads directly through three to five years of regular day-time attendance.

Many universities, especially those in the country or in smaller towns and cities, are completely residential. In the metropolitan universities the majority of students live at home or in lodgings; only a minority live in university residences, and these can seldom accommodate all who apply. Annual tuition fees range from a low of \$150 to a high of \$675 a year, depending on the university and the course concerned (e.g. medicine is high). (Note that these fees are substantially lower than those of private universities in the

United States.) Room and board costs from \$400 to \$800. Other costs will include books and instruments, clothing, entertainment, medical care, travel, etc. This means that the total cost to a foreign student will be about \$1600-\$1800 for one academic year. Such a student may earn part of this cost through summer employment, but jobs during the four or five months of summer vacation are by no means guaranteed. Engineering students are commonly required to complete a minimum period of work in industry before their degrees can be conferred.

Every student body has its representative 'students' council', usually with headquarters in a students' union, which forms a centre for the mass of activities offered to the students at large, and at many universities the students' council exercises a real degree of autonomy in conducting student affairs. The new student is confronted with a dazzling variety of student activities and clubs to choose from, and his bewilderment is not always ended by his dean's admonition that studies must take priority over extra-curricular affairs. Many universities have Greek letter fraternities. Nearly all universities have training units for the three armed services.

Most universities operate a health service, financed from fees, which includes medical treatment and hospitalization. There is usually a student counsellor and/or an adviser for foreign students, a placement service, a lodgings service, a vocational guidance service, etc. The range of 'welfare' services, however, varies widely from one university to another.

The scale of scholarship assistance, and other forms of student aid, has increased strikingly during recent years. The non-Canadian undergraduate will not usually be eligible for an entrance scholarship, but after he has written his first sessional examinations he will compete on equal terms for university scholarships and be eligible for bursary assistance or student aid. Canadian students now receive greatly increased amounts of aid from their province. In 1960-61 Quebec, for example, awarded \$2,350,000 in 'loans-bourses' to a total of more than 3500 students. Ontario awards an automatic scholarship of \$400 to every student who obtains a grade XIII matriculation average of 80 per cent or better. Aid is more meagre in the Atlantic provinces, but the general trend from little to large help is apparent. The principle, at least, is now generally recognized that no talented students should be debarred from university for lack of financial means. One of the most important developments in the next decade may be the provision, through provincial, university and other schemes, of free tuition for every student who can obtain a second-class matriculation average. The federal government has long accepted an obligation to research research, and has therefore provided funds for graduate training. In science and technology such grants have been administered by the National Research Council for almost fifty years, and since 1958 postgraduate awards in the arts, humanities and social sciences have

been made by the Canada Council (see p. 130).

**ACADEMIC YEAR.** The usual academic year runs from the end of September until the middle of May, and is divided into two terms by a two-week break at Christmas.

**VACATION COURSES.** More than thirty institutions offer summer courses for which university credit is granted. These generally extend over a six-week period, from early July to mid-August. Correspondence preparation for credit courses is often required and sometimes correspondence work will follow a summer session. It is possible, although not usual, to earn a degree through attendance at summer courses. Most universities, however, require a minimum period of regular attendance to obtain a degree, e.g. at least two regular sessions of resident study. In addition to credit courses, many universities offer summer programmes of general or cultural interest in such fields as fine arts, music, languages, handicrafts, and some hold advanced seminar courses for specialists in fields such as management, psychology, geography, etc.

**UNIVERSITY EXTENSION.** Most universities offer programmes of extension courses, some for degree credit, some for professional advancement (e.g. chartered accountancy) and some as a community service to the public. In the metropolitan universities it is not unusual to find as many extension students thronging the halls and class-rooms in the evenings as there are regular undergraduates during the day. The provincial universities often include teacher education programmes in their extension division; and in general university extension comprises what is commonly termed 'adult education'. In some centres the cultural life of the community is largely the activity of the university as expressed through its sponsorship of workshops, programmes and other series of events. An interesting feature is the extension service carried to off-campus areas, especially by the provincial universities, whereby mobile libraries visit outlying areas or the privilege of drawing books from the home university library may be offered.

**INTRA-UNIVERSITY ORGANIZATIONS.** The National Conference of Canadian Universities, founded in 1911, voluntarily surrendered its identity in 1958 to two successor organizations known respectively as the National Conference of Canadian Universities and Colleges, and the Canadian Universities Foundation. This reorganization became necessary because the whole assembly of universities, as such, could not administer the federal government grants. The CUF now acts as the executive arm of the NCCUC; it receives and distributes to universities the federal grants; from its administrative headquarters in Ottawa it deals with Commonwealth Scholarships, conducts research and issues publications; and in general carries out all projects which are common to the forty-odd member institutions of the conference.

The president of the NCCUC becomes the ex-officio chairman of the CUP; there are twenty-two members appointed to represent groups of institutions divided according to their enrolment. The larger body is thus freed from any administrative concern, and is able to fulfil its primary function as 'the national forum of academic opinion'. The NCCUC meets in plenary session once each year to discuss problems and matters of common interest.

The central office of the CUP includes the important Research and Information Service, which has an extensive library of material on higher education in Canada and abroad, acts as a clearing house for information and publishes studies of problems faced in common by Canada's universities and colleges. In addition, the office includes an International Programmes Division, and a Medical Education Division which constitutes the secretariat of the Association of Canadian Medical Colleges—an associate committee of the CUP.

The chairman of the CUP (and president of the NCCUC) for 1961-62 is the Very Reverend H. F. Lévesque, rector of the University of Ottawa. The executive director is Dr. G. C. Andrew, who succeeded Dr. H. W. Jamieson in 1962. The research officer is Dr. E. F. Sheffield and the Executive Secretary of the ACMC is Dr. J. W. Macleod. The address of the Canadian Universities Foundation is: 75 Albert Street, Ottawa 4, Ontario.

The growth of the Canadian Association of University Teachers has been spectacular during the past ten years. Associations have been formed in thirty-six institutions, and these now represent more than 80 per cent of all full-time teachers in Canadian universities and colleges. A national office was established in 1959 at 77 Metcalfe Street, Ottawa 4, Ontario. The executive secretary is Dr. J. H. Stewart Reid. The CAUT quarterly bulletin reports news and views of the Canadian university scene.

A complete list of university associations and agencies appears in *Canadian Universities and Colleges*, published by the CUP. Others most noteworthy as inter-university organizations are:

*Canadian Association of University Business Officers.* Secretary-Treasurer: Mr. D. S. Claringbold, Hart House, University of Toronto, Toronto 5, Ontario.

*National Federation of Canadian University Students,* 45 Rideau Street, Ottawa, Ontario.

*World University Service of Canada.* General Secretary: Mr. D. Maves, 22 Wilketts Street, Toronto 5, Ontario.

**THE UNIVERSITIES TO-DAY** The problem facing all universities is simple but serious: the inexorable fact is that student enrolment will nearly triple in the decade ahead. Earlier projections of 250,000 students by 1970 now seem underestimates in the light of experience; more likely the present number of 120,000 will increase to more than 300,000 students by the end of the

decade. Experts say that the number of 9500 teaching staff in the 1961-62 session will have to be increased to 25,000 in 1970-71. Physical facilities will have to be expanded proportionately, new buildings and new universities will have to be built. Financial demands on the universities, and the governments who support them, will be staggering. It becomes progressively more expensive to run a university. During the past decade the operating cost per full-time student has more than doubled—from \$700 in 1950-51 to more than \$1500 in 1960-61, and the scale is still rising. The total operating cost of Canada's universities in 1962 is estimated at \$180 million; the experts say this figure may rise to \$420 million in 1965. Capital costs may be gauged by the estimate that in the five-year period ending in 1965 universities will have to spend a total of \$750 million in building programmes. In brief, years of vast expenditure stretch ahead, and the first problem of the universities and the country as a whole is to find the necessary funds. Secondly, there is the urgent problem of training and recruiting the teachers who will be required, and, lastly, the planning and actual execution of the necessary buildings.

Most universities have welcomed the challenge, declaring they will build, recruit and expand to whatever extent may be required. A very few others, however, are thoughtfully assessing the situation, wondering whether they might not lose their cherished, individual characteristics if they expand beyond a certain optimum number, and whether quality might not inevitably be sacrificed to the inordinate demands of quantity. In whatever way each institution squares off to the problem, there is no doubt that the decade ahead will be the most challenging and the most crucial in the history of Canada's universities.

**OTHER INSTITUTIONS OF HIGHER EDUCATION.** In Canada the terms 'higher education' and 'university education' are almost synonymous. Practically all types of professional or general training beyond the level of secondary school are the responsibility of the universities. The education of lawyers is a university function, as is the training of teachers for secondary schools, while the training of teachers for elementary schools, requiring less than degree qualification, is usually supervised by provincial departments of education. Accountants must meet standards set by their governing professional body, but the universities work closely with these bodies, and the accountancy student will often take evening courses at a university under the same teachers who supervise the regular undergraduates programme.

North America has never proved hospitable to the European tradition of training technicians to hold jobs at an intermediate stratum in business and industry. (It would be heresy to consider that a technician, or any employee, could not rise to the presidency of a corporation.) In recent years, however, advances in technology plus an intermittent shortage of technically trained man-

power, has led to the establishment of a number of institutes of technology. There are now more than thirty such post-secondary institutes, all of them administered as integrated parts of provincial technical and vocational training programmes. In total they enrol over 10,000 full-time students. Their distinguishing characteristics are the requirement of junior matriculation for admission, and stress on the application of post-high school mathematics and science. Instruction is in either the engineering-science field, or in the business and service administration field. Graduates of such institutes, whether technical or commercial, are in good demand. This is a relatively new development, and one which may well assume even greater importance in the years ahead.

## DIRECTORY TO SUBJECTS OF STUDY

Source: Research and Information Service, Canadian Universities Foundation

The Table of first degrees (pp. 136-139) indicates which universities offer first-degree programmes (honours and professional) in eighty-one subjects. The symbol ✓ means that a first degree (honours or professional) can be taken in the subject indicated. All the universities listed with the exception of Nova Scotia Agricultural College and Nova Scotia Technical College offer general or pass degree courses in arts and science. The second degree is normally the master's or licence—at least one year beyond the first degree—and the third is the doctorate, usually requiring at least two additional years. The listing below shows which universities offer courses leading to the master's and doctoral degrees in specified subjects and provides additional information about first-degree programmes and diploma courses in certain fields. Where the doctorate is offered, courses leading to the master's degree are also generally available.

## ASSOCIATED INSTITUTION

MARITIME SCHOOL OF SOCIAL WORK, Halifax, N.S. (tel. Halifax 3-6907) Founded 1941 Provides 2 yrs' professional tlg. leading to degree of Master of Social Work (MSW) of Acadia for

approved grads. of Acadia and other recog. univs. Dir.—L. T. Hancock, MA Chm. & K.C.N.S., BSW McG

## GENERAL INFORMATION

Founded, as Queen's Coll., in 1838 by the N.S. Baptist Educational Society, Acadia Coll. ('Acadia' is a Latinized form of 'Acadie', the earlier Amerindian name for Nova Scotia) was incorporated in 1840 by act of the N.S. legislature, with the powers of a univ., and the name changed to Acadia Univ. by an act of legislature in 1891. Endowment, \$2,000,000, physical plant, \$8,000,000.

This is a residential univ. in a town of 2400 pop.

**CONSTITUTION** The bd of governors is appointed by the Baptist Convention of the maritime provinces, but the students and faculty are subject to no religious tests. Of the 30 governors, 14 are nominated by the 'associated alumni' of the univ. By the 1840 act of incorporation and subsequent legislative amendments, the bd of governors has authority over all matters of property, finance and discipline, and all appointments of academic or admin. staff. The senate, consisting of pres., provost, deans, chairman of governors, and 12 other persons apptd. by bd. of governors, has final authority over all academic matters including curricula, and grants diplomas and degrees in all depts. and facs. For purposes of routine admin., the bd delegates its powers of discipline to the facs. Curricula and exams are the province of the facs., subject to final confirmation of senate. The pres. is chairman of senate and of the combined facs., and ex officio a member of bd. of governors.

**INCOME (1960-61)** Total operating income, \$1,888,516. Of the non-residential income, the sources were: fees, 50.5 per cent.; federal govt. grant, 23 per cent.; provincial govt. grant, 7.8 per cent.; endowment, 10.5 per cent.; Baptist churches, 2 per cent.; other gifts, 6.2 per cent.

**FACULTIES AND DEANS (1962-63).** Arts & sci., Prof. R. S. Langley (nat.); admin., Prof. M. V. Marshall; engin. (aig.), Assoc. Prof. F. Turner (engin.); Assn. econ., Prof. Elizabeth MacMillan; Agric., Prof. E. A. Collins, Jr.; Prof. E. C. South (biol.); theol., Prof. B. MacD. Whidden (church hist.). Soc. sci. (dir.), Assoc. Prof. Jean Marsh.

**UNIVERSITY PRECINCT.** 100 acres of lawn, park and playing fields have been landscaped over the past century. Some 35 bldgs. have been erected and an architect's master plan projects still others.

**LIBRARY.** 120,000 vols. Sp. collections include Eric Dennis and John D. Logan collections of Canadiana.

**LABORATORIES** Biol., chem., geol., phys.,

engin., home econ. Green-houses and strobilometer. Astronomical observatory.

## GENERAL INFORMATION

### EDMONTON AND CALGARY

(see also below)

The univ. was created at Edmonton in 1906 by an act of the first session of the first legislature of the province. The provincial legislature has establd. a close relationship between the univ. and the professions by giving the general fac. council jurisdiction over the educn. standards of agrolgists, architects, chartered accountants, dental auxiliaries, dentists, dietitians, engineers, geologists, geophysicists, land surveyors, lawyers, pharmacists, physical and occupational therapists, physicians and surgeons, registered nurses and veterinary surgeons.

In 1944 the univ. assumed responsibility for all teacher trng. in the province and in 1945 took over the provincial normal schs. and their staffs.

The Calgary normal sch., which was housed until 1959-60 in the bldg. of the provincial inst. of technol. and art, became the Calgary branch of the univ., now the 'Univ. of Alberta, Calgary'.

The senate supervised all phases of the instn.'s activities until 1910, when a bd. of governors was constituted and given charge of the univ.'s business affairs. This form of govt. remained substantially unaltered until 1942, when a new act reduced the size of senate and transferred most of its academic functions to the general fac. council.

**CONSTITUTION.** The chancellor is elected for 6 yrs. by convocation, which consists of survivors

of original groups of grads. of other univs. who registered as members of convocation under the univ. act of 1906, and all subsequent grads. of the univ., he is a member of the bd. of governors and of senate, as is the pres. The bd. of governors consists of 6 ex-officio members and 7 apptd. by the lt.-governor in council. The senate consists of 29 members, and acts as a deliberative, enquiring and recommending body. There is considerable emphasis on its function as a bridge between the univ. and the life and activities of the province, and 9 of its members represent agric., business, labour, industry, public reform and organizations devoted to social and cultural welfare.

**INCOME (1961-62)** On current account, about \$16,425,000 (sources of revenue: prov. of Alberta, 48.7 per cent; govt. of Canada, 11.7 per cent; tuition fees, 16.3 per cent; departmental and other sources, 23.3 per cent). This total includes revenue of both the Edmonton and Calgary campuses. Calgary expended \$1,723,040 of the current revenue. Income on capital account, \$4,591,695 for Edmonton and \$1,547,205 for Calgary.

**FACULTIES AND DEANS** See p. 148.

**SCHOOLS AND DIRECTORS** See p. 148.

**ADMISSION** See Appendix III.

**FEES** Annual tuition fees: BA, \$250; BMus, \$250; BSc, \$250; art dipl., \$250; BCom, \$250; DDS, \$425; BEd, \$250; BSc (engin.), \$340; LL.B., \$340; MD, \$425 (1st yr.), \$525 (subsequent

yrs.); BPE, \$250; dipl. in phys. therapy and occupational therapy, \$250; dipl. in pub. health or in teaching and supervision (nursing), \$290; DSc or DLitt, \$250; most other grad. degrees, \$250 per session (complete details of grad. fees in calendar of fac. of grad. studies).

**ACADEMIC YEAR** In most courses mid-Sept. to end April; a terms of about 15 wks. each with a Christmas vac., in med. and dent., a terms of about 15 and 17 wks. Summer session: see below.

**SUMMER SESSION** 6 wks. in July and Aug. (mainly for students in arts & sci. and educn.) All courses may be credited towards degrees.

**BANFF SCHOOL OF FINE ARTS** is at Banff Natl. Park in the Rocky Mountains. Session held during July and Aug., and courses offered in fine and appl. arts, lang., writing and journalism. Majority not given for univ. credit. Dir.—Senator D. Cameron, MSc.

**BANFF SCHOOL OF ADVANCED MANAGEMENT**, under govt. sponsorship of Alberta, British Columbia, Manitoba and Saskatchewan, is meeting industry's demand for exec. trg. through its advanced management courses.

**ALUMNI ASSOCIATION** All grads. are members of alumni assoc., directed by council of 33 members. Alumni sec.-treasurer, employed by univ., has his office in students' union bldg.; he is also editor of the *New Trail* (see 'Publications', below).

## EDMONTON

(see also above)

The campus borders the wooded southern bank of the N. Saskatchewan River in the capital city of the province of Alberta. The property of the univ. in Edmonton includes the campus of 154 acres, and an exper. and teaching farm nearby of 724 acres. In addition, the prov. govt. has leased to the univ. a 5500-acre ranch at Kinross, Alberta, for teaching and res. In 1960 Col. H. A. Dyde donated an 80-acre tract of woodland a short distance from Edmonton for a bot. garden and field lab. In 1961 the dept. of agric. of the prov. of Alberta secured title to 640 acres of land at Ellerslie, south of the city, for use by fac. of agric.

 tains its own printing and bookbinding establish-  
 ment on the campus.

## CALGARY

(see also above)

The campus at Calgary has outgrown its old  
 quarters in the prov. inst. of technol. and art and  
 a new site of approx. 230 acres has been donated  
 by the city on the Banff highway at the western  
 limits of the city. The first two bldgs. are de-  
 signed to house arts, educn., sci. and engin., and  
 were opened in the fall of 1960.

The univ. in Calgary functions under the same  
 constitution and under the same officers as the  
 univ. in Edmonton. Sr. admin. officer in Calgary  
 is the principal. The various depts. are under the  
 dir. of deans and dept. heads in Edmonton acting  
 through admin. officers in Calgary.

**LIBRARY.** 42,000 vols., 957 periodicals taken  
 regularly.

**LABORATORIES** available for all sci. courses  
 offered.

**RESEARCH LABORATORIES.** A lab. on the campus  
 and an underground chamber on Sulphur Moun-  
 tain in Banff Natnl. Park are being used for the  
 intensive study of cosmic rays. The phys. dept.  
 houses an electron microscope. There is also a  
 Calgary div. of the prov. lab. of pub. health.

**TEACHING HOSPITALS.** Calgary General is used  
 for trg. of 2nd, 3rd and 4th yr. BSc (nursing)  
 candidates.

**DEGREES** (of Univ. of Alberta). The Univ. of  
 Alberta, Calgary, offers first 3 yrs. of course lead-  
 ing to BEd and to degree in engin., and first 3 yrs.  
 of course leading to BEd degree in indust. arts.

1st yr. courses available in fac. of arts & sci. lead-  
 ing to degrees of BA, BSc, BSc in nursing and  
 BSc in household econ. The 1st yr. may be taken

## GENERAL INFORMATION\*

Founded 1857 by Rev. Pierre Point, pastor of Assumption Parish, Sandwich (Windsor). Incorporated 1858 by a public act of the legislature of the province of Canada. Conducted by the Basilian Fathers in 1857-58 and since 1890. Most Rev. D. O'Connor, D.D., president 1870-90, lengthened the arts course from 2 to 4 yrs., and was responsible for considerable academic and maternal progress. Affiliated with the fac. of arts and science of the Univ. of Western Ontario in 1919. The Assumption College Act, 1953, passed by the legislature of the province of Ontario, amended the original act of incorporation, varied the administration of the coll. and enlarged and specified its university powers. Affiliation ceased July 1, 1953, and the following year the coll. was admitted to the NCCU.

A reorganization of the fac. of arts and science took place in 1956, whereby the depts. of the natural sci., maths, engin., nursing educn. and bus. admin. were assigned to Essex Coll. under its own non-denominational bd. of dirs. and the remaining depts. of this fac. were grouped into an academic unit known as University College, under the direct control of the Assumption bd. of governors. In March 1956 the Ontario legislature passed an act which changed the name of Assumption Coll. to Assumption Univ. of Windsor.

The univ. and university coll. are operated by the Basilian Fathers, a Roman Catholic order conducting univs., colls. and secondary schs. in Canada, the U.S.A. and France. The affiliated colls. are legally and financially distinct, but subject in academic matters to the senate.

The univ. is located in the city of Windsor (pop. 191,337) and serves a pop. of approx. 331,000 in S.W. Ontario.

**CONSTITUTION.** The univ. is administered by 25 bodies: the bd. of governors (8 univ. admin. and fac. members apptd. by the Basilian Fathers and 1 member apptd. by Essex Coll.), primarily concerned with finance, and the senate which is the official authority on all academic matters. The senate is partly univ. admin. and fac. members, ex officio; partly elected by fac. members and univ. grads; and partly apptd. by outside bodies, e.g. city and county councils, educational and profess. groups. The bd. of governors is advised by a bd. of regents, consisting of reps. of affiliated colls. and persons representing the religious, ethnic, social and economic aspects of the community.

**INCOME (1960-61).** Total income (operational) \$8,054,198 (tuition & other student fees, 30.9 per cent.; govt. grants, 38.7 per cent.; auxiliary enterprises, 25.6 per cent.; contribution from religious groups, 0.7 per cent.; other sources, 2.5 per cent.).

\* *Later note.* It was announced late in 1962 that a charter was being sought to establish a new, non-denominational Univ. of Windsor on July 1, 1963. Assumption Univ. would remain as a federated univ., holding in abeyance its degree-granting powers except in the grad. fac. of theol.

**FACULTIES AND DEANS.** See p. 163.

**UNIVERSITY PRESENT.** The univ. is housed in a group of bldgs. on a 100-acre campus bordering the Detroit river. These include the administration bldg., staff and student residences, Dillon Hall (Univ. Coll. lecture and seminar rooms, labs for household sci., langs. and psychol.); memorial sci. bldg. (biol. chem. and phys. labs.; biol. museum, audio-visual aids); Essex Coll. (engin. and geol. labs., amphitheatre); St. Denis Hall (gymnasium and swimming pool) and univ. centre (offices of the students' admin. council, student press, lounge, cafeteria, drama workshop and games room). Extensive playing fields.

**LABORATORIES** in all sci. depts., mod. langs., psychol., home econ., sci. and computer facilities in sci.

## GENERAL INFORMATION

The Univ. of British Columbia was incorporated by an act of 1908. The univ. site consists of 1000 acres on the headland of Point Grey, 300 feet above the sea. Here a group of bldgs., constructed at a cost of nearly \$2,000,000, was opened in 1925.

The univ. is an integral part of the public educn. system of the province, and its function is to complete the work begun in the public and high schs. It is the policy of the univ. to promote educn. in general, and in particular, to serve its constituency through 3 channels—teaching, res. and extension work. It furnishes instrum. in the various branches of a liberal educn., and in those technical depts. which are most directly related to the life and industries of the province. The people of the province are informed of the results of sp. work by the staff of the univ. through the dept. of univ. extension. B.C. has a population of 1,544,000 and Greater Vancouver of 612,000.

CONSTITUTION The bd. of governors consists of the chancellor, elected by convocation, presi-

dent and 9 other persons—3 elected by senate and 6 apptd. by lieut.-govr. in council. The senate consists of the chancellor, pres. (as chairman), deans and 2 profs. of each fac., 3 nominees of the lieut.-govr. in council, 2 profs. of Victoria Coll. elected by the fac., one member elected by high sch. principals and assts., one by each affiliated coll. in the province, 15 by convocation, one by the B.C. teachers' federation, 3 members apptd. by the board of management of alumni assoc.

INCOME (1960-61) Total income, \$16,514,754 (govt. of Canada grant, 23.6 per cent., provincial grant, 36.1 per cent., student fees, 26.3 per cent., gifts, grants and bequests, 9.3 per cent., other sources, 4.5 per cent.)

DEANS See p. 172

LIBRARY. 475,000 vols.; regularly receives about 4000 periodicals. Strong in serial publications of scholarly and scientific socs.

**LABORATORIES** available for all courses. The forest products lab. (opened 1958) is a unit of the F P labs div. of the forestry branch, dept. of forestry, govt. of Canada. **HERBARIUM** 90,000 sheets flowering plants and ferns. **BOTANICAL GARDENS**, arboretum and econ. section, 5 acres.

**TEACHING HOSPITALS.** Vancouver General H., St. Paul's H., Shaughnessy Military H.

**UNIVERSITY RESEARCH FOREST**, about 7 mls. long and 2½ mls. wide, N. of the town of Haney, was granted to the univ. by the prov. govt. in March 1949. The **CAMPUS FOREST** consists of a narrow belt S and W of the univ. and acts as a demonstration and field study area for forestry, biol., bot. and zool.

**MUSEUMS.** (1) Anthropol. museum (in library)—Burnett collection of South Seas and other ethnol. specimens, Riley collection of Indian artifacts, Brittain collection of Indian baskets, Mackell-Pierce collection of Eskimo clothing and utensils, van Haerholt van den Doelen collection of Egyptian and classical materials, numerous other valuable collections. (2) Geol. and geog. museum in the bot. and geol. bldg. (3) Zool. museum in biol. sci. bldg. (4) Botanical collections and herbarium (*see also above*)

**THE BRITISH COLUMBIA RESEARCH COUNCIL** has its H.Q. and labs. on the campus. It works in close co-operation with the sci. depts. of the univ. and its programme includes fundamental and appl. res. Staff of 70, of which 45 are professional scientists and engineers.

**CONNAUGHT MEDICAL RESEARCH LABORATORIES** (WARREN DIVISION). In 1935, under co-operative arrangement with provincial dept. of health of B.C. and the Connaught med. res. labs. of the Univ. of Toronto, the latter instn. established a western division on the campus which is now situated in the Washbrook bldg. Res. projects in microbiol. as applied to pub. health and prev. med. are pursued here in conjunction with students and staff of dept. of bacteriol. and immunol. in collaboration with division of labs. of provincial dept. of health.

**ART CENTRE.** Incl. among activities of the fine arts cttee., under joint supervision of the visual arts cttee. and the handicrafts cttee., the art centre includes a workshop and an art gallery. The workshop gives courses in ceramics, painting, sculpture, weaving and other appl. arts, which are open to students, staff and extra-mural registrants but do not carry semester credit. The art gallery maintains a continuous display of loan exhibitions.

**COMPUTING CENTRE.** Established 1957 with the help of local bus. and indust. and with grants from the N.R.C. and defence res. bd. Provides trig. in the use of high-speed computers and serves as an aid and stimulus to res. Facilities of the centre are available to bus. and engin. firms as well as to univ. personnel.

**INSTITUTE OF OCEANOGRAPHY** is supported in part by the N.R.C., the defence res. bd. and by the Canadian cttee. on oceanog., the last named body representing the interest of the Royal Canadian Navy, the national res. council, the fisheries res. bd. and the hydrographic service. The inst. represents the co-operative effort of the depts. of biol. and bot., geol., chem., phys. and zool. to train grad. students in one or more of these branches in the principles and techniques of oceanog. res. The inst. is further charged with the responsibility for fundamental res. in oceanog.

An **INSTITUTE OF FISHERIES**, within the fac. of grad. studies, gives at the grad. level broad and advanced instruction in various fields relating to the best use and management of the fisheries' resources.

**INSTITUTE OF INDUSTRIAL RELATIONS** within fac. of grad. studies sponsors fac. res. and grad. student educn. in field of indust. rels. The latter term is interpreted broadly to cover both 'institutional' and 'human' rels. in indust. The inst. also operates a community programme of educn. in conjunction with dept. of univ. extension.

## GENERAL INFORMATION

The univ. (named after Sir Guy Carleton, governor-in-chief of British North America in mid-18th century) is non-denominational, co-educational and privately controlled. Conceived by a coterie of the Ottawa Y.M.C.A. in 1938, the univ. had its beginning in 1942 when a group of interested citizens established the Ottawa Assocn. for the Advancement of Learning. In that year evg classes of the 1st and univ. yrs. were opened under the name Carleton Coll. Both day and evg curricula were expanded until, by 1949, they included full undergrad courses in arts, sci., comm., journalism, pub. admin. and engin. A course leading to a grad. dipl. in pub. admin. was added in 1952, and a sch. of pub. admin. establd.

in 1953, which in 1954 added a programme leading to the MA. Subsequently, a students' union, a library and a bldg. to house the sch. of pub. admin. were added, and 130 acres of land acquired for devel. of a new campus. In 1952 the legislative assembly of the province of Ontario passed the Carleton College Act, enlarging and specifying the coll's univ. powers. In the same yr the coll. was made a member of the National Conference of Canadian Univs., and in 1953 a member of the A.U.B.C. In 1957 the coll. was incorporated as Carleton Univ.

**CONSTITUTION** The univ. corporation consists of 57 members. The bd. of governors numbers

30, elected for 3-yr. terms, one-third retiring each yr. Academic policy is governed by a senate composed of full profs. of the fac. and certain other members apptd. by the bd of governors, as well as by a fac. bd composed of all full-time members of fac. of rank of lectr. or higher.

**INCOME (1960-61).** Total current income, \$1,521,381 (fees, \$620,754; endowment, \$14,764; provincial govt., \$485,000; federal govt., \$316,660; other gifts and grants, \$46,572; auxiliary enterprises, \$15,255; misc., \$22,356).

**FACULTY AND SCHOOLS.** Fac. of arts & sci. (incl. comm. and journalism), sch. of engin., sch. of grad. studies; sch. of pub. admin. For depts. and dirs. see p. 193.

**UNIVERSITY PRECINCT.** The Univ. is located on a 130-acre campus of great natural beauty on the Rideau river. Its premises consist of a sci. bldg., a library (large enough to accomm. 80,000 vols.) and an arts bldg., which forms the third side of the main court. The library also houses the admin. offices of the Univ. All these bldgs. are connected by a tunnel. In 1962 six new bldg. units opened: men's and women's residences, office and classroom extensions for arts and sci., student union (incl. addnl. cafeteria). Athletic facilities are also provided.

**LIBRARY.** 65,000 vols. See also 'Univ. Precinct', above.

**LABORATORIES, ETC.** Biol., chem., engin., geol., lang., phys., and psychol. labs.; audio-visual aids centre incl. equipment for sound motion picture projection, film-strip and slide projection.

1961, this coll became part of fac of health professions, Univ of Dalhousie. See below, and p 207

## GENERAL INFORMATION

Dalhousie Coll., founded in 1818 by the ninth Earl of Dalhousie, has been discharging univ. functions since 1863 when it was reorganized and reopened with a staff of 6 profs. From 1879 devel. was rapid, helped by the benefactions of G Munro of N.Y., A. McLeod of Halifax and Sir Wm Young. In 1883 the fac. of law was establd., and in 1906 pure sci. united with arts to form the fac. of arts & sci. Appl. sci. was replaced by the fac. of engin., which was later reduced to a dept. by agreement with other maritime univs. when the NSTC opened for professional teaching. In 1911 the fac. of med. and in 1912 the fac. of dent. assumed full teaching duties. The Maritime Coll. of Pharm. was given quarters in the univ. in 1911 and was incorporated in the univ. in 1961 as part of the fac. of health professions. The fac. of grad studies was establd. in 1949. The sch. of nursing, establd. in 1956, became part of the fac. of health professions in 1961. The sch. of dent. hyg. was organized in 1961.

In 1912 \$400,000 was collected for an addnl. site (40 acres) and bldgs. towards which Andrew Carnegie gave \$40,000. Other gifts from the Carnegie Corporation and the Rockefeller Foundation permitted expansion of facilities for the med. sch. after 1918. In 1923 the Univ. of King's Coll., in assoc. with Dalhousie, was given a site on the new campus (see below). The International Commission for the Northwest Atlantic Fisheries accepted the univ.'s invitation to establish its permanent headquarters in Dalhousie in 1953. A new arts and admin. bldg. was opened in 1952, and the O. E. Smith wing of the Macdonald memorial library, containing the Kipling room, in 1956. The Sir James Dunn sci. bldg. was formally opened in Oct. 1960. A new men's residence with accomm. for 150 students opened on Jan. 1, 1961. About half of total cost of \$1,600,000 was provided by Canada Council.

**CONSTITUTION** The bd. of governors is the supreme governing body of the univ. Appts. to it are made by the governor-in-council on the nomination of the lid. The governors have the management of the funds and property of the univ., the power of appointing the pres., profs., and other officials and of determining their duties and salaries; and the general oversight of the work of the univ. The senate consists of the pres. and profs. To this body are entrusted, by statute, the internal regns. of the univ., subject to the approval of the governors. All degrees are conferred by the senate. The fac. consist of the members of the teaching staff in each of the 5 main domains of study in which courses can be pursued, namely, arts & sci., law, med., dent. and grad studies. To them are entrusted by the senate, sub-

ject to its approval, supervision of teaching, preparation of regns. governing courses of study, and recommendation of suitable candidates for prizes, scholships, dipls. and degrees.

**INCOME (1960-61).** \$3,391,500 (student fees, 23.8 per cent., endowments, 16.5 per cent., govt. grants, 29.8 per cent.; individuals, etc., 29.9 per cent.).

**GENERAL INFORMATION**

Opened in 1789 at Windsor, N.S., the univ. was established by provincial statute and granted a royal charter by King George III in 1802. In 1923 King's removed to Halifax and became associated with Dalhousie Univ., as far as arts and sci. are concerned. The academic facilities in arts and sci. are shared by the students of both univs. for the time being, but King's retains complete control of her div. sch., as well as of her present endowments, admn. of residence and all internal matters. Under the terms of the agreement between Dalhousie and King's the univ. was re-established in Halifax by means of private subscriptions and with the financial aid of the Carnegie corporation, which endowed the teaching of liberal arts.

**CONSTITUTION.** The univ. is governed by a bd. consisting of the bishops of the dioceses of N.S. and Fredericton, the pres. and treasurer of the univ., ex officio, together with 8 members elected by the alumni assocn., 6 elected by the diocesan synods and 8 co-opted by the bd.

**INCOME (1960).** Total income, \$265,000 (govt. grants, 12 per cent.; other grants (incl. diocesan), 9 per cent.; endowment, 46 per cent.; fees and residence charges, 33 per cent.)

## GENERAL INFORMATION

The Univ. was founded in 1852, under a royal charter, by the Seminary of Québec (whose own founder was the Ven. Mgr. François de Montmorency Laval, the first bishop of Québec). A general supervision of teaching and discipline is exercised by the Archbishop of Québec as visitor and chancellor apostolic and president of the conseil supérieur de bishops of the ecclesiastical province of Québec. The profs. of the facs. of theol. and philos. are nominated by the visitor,

those of other facs. by the conseil de l'université, composed of the deans of the Seminary of Québec and 3 sr. profs. of the facs. of theol., arts, law and med., and the deans of the facs. of philos., letters, sci., soc. sci., agric., for & surveying, and comm.

LIBRARIES. General, 325,000 vols.; others, 65,200 vols.

GENERAL MUSEUM. Dir : A. Jobin.

LABORATORIES: Anat., bacteriol., biochem., bot., bot., chem., for., geol., hyg., mineral, optics, pathol., phys., physiol., physio-pathol.

FACULTIES AND DEANS. *Agnes*, Prof. R. Poirier, dir.; *Rev. R. Riville* (educn.), comm.; Prof. C. Lockquell (educn.), *for. & surveying*; Prof. H. Boutin (maths.), *law*, Prof. G. Hudon (civil law); *letters*, Prof. M. Lebel (Greek), *med.*, Prof. J.-B. Jobin (clin. med.), *philos.*, Mgr. M. Dionne, *sci.*, *Sci. Engin.*, Prof. C. Geoffrion (phys.); *sci. sci.*, Prof. N. Leblanc; *theol.*, Mgr. G. Petit (Prof.). These deans are elected for a 4-yr. term and cannot be elected for more than a successive term. They are full-time.

SCHOOLS: *Educn.*, Prof. M. Barbeau, dir.; *fisheries*, Rev. P. Mercier, dir.; *geog.*, Prof. F. Grenier, dir.; *grad. studies*, Prof. J. Risi, pres.; *hist.*, Prof. M. Marquis, dir.; *sci. sci.*, Prof. Simone Paré, dir.

UNIVERSITY BUILDINGS. At present, the bldgs of the univ. are in 3 different parts of Quebec. One section is located within the ancient walls of the old city. The far. of *sci.* & *engin.* is about 4 miles from the old city in a new part of Quebec, it will be moved, beginning in Sept. 1961, to the 3rd section; the new *city universitaire* (one square mile) in the outskirts of Quebec about 7 miles from the old city. It is hoped that all the univ. bldgs. will be located in this 3rd section within about 5 to 7 yrs.

#### ADMISSIONS. See Appendix III

DEGREE OF BACHELOR OF ARTS. The *baccalauréat ès arts* (BA) is awarded by the univ., the complete course leading to it being provided in private *collèges classiques* affiliated to the univ. (for a list see pp. 220-221). The course is of 8 yrs. duration, in two 4-yr. stages called *cours secondaire* and *cours universitaire*. The former (taken from about 12 to 16 yrs. of age) is comparable to the high school of English Canada and the latter to the general course in arts. Admission to the 2nd stage is by passing the *examens d'admission* exam. set by the univ. (and thus obtaining the *matric. dipl.* of the univ.) at the end of the 4th (final) yr. of the *cours secondaire* and the 11th yr. of schooling. Students who reach a certain standard in both arts and sci. in the *cours universitaire* are awarded the BA of the univ., usually at about the age of 20. The award of the BA indicates that the student is ready to begin his professional studies in law, med. or appl. *sci.* or to enter on higher study in arts or sci.

COLLEGE UNIVERSITAIRE LAVAL (see p. 220) provides the last 2 yrs. of the *cours universitaire* for students seeking the BA with ap. mention in *sci.*

## GENERAL INFORMATION

The Hon. James McGill, a leading merchant and prominent citizen of Montreal, who died in 1813, bequeathed 46 acres of land and £10,000 to the already existing 'Royal Institution for the Advancement of Learning' to found a univ. or coll. As a result, in 1828 a royal charter was granted and in 1829 teaching began in the Univ. of McGill College in the facs. of med. and arts. The charter was renewed in 1852. In 1899 the Royal Victoria Coll., a gift of Baron Stathoum, was opened to provide separate teaching and residential facilities for women students. In 1907 Macdonald Coll., named after Sir Wm. Macdonald whose gift it was, was established as a residential coll. for agric., household sci., and sci. for teachers. Since then the univ. has grown vigorously, dividing itself into further facs., and many new bldgs have been erected, especially since 1945.

The univ. is undenominational and has for many yrs. been co-educational in all its facs. and most of its colls.

CONSTITUTION. McGill Univ. is a corporation created by a royal charter granted by the Crown of the United Kingdom, general supervisory

power being retained by the Crown and exercised through the governor-general as 'visitor'. The governors of the univ. constitute the Royal Institution for the Advancement of Learning, a corporation existing under the laws of the province of Quebec, pt. of the official organization of the province, but completely self-governing. In them is vested the management of finances, appt. of profs. and other important duties, 5 of the governors are elected by the members of grade, soc. and other appts. are made by nomination of remaining members with the approval of the visitor. The pres. of the bd. of governors is, *ex officio*, chancellor of the univ. The principal is the academic hd. and chief admin. officer. He is appointed by the bd. of governors (of which body he is a member). He also holds the office of vice-chancellor of the univ. Senate consists of the chancellor, principal, deans of facs., warden of Royal Victoria Coll., dir. of inst. of educ., dir. of univ. extension and 4 group chairmen of facs. of arts & sci., all *ex officio*; 5 governors elected by the bd.; and 8 profs. elected by the various facs. The principal is chairman of senate, which is the highest academic authority of the univ.

and has control over admission, courses of study, discipline and degrees. The carrying out of the regns. of senate along with primary responsibility for the conduct of the educul. work of the univ. is entrusted to the several facs. and schs.

**INCOME (1966-67)** Total income, \$16,523,034 (excl. ancillary enterprises). Student fees, 21.3 per cent; gifts for operating purposes (other than ica), 3.5 per cent.; endowments, 12.9 per cent.; provincial grants, 30.3 per cent.; gifts, grants & endowments for res., 26.3 per cent. McMaster Univ. (tel. Ja. 9-7101) Principal—  
Rev. N. H. Parker, BS *Mississippi*, ThD  
*S. Baptist Theol. Sem.*, Hon. DD *Acad.*, McMaster  
Divinity Coll. is the historical continuation of  
what was known for 70 yrs. as the fac. of theol. of  
McMaster Univ. or as the McMaster Univ. div.  
sch. An act to incorporate McMaster Divinity  
Coll. (1957) created a new corporation, as a  
separate foundation, with a bd. of trustees and a  
senate. The div. coll. operates in affiliation with  
the univ., and its grads. receive the BD degree  
from the univ. Its academic and honorary degrees  
are awarded by the univ., but it grants certs. and  
dipls. on its own authority. The Baptist hist.  
colln. of books, documents and assoc. minutes,  
which forms a valuable record of Canadian  
Baptist hist., past and present, is housed in the  
div. coll. bldg. At present the staff of the div.  
coll. and the staff of the univ.'s fac. of theol. (see  
above) are almost the same, and the principal  
of the div. coll. is also the dean of theol. The  
Women's Leadership Training Sch., sponsored  
by the Baptist Women's Missionary Soc. of the  
Baptist Convention of Ontario and Quebec, is

affiliated with the div. coll. and is under the direc-

## GENERAL INFORMATION

McMaster Univ., named after senator William  
McMaster (1811-87), whose will provided its  
original endowment, operates under the terms of  
an act of incorporation granted by the legislative  
assembly of Ontario in 1887 and basically revised  
in 1957. The univ., which is now a non-  
denominational private foundation, was a non-  
denominational foundation from 1887 to 1957, its  
governance elected by the Baptist Convention of  
Ontario and Quebec. It was the outgrowth of  
educnl. work begun in Canada Baptist Coll.,  
Montreal (1838), and centred in Woodstock, On-

tario (1847), and of the theol. work of Toronto  
Baptist Coll. (1881-87). Toronto Baptist Coll.  
and Woodstock Coll. formed the nucleus of the  
univ. in 1887. Until 1926, Woodstock Coll.  
was centred as a preparatory sch. for boys, and  
from 1887 to 1954 a preparatory sch. for girls,  
Moulton Coll., was maintained in Toronto.

The univ. was transferred to Hamilton in 1930.  
In 1948, it was reorganized into three colls.: the  
Divinity Sch., which was the fac. of theol.,  
operating mainly on a postgrad. basis; University  
Coll. (the arts depts.); and Hamilton Coll. (the

sci. depts.), the latter operating under its own bd. of governors as an affiliated coll. In 1957, the Baptist Convention withdrew from legal control of the univ., the univ. and Hamilton Coll. becoming one corporation. McMaster Divinity Coll. was at the same time incorporated as an affiliated theol. coll. under a bd. of trustees, univ. lands being assigned for its use.

Hamilton (pop. 340,000) is situated on Lake Ontario and is the gateway to the Niagara Peninsula. It is the 2nd largest city in Ontario (5th largest in Can.) and the industrial centre of Canada, containing 738 industries and the largest inland port on the Great Lakes Seaway.

**CONSTITUTION.** The univ. corporation consists of a bd. of governors of from 30 to 41 members, up to 28 being elected by the bd., 3 (the chancellor, pres. and vice-pres.) being ex-officio members, 3 elected by the trustees of McMaster Divinity Coll., 3 by the grads and 2 by the teaching staff. Academic work is controlled by a senate, composed of reps. of the fac., governors and grads. The following are ex-officio members of the senate: pres. (chancellor), vice-pres., principal of Univ. Coll., dean of theol., dean of arts, dean of sci., dean of grad. studies, dean of engin., assoc. dean of arts & sci., dir. of educat. services and extension.

**INCOME (1960-61).** Total income, \$4,092,900 (endowment, \$134,800; govt. grants provincial, \$900,000, federal, \$500,800, municipal, \$132,800, other, \$49,000, 108 funds, \$676,500, fees, \$1,049,700; sundries, \$90,700, ancillary enterprises, \$358,600).

**FACULTIES AND DEANS, see p. 242**

**UNIVERSITY PRECINCT.** The univ. occupies about 100 acres in the west end of Hamilton, its lands being bordered by tracts of parkland forming part of the extensive acreage of the Royal Botanical Gardens.

**LIBRARY.** 138,375 vols. The Mills memorial library is the gift of the Mills foundation of Montclair, New Jersey. Four floors provide for a capacity of over 120,000 vols., as well as reference reading room, bibliog. rooms, and fine arts collection of books, slides, prints, etc. The library is a depository for atomic energy publications of Canada and U.S.A. The library also maintains a sci. library in phys. sci. bldg.

**LABORATORIES.** Res. labs. are maintained in most sci. & engin. depts., usually in academic bldgs. adjacent to undergrad labs. Research greenhouse. Res. programmes are under way in all major fields of sci. **NUCLEAR REACTOR,** housed in its own bldg., operates at one megawatt and is of swimming pool type, using highly enriched  $U^{235}$  as fuel. Associated with reactor is nuclear res. bldg., containing a hot lab. and several radio-isotope labs. as well as specially air-conditioned rooms for series of mass spectrometers.

Chairman of reactor operational control cttee.—D. M. Hadden, BSc. Reactor staff: W. H. Fleming, MSc PhD (supt.); K. Fritze, PhD (res.

chemist); J. B. McDonagall, BSc (supervisor); C. C. McMullen, MSc PhD (res. physicist); R. H. Tomlinson, BSc Bishop's, PhD M.C.G. (health physicist); D. Whiteford (asst. health physicist).

#### General Information

Founded in 1899 and affiliated to the Univ. of  
Manitoba since 1938, Brandon Coll. is a non-  
denominational, co-educational instn. offering  
courses leading to bachelor's degrees (of the Univ.  
of Manitoba) in arts and sci., to cert. in educn.  
and to associateships in music of the Royal Con-  
servatory of Music, Univ. of Toronto (ARCT)  
and of the Univ. of Manit. (AMM). The coll.  
was under the control of a bd. apptd. by the  
Baptist Union of W. Canada until 1938 when it  
was reorganized and incorporated under the laws  
of the province of Manitoba, the responsibility for  
the control and admin. of its affairs being assumed  
by a bd. of dirs. of Manitoba citizens. From 1910  
to 1938 the coll. was affiliated to McMaster Univ.

Student numbers (1956-61) 420 full-time

## GENERAL INFORMATION

The Univ. was establd. by act of the provincial legislature in 1877 on the model of the Univ. of London, as an examining and degree-conferring body, the instrcn. to be given in the affiliated colls. which were already in existence, viz.: St Boniface Coll., St. John's Coll. and Manitoba Coll. This list was subsequently extended to include Manitoba Medical Coll. (1882), Wesley Coll. (1883), Manitoba Coll. of Pharmacy (1902), Manitoba Agric. Coll. (1907), Manitoba Law Sch. (1914), St. Paul's Coll. (1931) and Brandon Coll. (1938). In 1900 the Univ. was, by legislative enactment, given power to offer instrcn. In 1929, having outgrown its city bldgs., the Univ. was removed to a permanent rural site with ample space for expansion. In 1940 a systematic programme of work in rural adult educn. was begun. The unprecedented influx of students at the conclusion of hostilities in 1945 gave a great stimulus to expansion. The fac. of grad studies & res. was establd., a chair of Icelandic, and depts. of classic studies, Univ. extension & adult educn., mathl. phys., phys. educn., athletics & recreation, psychiatry, geog., microbial and agric. econ. In 1950 the Univ. sch. of art was opened and in 1953 the new library. A chair of agricn. was establd. in 1954. In 1957 a fac. of dent. was establd. and a dept. of pharmcol. & therapeutics formed in fac. of med.

The Univ. has the sole power in the province of conferring degrees in arts, sci., law, med., dent., engin., pharmacy, comm., agric., home econ., educn., pedagogy, archit., interior design, fine arts and soc. work. It received in 1898 from the dominion govt. a land grant of 150,000 acres.

LOCATION The bldgs. occupied by the facs/schs. of med., dent., med. rehabilitation, and law are in the city of Winnipeg. The site of the facs of arts & sci., agric. & home econ., engin. & archit., educn., the grad sch. of soc. work, and the grad sch. of nursing, is in the municipality of Fort Garry, 7 mls. from the centre of Winnipeg. The Univ. has 50 bldgs. on this site, incl. the residence which has accomm. for 600 students. Also on this site are the

dominion rust res. lab., the dominion lab. of plant pathol., the dominion lab. of entomol. and the provincial experimental far. farm.

CONSTITUTION General management of the Univ. is vested in a bld. of 14 governors, 9 of whom are appt. by the lt.-governor in council, 3 elected by grads. from among their own number, the remaining 2 being the chancellor and the press officer. The bld. has corporate powers and in all matters relating to the management of the Univ., incl. academic affairs, it enjoys plenary powers. The prime academic body is the senate, whose membership consists of the pres. as chairman, chancellor, dep. minister of educn., chairman of the advisory bdy of the dept. of educn., deans of facs, reps. of profs. in each fac., dirs. of schs. and reps. of affiliated colls., the Coll. of Physicians and Surgeons of Manit., and the alumni assocn. Under its control are entrance requirements, courses of study, methods of instrcn., appointment of examiners, approval of degrees, and related matters.

INCOME (1950-61). Total income, \$3,104,273 (govt. grants, 63.7 per cent., fees, 19.8 per cent., services, 14 per cent., endowments & other sources, 2.5 per cent.)

Newfoundland (tele 8-2220, 8-3047) Founded 1887 Provides arts and educn courses for which credit given towards univ BA and BA(Ed) Principal—Rev. Sr Mary Basil, BA Mt St Vin, MA C.U.A.

**GENERAL INFORMATION**

The Memorial Univ. of Newfoundland was established by an act of the provincial legislature of Newfoundland in 1949

The Memorial Univ. Coll. had been established in 1925 as a war memorial and as an instn. to provide higher educn for the young people of Newfoundland and Labrador. During the first 10 yrs. the Carnegie Corporation of New York provided annual grants towards gen expenses. Thereafter the coll was supported mainly from public funds. In 1934 a teacher trng dept was established to provide a yr of professl trng for prospective teachers. In 1946 a new plan for the trng of teachers was introduced, whereby students in educn combined courses of professl trng. with courses in arts and scis. With the estab. of the univ, teachers may now take a full 4-yr course leading to the degree of bachelor of arts (educn)

**CONSTITUTION** The univ. consists of the chancellor, convocation, bd of regents, senate, fac. councils and the facs. The management, admin. and control of the property, revenue, business and affairs of the univ. are vested in the bd of regents consisting of the chancellor, pres., 2 members elected by convocation and 15 apptd by the lt-governor in council. Academic matters are in general charge of the senate, composed of the chancellor, pres. (who is chairman), dep minister of educn, hds of facs of the univ., 1 rep apptd by each coll or instn. affiliated with the univ., and not more than 6 apptd. or elected under authority of the bd. of regents. Convocation is composed of the chancellor, pres., senate, bd. of regents, all grads of Memorial Univ. Coll, all persons holding academic appts within the univ. whose names are added to the

roll of convocation by the registrar from time to time upon instructions from the pres., and all grades of the univ. The functions of convocation are chiefly effective but it may also consider all questions affecting the well-being and prosperity of the univ., and make representations from time to time on such questions to the senate.

INCOME (1960-61) Total income, \$1,351,261

UNIVERSITY PRECINCT Until the summer of 1961 the univ. occupied bldgs. in a commanding position on the old Parade Ground in St. John's, looking out towards the Southside Hills and the Narrows. Its new bldgs. (comprising arts & admin bldg., sci. & engin. bldg., library and gym and student centre, 2 residences and dining hall) are situated on an estate of about 100 acres just within the St. John's city limits. Plans for further devel. include construction of univ. residences, educn. and appl. sci. bldgs., convocation hall and even to library. It is hoped to complete these by 1970.

## GENERAL INFORMATION

Originally established in Montreal in 1876 as a branch of Laval Univ., the Univ. of Montreal became autonomous in 1920, under a special act of the legislature of the province of Quebec subsequently revised in 1950. It also enjoys certain privileges under a papal charter dating from 1919 and is Roman Catholic in outlook. Through affiliated institutes (see above) as well as by itself, the Univ. caters for the educ. needs of over 25,000 students, over 8000 of whom attend courses and lectures in the bldgs. on the campus.

**CONSTITUTION.** 4 of the 12 members of the bd. of governors are apptd. by the Roman Catholic hierarchy. The remaining 8 governors are French-Canadian business personalities. The bd. is self-perpetuating. Financial affairs are under the direct supervision of an exec. ettee. composed of 5 governors, the chief exec. officers are the rector, vice-rector, sec. general and treasurer general. Pedagogical matters are determined by a commission on studies composed mainly of the deans of the different facs.

**INCOME (1960-61)** 'Total income, \$7,154,183 (private govt. grants, 49 per cent., fees, 26 per cent.; endowment and grants for res., sp. educ. and allied projects, 25 per cent.) 'Total income excludes theol. and all affiliated instns., which are autonomous and have their own separate budgets.

**FACULTIES AND DEANS**, see p. 269.

**UNIVERSITY PRECINCT.** The Univ. is owner in feehold of several acres on the western slope of

Mont-Royal. The present bldgs. were erected between 1937 and 1941, at a cost of over \$12,000,000. In 1947-48, an additional \$12,000,000 was raised through public subscriptions for various purposes. So far, a students' residence and a students' union bldg. have been completed and a pension fund for fac. and staff has been established. A/on campus is the polytech. sch. (an affiliated instn.). There still remains to be completed the Univ. hosp.

**LIBRARY.** General lit., 262,000 vols.; sch. of higher comm. studies, 140,000 vols.; sch. of engin., 103,000 vols.; Grand Séminaire de Montréal, 60,000 vols. 'Total: 565,000 vols.

**TEACHING HOSPITALS.** Hôtel-Dieu (gen.), H. Notre-Dame (gen.), H. St.-Laz. (gen.), Vétérans H. (gen.), H. de la Miséricorde (maternity), H. Ste.-Justine (children), H. du Sacré-Cœur (gen and TB), H. Général de Verdun (gen.), H. Pasteur (infectious dis.), H. Ste.-Jeanne-d'Arc (gen.), Sanatorium St.-Joseph (TB), Institut Albert Prévost (mental), H. St. Jean de Dieu (mental), Institut Bruchési (TB), H. Malo-nouveau (gen.).

**ADMISSION.** The usual admission prerequisite is a bachelor of arts degree in humanities of the Univ. of Montreal or its equivalent. However, students with st. matric. are now admitted to the facs. of sci., soc., econ. & pol. sci., schs. of comm., engin., rehabilitation, med. technol., and inst. of dietetics. Students residing outside the province of Quebec must submit full particulars of studies and marks obtained during their BA. course or

towards the securing of any other dipl. submitted. For full details see the *General Prospectus* and the *Prospectus* of each fac. and sch. concerned. Enquiries should be addressed to the sec. of the sch. or fac. in which the student intends to register. See also Appendix III.

**DEGREE OF BACHELOR OF ARTS** The *baccalauréat ès arts* (BA) is awarded by the univ. the complete course leading to it being a 4-yr. course provided in private colleges classées affiliées to the univ. (for a list, see pp. 278-9).

Students are admitted to the coll. course by passing *matriculation* exams set by the univ. (thus obtaining the matric. dipl. of the univ.). This exam takes place at the end of the sec. course, which is of 4 yrs. duration, the last yr. corresponding to the 11th yr. of schooling. For the sec. course most of the *collèges classées* have their own high sch. where students receive instruction for grades VIII, IX, X, XI and prepare for the *matriculation* exams. The BA, awarded by the univ. at the end of the 4th yr. of coll. (when the student is about 20 yrs. old), is a gen. arts degree entitling the candidate to begin professional studies in law, med., dent. or to enter upon further studies in arts, letters, philos. or sci. Exams are set by the univ. every yr. of the coll. course.

The fac. of letters offers regular courses leading to BA hon. in Engl. studies or in Slavic studies (4 yrs. after matric.). Courses for adults seeking BA gen. are provided in the univ. itself.

The univ. also awards the BPéd (4 yrs. after matric.) to certain students in public *écoles normales*.

**OTHER DEGREES** After the BA (or, in certain subjs., after sr. matric.; see 'Admission', above) the student may proceed, in the univ. itself, to the following degrees in the fields indicated. *Dent.* DDS, 4 yrs. after BA. *Hygiene* BEdPR, 4 terms after BA, BSc or BPéd; MEdS, 1 yr. after BA, BPéd, BPF or BEdPR. *Law* LLB, 3 yrs. after BA; LL.L., 3 yrs. after BA; MA in law, 1 yr. after LLB or LL.L.; LL.D., 3 yrs. after LL.L. *Letters* MA in letters, 1 yr. after BA, LL.L., 1 yr. after BA; Ph.D., 2 yrs. after MA, D.Litt., 2 yrs. after LL.L. *Med.* MD, 5 yrs. after BA, MSc in med., 1 yr. after MD or BSc, Ph.D. in med., 3 yrs. after MD or BSc. *Music* (sacred or profane) BMus, 2 yrs. after BA; LMus, 4 yrs. after BA; DMus, 2 yrs. after LMus. *Pharmacy* BPharm, 4 yrs. after BA; MPharm, 1 yr. after BPharm; DPharm, 3 yrs. after BPharm. *Philos.* BPh, 1 yr. after BA; MA in philos., 1 yr. or 3 yrs. after BA, LPh, 1 or 2 yrs. after BPh, DPh, 1 yr. after LPh; Ph.D., 1 or 2 yrs. after MA. *Physical* BSc gen., varies; BSc sp. ## GENERAL INFORMATION

Mt Allison Wesleyan Academy for young men was founded in 1840. Charles F Allison of Sackville, N B, gave the site and bldgs plus an annual support for 10 yrs. A parallel institution for girls, 'The Female Branch of the Male Academy', later known as Mt. Allison Ladies Coll, began work in 1854. In 1858, an instn. with the title of Mt Allison Wesleyan Coll was granted by the N B. legislature power to confer degrees and in 1913 its name was changed to Mt. Allison Univ. (The name of the univ is derived from the founder's name and the location; the univ. is situated on a hill-top overlooking the Tantramar marshes which stretch for miles around).

Instrum. in theol. subj. began in 1860 and in 1903 the McClellan Sch. of Appl. Sci. was opened. As the univ. grew the function of the Academy and the Ladies Coll gradually diminished (some of the courses taught at the Ladies Coll—music, fine & appl. arts, home econ—were absorbed into the curriculum of the univ. in 1936) and these two instns. were suspended in 1953 and 1946 respectively to provide more space for the rapidly growing univ.

Mt Allison was a pioneer in the higher educn. of women. It conferred, in 1875, the first BSc granted to a woman in the British Empire and, in 1882, the first BA awarded to a woman in any Canadian univ.

Originally founded by the Methodist Church, Mt Allison, after the church union of 1925, came under the sponsorship of the United Church of Canada. It is conducted on a non-sectarian basis.

Registration is limited to 1300 students. It is expected to maintain this enrolment for 10 yrs while concentrating on further academic excellence.

Sackville (pop. 3000) is a univ. and manufacturing town on isthmus of Chignecto, which joins New Brunswick and Nova Scotia.

CONSTITUTION. The direct govt. of the univ. is vested in a bd. of regents and a senate, and the general council of the United Church exercises a controlling influence on the affairs of the univ. through the power of appointing a majority of the regents. The general management of affairs is entrusted to the bd. of regents. The bd. consists of 44 members: 24 apptd. by the general council of the United Church of Canada and 20 repa. of the federated alumni. The senate is a composite body consisting of members of the fac. of the univ. and 12 regents appointed by the bd. It is charged with the duty of regulating the strictly educn. concerns of the univ. In its internal admin. the univ. has always been conducted on strictly non-sectarian principles.

INCOME (1961) \$1,536,377 (govt. grants, 23 per cent, tuition & general fees, 31 per cent, endowment, 5 per cent, ancillary enterprises incl. boarding depts., 41 per cent)

UNIVERSITY CAMPUS. Central part of campus is reserved for devel. of academic and admin. bldgs. S-E side is for men's residences, athletic centre, rink and playing fields. N-E side is for devel. of women's residences. Windsor Hall is currently under construm. at approx. cost of \$1,300,000 and will house 222 women.

admitted direct to the 4th yr. of a degree course in engin. at the coll. Students who have completed the first 2 yrs of the engin. course will be admitted to 3rd yr. archt. upon recommendation of their deans of engin.

## GENERAL INFORMATION

The Nova Scotia Technical College was authorized by an act of the provincial legislature in April 1907.

The erection of the main bldg. proceeded during 1908 and the coll. was opened, with courses in civil, electr., mech. and mining engin., in the autumn of 1909. The 1907 act relating to technical educn. was repealed in 1947 and 2 new acts were passed by the provincial legislature placing engin. educn. and secondary tech. educn. under separate heads. Thus the coll. now confines its activities to work of univ. level only. Under the new N.S.T.C. act, authority was given for the establ. of grad. studies and res., and provison was made for close co-op. between the coll. and the N.S.R. Foundation. A further expansion in 1947 was the addition of the dept. of chem. and metall. engin. In 1953 the dept. of metall. engin. was transferred to the jurisdiction of the dept. of mining engin., thus becoming the dept. of mining and metall. engin. In 1961 the coll. added a sch. of archt., the 1st degrees in this field will not be granted until 1965. During the same yr. the coll. extended its grad. study programme to PhD level in the various branches of engin.

The coll. is situated in Halifax (pop. 90,075), capital city of the province of Nova Scotia.

**CONSTITUTION.** The coll. is governed by a bd. of govt. under the chairmanship of the minister of educn. of N.S., a senate under the chairmanship of the pres. of the coll., and the fac. under the chairmanship of the pres. In general the fac. reports to the senate, and the senate reports to the bd. of govt. on all matters pertaining to the operation of the coll., and the bd. reports annually to the lt.-governor in council. The associated univs. are represented on the bd. by their presidents and on the senate by the deans of their respective depts. of engin.

**INCOME (1960-61)** \$552,397 (prov. of N.S., 63 per cent.; govt. of Canada, 11 per cent.; fees, etc., 26 per cent.)

**DEAN AND DIRECTORS.** Dean of undergrad. studies, Prof. G. H. Burchall (electr. engin.); dir. sch. of grad. studies, Prof. G. G. Meyerhof (civil engin.); dir., sch. of archt., Prof. D. Sheddolt.

**COLLEGE FACILITY.** The coll. campus is located near the centre of Halifax on Spring Garden Rd. and Barrington St. The present

plan of devel. is to bring as many as possible of the individual depts. under one roof.

**LIBRARY** 16,000 vols.

**LABORATORIES** Chem., civil, electr., mech., metall. and mining engin.

**ADMISSION.** See 'Assoc. Univs.' above and Appendix III.

**Advanced Standing.** Any person may be admitted to advanced standing in the coll. by passing such exams. as are deemed necessary by the coll. fac., or by presenting such certs. of previous records of study or experience as shall satisfy the fac.

**Special Student.** Persons without the necessary entrance qualifs. may be permitted to take a limited no. of regular courses for which no credit towards a degree will be granted.

**FIRST DEGREES.** BE, BE with distinction, BE hona (chem., civil, electr., mech., metall., mining), 2 yrs., after 3 yrs. at assoc. univ.; BArch, BArch with distinction, 4 yrs., after 2 yrs. at assoc. univ. (see 'Assoc. Univs.' above and Appendix III).

**HONOR DEGREES.** ME, 1 yr. full-time or 3 yrs. pt.-time, open to grads. with high scholastic standing from recog. engin. degree-granting univs.; PhD, 2 yrs. beyond ME, open to holders of satisfactory ME or MSc degrees.

**HONORARY DEGREE.** DEng.

**RESEARCH.** Facilities available for res. up to level of PhD degree in most fields of chem., civil, electr., mech., metall. and mining engin. Annual Report lists res. in progress.

**STUDY LEAVE.** No regular practice, but staff members are granted leave of absence after a no. of yrs.' service to pursue further studies. In such cases the coll. makes financial arrangements with the individuals concerned.

**GENERAL FEES.** Tuition, \$325 p.s.; grad. studies, \$100 per sub.; spring courses, \$62.5; students' soc., \$26.5 p.s.

**ACADEMIC YEAR.** Sept. to May: 2 terms of 14 wks. each.

**PRINCIPAL 'GIVEN' AWARDS (undergrad.).** American Soc. for Metals, \$500 p.s.; Internat. Nickel Co. (2), \$1,200 p.s.; Aluminum Co. of Canada, \$700 p.s.; Northern Electric schol., \$300 p.s.; N.S. Road Builders Asscn. bursary, \$200 p.s.; Atlantic Sugar Refiner's (2), \$500

p.a., Unemployment of Canada, \$750 p.a.; coll. loan fund to max. of \$400 p.a.

**PLACEMENT SERVICE**, operated through the registrar's office, is available to students and alumni.

**ALUMNI ASSOCIATION** is composed of hon. and active members. Governing body is an executive comm. elected by the annual meeting in Nov.

**MILITARY TRAINING**. The *Four Services Try Scheme* was introduced in 1946. The programme extends over 3 yrs and consists of a series of lectures during the coll. yr followed by from 12 to 22 weeks posting at a try. sch. during summer vac. The summer try. is taken in the sp. branch of the service selected by the trainee, who is recruited at

an assoc. univ. and completes try. at N.S.T.C. Under the *Regular Officer Try Plan* students may apply for enrolment in the regular forces of any service. The dept. of natl. defence pays candidates' fees and candidates are also paid while at the coll.; they agree to serve for min. of 3 yrs.

**STUDENTS' SOCIETY**. The recognized means of communication between the fac. and the student body. It is designed to co-ordinate and control all extra-curriculum student activities. Every student is a member.

**PHYSICAL TRAINING**. Gymnasium.

**PUBLICATIONS**. *Colowin* (spring); *Report* (annual), *Tech Flash* (yearbook), *Alumni Bulletin* (4 eds. p.a.).

## GENERAL INFORMATION

In 1848 the Missionary Oblates of Mary Immaculate founded the 'College of Bytown' for the moral and intellectual educn of the people of the Ottawa valley. In 1849 it was incorporated and in 1861 became the 'College of Ottawa'. An act of the union govt in 1866 raised the coll. to the rank of a univ. and in 1889 it became a pontifical univ by decree of Pope Leo XIII. The univ had barely begun to develop when, in 1903, its bldgs were destroyed by fire. The revised civil charter was approved by the Ontario legislature in 1933. The pontifical charter was amended according to the requirements of the constitution *Deus Scientiarum Dominus* and was also given a new approval by Rome in 1934. During the past 30 yrs. the univ. has developed rapidly.

The purpose of the univ. is to give its students a truly Christian educn. A distinguishing mark of its teaching is the organization of parallel courses in English and French in most sections. In its teaching methods it tries to combine traditional values and modern techniques.

CONSTITUTION In all matters academic, supreme power and authority rests with the

senate, which is composed of the great chancellor, the rector, the deans and dirs of facs. and scho. and the members of the council of admn. The admn. powers are vested in the council of admn. composed of the rector, vice-rectors, sec., treasurer and 2 councillors, all of them belonging to the Oblates of Mary Immaculate. This body is advised by senate on academic matters and by the bd of regents (14 members chosen among prominent laymen) on financial matters.

## GENERAL INFORMATION

Founded in 1841 by royal charter issued by Queen Victoria, the purpose of Queen's Coll. at Kingston was, under the sponsorship of the Presbyterian Church of Canada in connexion with the Church of Scotland, to provide, within the country, trg. for the ministry and educat. facilities for the youth of a growing economy in a vast area without such educat. opportunities. When the 1st session began Queen's was the only active degree-granting coll. between the maritime provinces and the Pacific. It was modelled on the Univ. of Edinburgh, and Scottish academic influences have helped to mould its character.

As the coll. developed, its constitution was broadened by successive acts of parliament and the slender denominational requirements of 1841 were gradually eliminated until in 1913 an act was passed by the dominion parliament removing all trace of denominational control. What had been the fac. of theol. became the indep. Queen's Theol. Coll. (see above) and the original Queen's Coll. became Queen's Univ. at Kingston, a national institution privately endowed and privately controlled.

In 1854 the medical fac. was establ.; it was reorganized in 1866 as the Royal Coll. of Physicians and Surgeons in affiliation with the univ., but in 1891 the original status was resumed. Opened in 1861, the fac. of law closed in 1864 and, after a further 3 yrs. of existence, again in 1883; as the result of a change in the regns. of the Law Soc. of Upper Canada and the regn. of Osgoode Hall, the fac. was restored in 1957. A sch. of mining was founded in 1893 as a sep. instn. under an Ontario charter, amalgamated with the univ. in 1916 and now constitutes the fac. of appl. sci. The sch. of com. & admin. (now the sch. of bus.) was establ. in 1919, the sch. of nursing in 1942 and the sch. of phys. & health educn. in 1947.

Kingston, situated at meeting point of Lake Ontario and St. Lawrence River, is one of Canada's oldest cities.

CONSTITUTION. The admin. of the univ. is vested in the bd. of trustees, the univ. council, the senate and the fac. bds. The bd. of trustees is composed of the chancellor, principal and rector, representatives of the council, theol. coll., the grads. and benefactors, and 12 members selected

by the bd. Its functions are to manage the finances and property, to procure legislation, to appoint instrs. and other officers on the advice of the principal, and to attend to such external matters as do not relate directly to instrn. The univ. council consists of the chancellor, the trustees, the senate and grads. elected from their own membership. The council discusses all questions relating to the univ. and makes representation of its views to the senate or bd. of trustees. The senate is made up of the principal, vice-principal, principal of the theol. coll., deans of facs., 3 profs. from each of the facs. of arts & sci., appl. sci. and med., 1 prof. from the fac. of law, and 1 prof. from the fac. of Queen's Theol. Coll. The senate determines all academic matters which concern the univ. as a whole, and enforces the statutes, rules and ordinances of the univ. The fac. bds., which have the power to admonish their own affairs under such regns. as the bd. of trustees may prescribe, are each made up of the dean, profs., assoc. profs., asst. profs., lectrs. (in arts & sci. after 1 yr.'s experience), and, in the fac. of arts & sci., the univ. librarian.

INCOME (1960-61). Total income, \$5,166,264 (govt. grants, 43.8 per cent., fees, 35 per cent., endowment, 12.7 per cent., misc., 8.5 per cent.)

FACULTIES AND DEANS. See p. 312.

UNIVERSITY CAMPUS. Queen's Univ. has a campus of 70 acres reaching at some points to the shores of Lake Ontario. Over the past decade the univ. has engaged in an extensive bldg. programme - 40 per cent. of the permanent bldgs. now standing have been opened during that period. One of the significant parts of this programme is the increase in residence accomm. for both men and women. These acc. also included facilities for work in the pure and appl. sci. and in library services.

## GENERAL INFORMATION

The Royal Military Coll of Canada originated in 1875 when the dominion govt. decreed that there be establd. 'an instn for the purpose of imparting a complete educn. in all branches of military tactics, fortification, engineering, and a general scientific knowledge in subjects connected with and necessary to a thorough knowledge of the military profession, and for qualifying officers for command and for staff appts.' The site selected was the old naval dockyard on Point Frederick. The coll. was opened in 1876. The title 'Royal' was conferred in 1898. The coll. was closed for cadets from 1942 to 1948 but was used for officer courses. It was reopened for cadets in 1948 as a tri-service coll.

The purpose of the coll., as well as of Royal Roads and Le Collège Militaire Royal de Saint-Jean, is to train cadets in the moral, mental and physical requirements for entry into the commissioned ranks of the sea, land and air forces. The moral trg. includes the devel. of the essential characteristics of discipline and leadership. Mental trg. includes the fundamental military and scientific knowledge required in all branches of the service and in particular of the technical corps, and provides a balanced and liberal educn. in arts and sciences.

**CONSTITUTION.** The Royal Military Coll., Royal Roads and Le Collège Militaire Royal de Saint-Jean are administered by the dept. of natl. defence, and the ministry of natl. defence is, ex officio, pres. of the coll. The arts, sci. and engin. facs. operate as a joint fac. under a dir. of studies.

**COLLEGE PREMISES.** The coll. is situated on a peninsula at the confluence of the St. Lawrence and Cataragui rivers at the eastern outlet of Lake Ontario. On a site of 94 acres there are 7 teaching bldgs., a library, 3 residences, a gym., officers' and cadet messes, 12 fac. residences, and athletic facilities including 5 playing fields, a rink, swimming-pool, tennis courts, rifle ranges, boat houses, etc.

**LIBRARY.** 84,000 vols.

**LABORATORIES.** Chem., phys.; civil, electr., mech. and chem. engin.

**ACCOMMODATION.** See Appendix III.

**FIRST DEGREE.** BA—4 yrs. for both gen. degree and hona. degree in Engl., French, hist., econ., pol. sci. and econ.; BSc—4 yrs for gen. degree (hona. from 1962 in maths. and phys.); BEng—4 yrs for chem., civil, electr., mech., engin., and engin. phys. (from 1962). Hona. options have specific requirements, plus a thesis. Entry to all courses is from sr. matric.

**HONORARY DEGREES.** LL.D., DScMil, DSc.

**CANADIAN SERVICES COLLEGES INTEGRATION.**

For cadets entering R.M.C. the course is 4 yrs. For cadets entering Royal Roads the course is 3 yrs., cadets then proceed to R.M.C. for final 2 yrs. For cadets entering Le Collège Militaire Royal de St-Jean the course is 3 yrs., including prep yr., cadets then proceed to R.M.C. for final 2 yrs. Instrcn. for first 2 univ. yrs is coordinated for entry into third yr. at R.M.C.

**MILITARY OBLIGATION.** Each cadet must undertake to serve after graduation as a commissioned officer in one of the three armed services, in either active or reserve forces.

**REGULAR OFFICER TRAINING PLAN.** This plan was introduced in 1952. Cadets accepted under the plan for entry in Canadian services colls. are enrolled as naval cadets in Royal Canadian Navy, as officer cadets in Canadian Army, or as flight cadets in Royal Canadian Air Force. On successful completion of their academic and military trg. such cadets will be promoted to commissioned rank in regular force. The privilege of release, if desired, will be granted after 3 yrs. of commissioned service. The cost of tuition, bd., uniforms, books, instruments and other essential fees will be borne by dept. of natl. defence; a cadet will receive \$63 a month and allowances, with fice med. and dent. care and annual leave with pay and allowances.

**RESERVE FORCE ENTRY.** A limited no. of cadets, up to 15 per cent. of the entry, may be accepted for admission to the Canadian services colls. These cadets are not required to serve in the regular force on graduation.

**FEES** (applicable to reserve force entry cadets) 1st yr.—\$550, covering tuition, uniforms, educn. materials and incidentals; each subsequent yr.—\$500. Annually—\$485, for meals and accomm.; \$30, recreation; \$100, contingency (unexpended portion refundable). See also 'Regula. Officer Trg. Plan', above, and 'Dominion Cadetships', below.

**ACADEMIC YEAR.** 2 terms: fall (Sept. to Dec.); and winter (Jan. to April), providing 25 wks. of instrcn., exclusive of exams. A short spring term of 4 wks. has been added to provide time for survey, labs., thesis work in hona. courses, physical educn., etc.

**SUMMER TERM.** All cadets are required to attend a trg. centre of the service of their choice in order to obtain the necessary service qualifs.

**DOMINION CADETSHIPS** Sons of persons killed or incapacitated as a result of service in armed forces of Canada are eligible for Dominion Cadetships. There are limited to 15 in any one year. Holders of Dominion Cadetships are provided with tuition, uniforms, meals and room at public expense for the 1st academic yr at a Canadian services coll.

**RESIDENCE** All cadets are in uniform and live

in residence. Three blocks, providing 400 single and dble rooms.

**SUMMER SERVICE SCHOOLS** R.M.C. facilities are used in the summer months for jr. officers' courses, C.O.T.C., and other qualifying courses.

**PUBLICATIONS** *Calendar* (annual); *Admission Requirements* (annual), *Cadet Handbook* (annual), *The R.M.C. Review* (annual), *The Mikes* (bi-weekly).

### THE YEAR 1961

**MAJOR BUILDING DEVELOPMENTS** Bldgs completed: installation of new labs for phys. and org. chem., new phys. lecture theatre and new lang. labs.

## GENERAL INFORMATION

The univ. was founded in 1853 in Anchar by the Rt. Rev. C. F. MacKinnon, bishop of the diocese of Anchar, and subsequently moved to its present location at Antigonish. Full univ. powers were conferred by the province of Nova Scotia in 1886. The univ. is under the direction of the Catholic church, but there are no religious tests for entrance or for degrees. Permanent bldgs. were begun in 1880.

In 1894 Mt. St. Bernard Coll., founded in 1883, was affiliated with the univ. The univ. extension dept. was organized in 1929. In 1951 Xavier Junior Coll. was establd. in Sydney, N.S., as an integral part of the univ. In 1959 the Condy International Inst. was establd. (see below).

**CONSTITUTION.** The bd. of governors is composed of: bishop of Antigonish, ex-officio chairman; pres. of univ., ex-officio vice-chairman; banner of univ., sec.-treasurer; dir. of extension dept., principal of Xavier Jr. Coll., 7 members elected each yr. for a 3-yr. term by the bd. itself; 3 members elected by fac. of univ.; 3 members elected by priests of diocese of Antigonish; 3 members elected by alumni assocn. By the constitution the members of the bd. must represent every main group in society: miners, steel workers, teachers, profess., people, businessmen, etc. The bd. has authority over all matters of property and finance. The fac. of the univ. has final authority over all academic matters.

The pres. of the univ. is apptd. by the bishop of Antigonish for a 5-yr. term after a consultative vote by the members of the bd. of governors and the members of the univ. fac.

**INCOME (1960-61)** Total: \$1,518,570 (student academic fees, 52.6 per cent; endowments (net), 2.4 per cent; govt. grants, 41.2 per cent; gifts & misc., 3.8 per cent).

**LIBRARY** 80,000 vols.

**LABORATORIES.** Biol., chem., engin., geol., phys.

**CONDY INTERNATIONAL INSTITUTE.** Establd. 1959, to centralize and expand the specialized trig. in soc. leadership provided by the univ., to provide a centre of information and to handle the requests for assistance that come from the emerging countries. Dir. Very Rev. F. J. Smyth.

# GENERAL INFORMATION

Founded in 1864, the instn. was incorporated under the name of 'The Coll. of Saint Joseph', with the power to confer degrees, by an act of the New Brunswick legislature in 1868. In 1898, the original charter was amended, the name being changed to 'The Univ. of Saint Joseph's Coll.'. In 1906, Oxford Univ. admitted St. Joseph's Coll. to the privileges of the statute of colonial univs. In 1928 the legal title was changed to 'Saint Joseph's Univ.'. The univ. is conducted by the fathers of Holy Cross.

CONSTITUTION. Since the opening of the new bldg in Moncton in 1953 for sci., comm., civil engin and educ., St. Joseph's Univ. has been governed by a single corporation. There is a general counc. on studies, comprising the pres. and the dean of studies of each instn. as members ex officio. These officers outline the general curriculum of studies for the univ. For the rest, each instn. has its own budget and is administered as if it were a separate coll.; each has a bd. of governors, comprising the pres., the vice-pres., the dean of studies, the sec. and two local councillors. On admin. problems the powers of members of the counc. are limited to consultation; they have full power on financial problems. The local counc. on studies is composed of the pres. of the instn., the dean of studies and the deans of the depts. The deans of the depts. are responsible to the dean of studies, who is responsible to the pres. of the instn.

INCOME (1961-62). Govt. grants: provincial, \$33,000; federal govt., \$125,000.

UNIVERSITY PRESENT. Fac. of arts is situated at St. Joseph's. Chief admin. offices are in Moncton, in the centre of which the univ. also owns an area of 80 acres, where a residence for men was opened in 1939. There is a temporary

classroom bldg. pending further devel. on the campus.

LIBRARY. 50,000 vols. at St. Joseph's; 10,000 vols. at Moncton.

MUSEUM. Natural hist. and Acadian hist. The library, museum and archives, the first instn. of its kind organized for the benefit of the Acadian population, has specialized in, and contains valuable collections on, the hist. of Acadia.

## GENERAL INFORMATION

In 1802, Rev Edmund Burke founded Saint Mary's Coll. An act of the legislature of Nova Scotia passed in 1845 and confirmed on several occasions conferred full univ. powers. All through its history, Saint Mary's has been under the direction of groups of Roman Catholic clergy. The secular clergy, the brothers of the Christian Schools and the Christian brothers of Ireland have all had charge of the admin. In June 1940, on the invitation of Most Rev. J. T. McNally, archbishop of Halifax, the Jesuit fathers of Upper Canada assumed direction of the coll. A new property was purchased in 1943, and on it was raised the new structure which was opened in Sept. 1951. In 1952 the name was officially changed to Saint Mary's Univ.

**CONSTITUTION** The archbishop of Halifax is, *ex officio*, chancellor of the univ. Under his chairmanship, the bd. of govs. consists of vice-chancellor and 20 fellows, the pres. and vice-pres. of the univ. are *ex-officio* members. The bd. of govs. acts chiefly in an advisory capacity. Financial responsibility is vested in the Roman Catholic episcopal corporation of Halifax, and the univ. is administered and directed by the fathers of the Upper Canada province of the Soc. of Jesus.

**INCOME** (1960-61) Total: \$758,352 (fees, 32 per cent; federal and provincial grants, 15 per cent; donations, 20 per cent; auxiliary enterprises, 30 per cent; other sources, 3 per cent).

JUNIOR COLLEGES—Campbell Coll., Regina, St. Peter's Coll., Moose Jaw, Luther Coll., Regina. These colls. provide courses for 1st yr. of BA.

## GENERAL INFORMATION

The act establishing the univ. was passed by the legislative assembly of the province in 1907. The 1st classes in arts & sci. began in 1909, and the 1st bldg. on the campus was opened for admission of students in 1912. The other colls. and schs. were established as follows: agric. 1912, engin. 1912, law 1913, pharms. 1914, consum. (scot.) 1917, med. 1926, educn. 1927, home econ. 1928, nursing 1928, grad. studies 1946, phys. educn. 1958. Some of these began work as schs. under the administration of other colls., but all have since become colls. with the exception of nursing, which remains a sch. under the jurisdiction of the coll. of med. and phys. educn. under the coll. of arts and sci. St. Thomas More Coll., established by the Fathers of St. Basil in 1930, gives classes in most arts subjects on the same footing as the coll. of arts and sci. In 1934 Regina Coll. was taken over by the univ. and continued as a jr. coll. with a conservatory of music and a sch. of art. In 1961 the name of the coll. was changed to Univ. of Saskatchewan, Regina Campus.

**CONSTITUTION** Convocation has power to consider all matters affecting the interests and well-being of the univ. and to make representations thereon to the senate. The senate grants

degrees, authorizes establishment of scholcs., etc., colls., depts., chairs of courses of instruction within the univ., and considers and determines all courses of study. The bd. of governors is vested with the management, admin. and control of the property, revenues, business and affairs of the univ. It has the duty and power to erect and maintain bldgs., to expend money on their maintenance and equipment, to provide for the establish. and maintenance of facs., depts., chairs, exhibitions, scholcs., etc., determined by the senate, and appoints univ. staff. The univ. council conducts exams., and considers for report to senate courses of studies and other educational matters. The facs. of the colls. have charge of all matters of scholarship within each coll. Advisory councils for the colls. of agric., educn. and med. consider and report to the senate and bd. of governors on gen. regns. and courses of study. The chancellor is elected by members of convocation and holds office for 3 yrs. He presides over convocation, confers degrees and is chairman of the senate and a member of the bd. of governors. The vice-chancellor, who is also the vice-chancellor, is apptd. by the bd. of governors. He has general supervision over and direction of the academic work of the univ., the teaching staff and the student body. Deans of

colls have gen supervision over the direction of the work, of the teaching and tgr of the students in all depts of their colls. Hds. of depts have gen supervision and direction of the work of their depts.

**INCOME (1960-61)** Total income, excl. ancillary enterprises, \$8,045,660 (ices, 30.78 per cent, federal govt., 14.80 per cent; provincial govt., 41.11 per cent; 1st grants, 18.65 per cent; misc., 4.66 per cent).

## GENERAL INFORMATION

The univ. was founded in 1954 by the Roman Catholic Archbishop of Sherbrooke, under an act of the legislature of the province of Quebec. It received its Roman Catholic charter in Nov. 1957.

CONSTITUTION. The chancellor, who is always the R.C. archbishop of Sherbrooke, is hd of the univ. He administers through the *evoc.* a *rector*, 2 *vice-rectors*, a *sec.-general*, a *treasurer* and 4 *dea*. These members are nominated by the chancellor and are responsible to him.

Each *fac.* has its own hd responsible to the *evoc.* The chancellor nominates the *dean* who is the *hd* of that council, the *vice-dean* and the *sec.*

The other members are nominated by the *evoc.* Also responsible to the *evoc.* is the *bd* of *tutors*, whose object is to collect, own and administer, in trust for the univ., property and moneys.

INCOME (1960-61) Total income, \$935,617 (govt. grants, 54.6 per cent; fees, 45.2 per cent; gifts, 0.2 per cent)

FACULTIES AND DEANS See p. 350.

UNIVERSITY CAMPUS. The univ. has acquired 900 acres nr. the city of Sherbrooke for the intended campus and the bldgs. of the *fac. of scis.*, *fac. of comm.*, *fac. of arts*, *sec. centre*, students' residence and central heating plant have already been erected there.

LIBRARY. 49,000 vols.

ADMISSION. See Appendix III

DEGREE OF BACHELOR OF ARTS. The *baccalauréat ès arts* (BA) is awarded by the univ. and may be gained in two ways:

(a) The complete course leading to it is provided in private colleges *clausures* affiliated to the univ. (for a list, see pp. 352-3) The course is of 8 yrs. duration, in two 4-yr stages called *cours secondaires* and *cours universitaires*. The former (taken from about 12 to 16 yrs. of age) is comparable to the high school of English Canada and the latter to the general course in arts. Admission to the second stage is by passing the *muséométrique* exam. set by the univ. (and thus obtaining the *matric. dipl.* of the univ.) at the end of the 4th (final) yr. of the *cours secondaires* and the 11th yr. of schooling.

(b) Alternatively, the 4 yrs. of the *cours universitaires* may be taken at the Collège Universitaire, Sherbrooke (see p. 352).

Students who reach a certain standard in both arts and sci. in the *cours universitaires* are awarded the BA of the univ. usually at about the age of 20. The award of the BA indicates that the student is ready to begin his professional studies in law, med. or appl. sci., or to enter on higher study in arts or sci.

**GENERAL INFORMATION**

Sir George Williams Univ. (named after the founder of the Y.M.C.A.) has developed from the formal educa. work of the Montreal Y.M.C.A. inaugurated in 1873. First classes at univ. level were offered in 1929 in the evg. division, and day courses in arts, sci. and comm. were inaugurated in 1932. The members of the first class graduated in 1936 and by 1962 some 5654 degrees had been presented. Throughout this period the coll. had been conducted under the terms of the charter of the Montreal Y.M.C.A. (consolidation June 1888). In March 1948, however, the univ. was granted a specific charter by the provincial legislature, establishing it a body corporate and politic, for the purpose of conducting a coll. or univ. in the province of Quebec. Its historic connexion with the Y.M.C.A. is preserved by by-law.

Similar courses are offered and the same standards are maintained in both day and evg. divs., although evg. students are required to attend for a longer period to complete degree requirements.

**CONSTITUTION** The univ. charter is held by the corp. of Sir George Williams Univ., which by its first by-law is the metropolitan bd. of the Y.M.C.A. of Montreal. Ultimate financial control of the univ. is exercised by the corp. Appts. and policy and actual financial management are

the responsibility of the bd. of governors, whose members are elected annually by the bd. itself. The academic policy and programme are the responsibility of the fac. council, which is made up of all full-time profs. and certain *ex-officio* members. The council is responsible to the bd. of governors.

**INCOME** (1961): \$2,376,775 (student fees, 77.7 per cent; provincial govt. grant, 18.3 per cent; Y.M.C.A. subsidy, 2.5 per cent; auxiliary enterprises and other sources, 1.5 per cent.)

**FACULTIES** The facs. of arts, sci. and comm. are closely integrated under the gen. supervision of the dean of the univ. To ensure a broad gen. basis to the educa. programme of each fac., the work of the univ. as a whole is further organized in 4 divs., each supervised by a sr. prof. nat. sci. div.—Sr. Prof. S. Madras, soc. sci. div.—Sr. Prof. J. W. Bridges, humanities div.—Sr. Prof. W. R. Fraser, comm. div.—Sr. Prof. P. T. R. Pugsley.

**LOCATION** The univ. is housed in a large bldg. in central Montreal nr. the Y.M.C.A. bldg., certain of whose facilities are used by the students.

**LIBRARY** 51,683 vols.

**LABORATORIES** Biol., chem., electricity, phys.

Four art studios available for work in fine & appl arts

**ADMISSION.** See Appendix III

**PARTIAL STUDENTS.** Non-matriculated students are admitted to evg courses for partial programmes, provided that their background is such that they may follow the courses desired

**DEGREES.** 4 yrs. from jr matric.—BA, BSc, BCom (longer in the evg courses). No honours degrees or higher degrees are awarded. Attendance at lectures is required for all programmes.

**DIPLOMAS.** 2 yrs from jr matric (longer in evg div.).—AssocArts, AssocSc, AssocCom. 4-yr course for dipl in association sci for profess. Y M C A secretariatship

**CERTIFICATES** 2 yrs.—engin

**FEES.** Annually for tuition—day div. \$300, plus \$25 lab fee for each course involving lab. work, \$15 student soc. fee. Evg. div. \$60 for each 8-month subject, \$30 for each 4-month subject, plus \$25 lab. fee for each course involving lab. work.

**ACADEMIC YEAR.** Sept to May. 2 terms of 15 wks each.

**SUMMER SESSION** offered each yr. in the evg div. only, from May 22 to Aug. 24, credits for which are given towards degrees of BA, BSc and BCom.

**PLACEMENT SERVICE** for students and grads. offered by student guidance office in conjunction with natnl. employment service.

**ASSOCIATION OF ALUMNI.** Grads of the univ belong to the Assocn of Alumni of Sir George Williams Univ.

**RESIDENCE.** Men students may reside in the Y M C A dormitories which occupy space in one of the bldgs. used by the univ. Residential accomm for women students is available in the Montreal Y W C A, within walking distance of the univ.

**MILITARY TRAINING.** Univ contingents prepare students for commissions in Canadian army (reserve), Canadian navy (reserve) and R.C.A.F. radar and communications (reserve).

**STUDENTS' SOCIETIES.** 2 self-governing socs: students' undergrad soc. (day students), and evening students' assocn. (evg. students).

**STUDENT ATHLETIC FACILITIES.** Gymnasium and swimming pool.

**PUBLICATIONS.** Calendar (July); *The Georgian* (students' weekly newspaper); *The Garnet* (graduating class annual); *The Post-Grad* (quarterly of Alumni Assocn.)

**UNIVERSITY BOOKSHOP.** The univ operates a bookshop through which students may obtain all required text-books and supplies.

## GENERAL INFORMATION

There are 4 clearly defined periods in the hist. of the Univ. of Toronto: the foundation of King's Coll. and its progressive secularization, 1827-49; the Univ. of Toronto in isolation, 1850-89; federation, 1889-1905; and the period of consolidation and expansion from 1905 until the present day.

The univ. was founded in 1827 by royal charter as King's Coll. at York, as the state univ. of the province of Upper Canada, in close connexion with the Church of England. This moved other denominations to establish colls. independent of King's. Victoria was established by the Methodists at Cobourg in 1841, and Queen's at Kingston by the Presbyterians in the same yr. It was not until 1843 that the work of instruction began at King's Coll., the first degrees were granted in 1844. In 1849, after a bitter controversy, King's Coll. was secularized, removed entirely from its connexion with the Church of England, and its name changed to the Univ. of Toronto.

Irked by this secularization, the Church of England in 1851 founded its own Univ. of Trinity Coll. In 1852 the Basilean Order established St. Michael's Coll. In 1853 a further change was made in the Univ. of Toronto through the creation of Univ. Coll. to which was given the entire work of instruction, the univ. itself becoming merely a legislative and examining body similar to the Univ. of London then recently establd. This move was prompted by the hope that the rival univs. would enter into federation, a vain hope for many yrs.

Only in the early eighties did representatives of the other colls. enter into negotiations for a scheme of federation, which was embodied in an act of the Ont. legislature in 1887. In 1890 Victoria and St. Michael's entered into federation with the Univ. of Toronto. Trinity Coll. was federated in 1904.

In 1905 the Ont. govt. appointed a commission to investigate and recommend action in regard to the univ. The Univ. of Toronto Act of 1906 laid the foundation of the present constitution of the univ. The present authority is that given by the Univ. of Toronto Act 1947 (as amended up to 1950).

Federation is confined to the fac. of arts & sci. The fac. is composed of 4 colls.: University Coll., Victoria Coll., Trinity Coll. and St. Michael's Coll., all of whose students meet the same admission and curricula requirements authorized by the senate. The financial affairs of Univ. Coll. are administered by the bd. of governors of the univ. but the other three colls. are autonomous instns. with degree-granting powers. They administer their own financial affairs and exercise their degree-granting powers only with respect to degrees in divinity.

In addn., Knox Coll. and Wyckoff Coll. are theol. instns. affiliated with the univ., but the senate exercises no control over their curricula. The situation is parallel with respect to Em-

manuel Coll., the theol. coll. of Victoria Univ., and with respect to degrees in divinity offered by the Univ. of Trinity Coll. and the Univ. of St. Michael's Coll.

Situated in Guelph, 65 mls. from Toronto, are the Ont. Agric. Coll. and Ont. Vet. Coll., whose students proceed to degrees of the Univ. of Tor. These 2 affiliated colls. work in close co-operation with the provincial dept. of agric., which is ultimately responsible for their financial operations.

York Univ. (see p. 377) opened in autumn 1960 as an affiliated instn. of the Univ. of Toronto. Students attending York Univ. read for degrees of the Univ. of Toronto and initial teaching in York is confined to subjs. in the general arts course at the Univ. of Toronto.

New Coll. (see p. 376), opened 1962, will provide, within next yr. at two, residential accomm., tutorial arrangements, common rooms and dining facilities. The coll. is co-educational with enrolment drawn from all undergrad. divs. of the univ., and is an integral part of the Univ. of Toronto.

Missey Coll., a residential coll. for male grad. students, is under construction (1962) and is expected to open in 1963-64. Apppts. will be divided as evenly as possible between men working in the humanities and the sci. at the Univ. of Toronto. The coll. will provide living accomm., dining and common room facilities, and a lib. specially stocked and designed for res. studies. Mstrs.: R. Davies, Blatt Oxon, Hon. LLD *altis*, Hon. D. Latt McM.

**CONSTITUTION.** The univ. is administered by 2 sr. bodies: the bd. of governors (33 members) apptd. by the lt.-govt. in council of the province of Ontario and primarily concerned with finance; and the senate (174 members), which is the official authority on all academic matters. Senate includes 37 ex-officio coll. hds., deans, chs., etc., 19 reps. of professional licensing bodies, 59 reps. of the teaching fac. and 59 elected members of the grad. body.

The chancellor, chairman of the bd. of governors and pres. are ex-officio members of both senate and bd. of governors. The pres. is the chief executive officer of the univ. in both academic and financial areas, the chancellor, elected by a cttee. of election of 55 reps. of the grads., presides at convocations and certain other formal occasions.

**INCOME (1960-61)** Total income (not including federated univs. or such subsidiary orgns. as Royal Conserv. of Music of Toronto, Ont. Coll. of Educn., univ. press, Connaught med. res. labs.), \$22,955,203 (govt. grants, 53.8 per cent.; student academic fees, 21.5 per cent.; gifts and grants for assisted res., 14.8 per cent.; endowed income, 1.7 per cent.; other sources, 8.2 per cent.)

**UNIVERSITY PRESIDENT** The univ. is in the heart of Toronto. 4 of the city's principal arteries

bound or cut through univ. properties. The univ. has acquired a 26-acre tract of land W. of St. George St., Toronto, where a proposed 12-yr. programme of expansion is already under way to provide the new bldg. that will be needed as enrolment increases.

**LIBRARY** 1,399,232 items (incl. stock of Univ. Coll. libr. and 26 dept. librs.); 3 fed. univs., 209,814, 2 fed. colls., 73,320, total vols. on campus, 1,673,566. The lib. has sp. collections of French-Canadian lit., of Italian & Spanish belles-lettres and of 18th-cent. Engl. lit.

**MUSEUMS.** Royal Ontario Museum, 100 Queen's Park. Dir.—T. A. Heinrich, MSc PhD LL.D. World's largest univ. museum, functions also as provincial public museum. 3 customal divs. with 84 pub. galleries and each with res. collections and programme, reference library, service depts., etc., plus educn. div., office of information services, admin. dept. *Art & Archaeol. div.* permanent galleries, research collections in each of Greek and Roman, nr. eastern, far eastern, European, textiles, Canadiana, and ethnol. depts. Europe, outstanding Chinese collection covering entire range of art and archaeol., with large Chinese library, extensive ethnol. collections with emphasis on American Indian, N. American archaeol. collections and active res. programme; Sigmund Samuel Canadiana collection housed separately at 14 Queen's Park Cresc. West. *Life sci. div.* depts. of mammal, ornithol., herpetol., ichthyol., invertebrates, fossil vertebrates, fossil invertebrates, each with extensive res. collections and facilities. Permanent public galleries, especially noteworthy in fossil vertebrates, ichthyol., and herpetol. Important reference library. *Earth sci. div.* depts. of geol. and mineral. Pub. galleries of physical and appl. geol., systematic gallery of mineral, gem collection display. Extensive res. collections and library. *Educn. div.* conducts museum educn. programme for Ontario schools and adult groups, film programmes, children's clubs, etc. *Office of information services:* conducts pub. relations programme, audience tes., museum radio and television, etc. All res. collections, libraries and museum facilities are available to res. workers.

**THE PONTIFICAL INSTITUTE OF MEDIEVAL STUDIES** of St. Michael's Coll. is a grad. sch. of res. The fac. members are members of the grad. sch. of the univ. The students may register in the univ. as working for the MA or PhD degree. They may also qualify for the licentiate (LMS) and the doctorate (MSD) degrees awarded by the inst.

**THE ROYAL CONSERVATORY OF MUSIC** OF TORONTO is within the univ. framework. It consists of two separate departments. The fac. of music of the Univ. of Toronto, which is housed in the Edward Johnson bldg., constructed in 1972 especially for the fac. Among other things, this

bldg. contains a fully equipped opera house, a concert hall, a rehearsal hall and a lecture-recital hall, as well as classrooms, teaching studios, etc. There is a very complete music lib. and also an electronic music lab. The sch. of music of the Royal Conservatory will move shortly to the converted bldg. of the dept. of pol. sci. in the univ., very close to the Edward Johnson bldg. The sch. includes a concert hall as well as the usual teaching studios, classrooms and offices.

**LABORATORIES** in all the sci. depts. A sub-critical REACTOR has recently been installed for the fac. of appl. sci. & engin.

A student who has already graduated in the fac. of arts, med. or sci. of a Canadian or other recog. univ. may complete the course in dent. in 4 yrs.

instead of 5, provided he has covered certain prescribed subjects during his undergrad. course, and persons holding an LDS obtained in Gr. Britain or Ireland registrable by the Dental Bd of the U.K. may complete the course in 3 yrs. and persons who hold a univ. degree in dent. obtained from an approved univ. in Gr. Britain, Ireland or Australia may be admitted to the fac. of dent. without further exam., and to final DDE exams. on completing 1 full session in the fac. of dent.

The BSc(Med) may be conferred for ap. work or investigation as a grad. degree and in certain circumstances for an extra yr.'s work as an undergrad. Similar regns. govern the BScD.

Attendance is required for all degree courses. Correspondence or evg. courses may not be used for credit toward a degree in the univ., except the general course (div. of extension). Only the BA degree through the general course (div. of extension) may be earned by attending summer day and winter evg. classes. The MA, in Engl. only and the MEd may be earned through summer sessions.

**HIGHER DEGREES** open to grads. in arts or sci. of any univ. or coll. approved by the sch. of grad. studies.

1 yr. after BA—BLS, BSW.

The MA, obtainable by approved course or grad. study extending over 2 yrs. or in the case of a BA in an hon. course, 1 yr., may be taken in anat., anthropol., appl. math., astronomy, biochem., bot., chem., classics, east. asiatic studies, econ., educn. theory, Engl., fine art, food chem., geog., geol. sci., Germanic lang. & lit., hist., household sci., Islamic studies, math., math. stats., med., biophys., microbiol., nr., eastern studies, nutrition, pathol. chem., pathol., pharmacol., philos., phys., physical, pol. sci., psychol., pub. admin., pub. health, romance lang. & lit., slave studies, social., zool.

The PhD, open to a grad. in arts or sci. or appl. sci. or dent. of this or another recog. univ. by pursuing in the Univ. of Toronto an advanced course of study for 3 yrs., exemption from 1 of which may be given in consideration of the candidate having already pursued a master's course for 1 yr. A thesis embodying the result of an original investigation is required. The PhD may be taken in almost any sub. in which a master's degree is available and, in addition, in account. engin. & aerophys., chem. engin. & appl. chem., dent., elect. engin., mech. engin., metall. engin.

MBA, by approved course of grad. study extending over 1 to 2 yrs.

MS, 1 yr., after 3 yrs. grad. tig. in gen. surg. or a surgical specialty, open only to grads. in med. of a recog. univ.

Doctor of clin. sci. (DCISc), min. 4 yrs. following graduation from recog. med. sch. and 1 yr. hosp. internship. Initial 2-3 yrs. in basic sci. dept., final yr. in clin. dept.

MAsC may be obtained by a BASe or BSc grad. of this univ. or one who holds an equivalent degree

from some other univ. who pursue a course of advanced study in the fac. for 1 yr, presents a satisfactory thesis and passes such exams. as may be prescribed. The MAsC may be taken in aeronaut. engin. & aerophys., appl. geol., chem. engin., civil engin., electr. engin., geol. scs., mech. engin. metall., engin. Grad students wishing to carry out thesis work in some phase of nuclear engin. must register in one of the following dept.s: chem., electr., mech. or metall. engin.

MArch may be obtained by one who holds the degree of BArch or BAsC, or an equivalent degree, under the same conditions as the MAsC degree.

MScF is open to candidates who have obtained the BScF or equivalent degree. The course normally requires 2 yrs. if by exam., 1 yr. if by thesis.

MEd is open to candidates holding a univ. degree acceptable to Ont. Coll. of Educn. and a cert. as teacher valid in one of the provinces of Canada and issued after a regular course in an approved trg sch. or the equivalent of such cert. and course of trg. The degree is awarded to those who supplement their professional trg. by attendance, after successful experience, at a summer session, and complete work assigned. MEd is open to candidates who hold the BEd degree or equivalent standing. Requirement for the degree is completion of work assigned during attendance at 1 regular session or 3 summer sessions, although students of proven ability may obtain permission to write a thesis in place of the last 2 of the 6 units of instrum. ordinarily required. The EdD is open to holders of the MEd who qualify as candidates by their standing on selective tests, 1 regular session of course work and a major thesis, completed subsequently, are required.

MLS, 1-yr. course open to holders of BLS or equivalent.

MSW (master of social work), 1-yr. course open to grads. who have obtained the BSW degree or equivalent. The DSW is open to holders of the MSW.

MSA is open to grads. who have obtained the BSA degree or equivalent. Course normally requires 1-2 yrs.

MScD is open to grads. of the fac. of dent. of Univ. of Toronto or those with equivalent standing. It involves at least 2 yrs' work.

MScPhm (master of sci. in pharmacy), open to holders of BScPhm, or equivalent degree, who pursue advanced course of study and submit satisfactory thesis. (Normally a academic sessions).

MVSc or DVSc is open to grads. who have obtained DVM degree or equivalent. For DVSc candidate must have obtained DVM at least 3 yrs. previously.

MusDoc is open to a MusBac and MusM of this or another univ. who had received bachelor standing at least 5 yrs. prior to registration or master standing at least 2 yrs. prior to registration. Original compositions must be submitted with academic credentials.

**GENERAL INFORMATION**

St. Michael's Coll. was establd. in 1852 by the Rt. Rev. Armand François, Comte de Charbonnel, second bishop of Toronto, and placed under the direction of the Basilian Fathers. It was incorporated as an instn. of higher learning by the statutes of the province of Canada in 1855. In 1881 St. Michael's was affiliated, by statute of the univ. senate, to the Univ. of Toronto. In the

univ. acts of 1887 and 1904 it was described as a federated theol. coll., but continued independently as a classical coll. for Catholic laymen. When the Univ. of Toronto was reorganized by the Univ. Act of 1906, St. Michael's entered the new univ. federation as an arts coll., preparing students for univ. degrees. In 1954 St. Michael's obtained independent env. establishment for its theol. sch.

and in 1958 was constituted by the legislature of the province of Ontario as a univ. in federation with the Univ. of Toronto.

St. Michael's, in conjunction with the Univ. of Toronto, offers full programmes in arts, sci. and comm. at undergrad level and, independently, in theol. and related studies at postgrad level. The Inst. of Medieval Studies is located on the same campus.

**CONSTITUTION.** The univ. is under the management and admin. of the collegium. The senate has power in all matters of a strictly educational nature not assigned to another body or officer. The pres. is charged with the general oversight of the univ. as a whole.

**UNIVERSITY PRESIDENT.** The univ. is situated on Queen's Park Crescent on a site of 13 acres adjoining the campus of the Univ. of Toronto.

**LIBRARY.** 70,000 vols.

**ADMISSION REQUIREMENTS.** Arts: as for Univ. of Toronto (see Appendix III).

## CONSTITUENT AND AFFILIATED INSTITUTIONS

WATERLOO UNIVERSITY COLLEGE The arts coll. of the Univ.

WATERLOO LUTHERAN SEMINARY The sch. of theol. of the Univ. Pres—Rev. J. R. Houser, BA Gettysburg, BD Luth Theol. Sem., Phil., MA Penn., Hon. DD Mülhausen, Dean—Rev. U. S. Leupold, PhD Boil.

MINNOCENTE BRETHREN COLLEGE OF ARTS, Winnipeg, Manitoba (tel. Lenox 3-2147) Founded 1944 by the Canadian Conference of the Mennonite Brethren Church as a jr. arts and theol. coll. Affiliated 1961 Pres—Rev. J. A. Toews, BTh Tobo, BA Sask., BD United, MA Manit.

## GENERAL INFORMATION

On July 11, 1910, as a result of a mutual agreement between the Canada synod and the synod of Central Canada, a bd. of management was organized to establish a Lutheran Theol. Seminary in Canada. The town of Waterloo was selected as the location and the Evangelical Lutheran Seminary of Canada was formally opened on Oct. 30, 1911, and incorporated under the laws of the prov. of Ontario in 1913.

Facilities for pre-theol. educ. were establd in 1914. For 13 yrs. courses leading to a bacc. were given in Waterloo Coll. Sch. In 1923 the sch. offered a 1-yr. arts course beyond sr. matric. In 1924 this venture was expanded into the third of Waterloo's educ. units, the Waterloo Coll. of Arts, offering a 4-yr. arts course. Emphasis having been shifted to higher educ., the prep. courses of the Coll. Sch. were reduced and finally abandoned in 1929.

In 1925 the fac. of arts under the name of Waterloo Coll. became affiliated with the Univ. of Western Ontario. 5 yrs. later Waterloo Coll. was granted the right to offer courses leading to the BA honors degree.

With the purpose of expanding the programme of higher educ. at Waterloo, particularly in sci., a non-denominational bd. of govs. was organized and in June 1936 this bd. establd. the associate fac. offering courses in sci. and engin. In this way sci. facilities were developed with the assistance of prov. grants not available to denominationally controlled univs. in Ontario. The associate fac. pioneered the first co-operative engin. programme in Canada and continued its devel. with Waterloo Coll. until 1959 when it severed its connection and received a prov. charter, becoming the Univ. of Waterloo.

Also in 1959, the Evangelical Lutheran Seminary of Canada applied for a revision of its charter changing the corporate title to Waterloo Lutheran Univ. and giving the instn. univ. powers and degree-granting rights. By mutual agreement, the affiliation of Waterloo Coll. with the Univ. of Western Ontario was terminated when the new charter became effective on July 1, 1960. There are two distinctive units controlled by the univ.: (i) Waterloo Univ. Coll., which offers both gen. and hon. programmes in arts, leading to BA degree for men and women of all faiths; (ii) Waterloo Lutheran Seminary which educates

men for the ministry. In August 1961, the Mennonite Brethren Coll. of Arts in Winnipeg, Manitoba, affiliated with the univ.

CONSTITUTION The members of the bd. of govs. are apptd. by the evangelical Lutheran synod of Canada with 10 members for the Canada synod, 4 for the Nova Scotia synod and 2 for the Alumni. In each case, Lutheran laymen comprise half the representatives. Also sitting *ex officio* are the pres. of the evangelical Lutheran synod of Canada and the pres. of the univ. The bd. is responsible for all univ. matters but has delegated academic responsibilities to the senate. The senate, composed of bd. and fac. representation, elected city and county officials, prominent citizens of various faiths, high school principals and alumni, reports to the bd. of govs.

INCOME (1960-61) Total operating income, \$513,674. (Of the non-residential income the sources were: fees, 43 per cent.; federal govt. grant, 32 per cent.; endowment, 5 per cent.; Lutheran synod and bd. of higher educ., 22 per cent.; other income, 2 1/2 per cent.)

FACULTIES AND DEANS Arts, Rev. Dr. L. H. Schuss (academic dean); theol., Rev. Prof. U. S. Leupold (N. Test.)

### GENERAL INFORMATION

Incorporated by an act of the provincial legisla-  
ture in 1878 as the 'Western University of  
London, Ontario', in connexion with the Church  
of England, the univ. has become, under the pro-  
visions of amending acts of 1908, 1923 and 1955,  
absolutely undenominational in its govt., which  
is under provincial and municipal control. It  
consists of 7 divs. of the univ. proper—the fac. of  
arts and sci. (University Coll., Middlesex Coll.,  
Coll. of Music), the fac. of grad. studies, the fac.  
of engin. sci., the fac. of law, the fac. of med., the  
sch. of nursing and the sch. of bus. admin.—as  
well as the affiliated instrs. listed above.

**CONSTITUTION.** The univ. senate is responsible  
for academic affairs, while the bd. of governors  
controls financial affairs. The bd. of governors  
is partly apptd by the lt.-governor-in-council,  
partly by the London city council, partly by the  
univ., and partly elected. The senate is partly  
univ. admin. & fac. members, ex officio; partly  
elected by fac. members, secondary sch., prin-  
cipals and univ. grads., and partly apptd by out-  
side bodies, e.g. bds. of educn. and nearby city  
and county councils. The president and vice-  
chancellor is chairman of the senate and a member  
of the bd. of governors.

**INCOME (1960-61)** \$7,081,763, incl. \$1,142,512  
for 128 and \$1,035,648 for ancillary enterprises.  
Principal sources (excl. ancillary enterprises):  
federal govt., 17.8 per cent.; provincial govt.,  
20.1 per cent.; municipal, 1.3 per cent.; 100  
grants, 19.3 per cent.; other gifts and grants, 1.4  
per cent.; student fees, 34.3 per cent.; endow-  
ment income, 1.4 per cent.; other sources, 4.2  
per cent.

**FACULTIES AND SCHOOLS.** See above (for deans,  
see p. 403).

**UNIVERSITY PRECINCT.** Campus consists of  
more than 500 acres along Thames River in N.  
London. Fac. of med. is in a hosp. centre on  
South St. Each affiliated coll. has its own campus  
close to north precinct. Plans call for a basic  
med. sci. bldg. on north campus soon. It is also  
planned to keep a good deal of space open for  
playing fields.

**LIBRARIES** of univ. proper: 300,000 vols. plus  
several thousand pamphlets. Barnett collection  
contains many rarities dealing with  
Canadian and American hist.

**LABORATORIES** J. B. Collip med. res. lab.,  
cancer res. lab.

TEACHING HOSPITALS in London. Victoria, St Joseph's, St Mary's, War Memorial Children's, Bethesda, Ontario, Beck Memorial San., Westminster (Veterans), Ontario H., nr St Thomas, Ont.

ADMISSION. See Appendix III. Admission to the med. sch. is usually not open to non-Canadian students because of limited facilities.

FIRST DEGREES 3 yrs. (4 for hon.) from a matric—BA, BSc, 4 yrs. from a matric—BEd; 5 yrs from a matric—LLB, BScN (nursing), 6 yrs from a matric—MD.

Hons. courses represent both gen. and sp. educ. as well as higher standards. Hons. may be taken in bio., bus. admin., chem., classics, compar. lit. incl. Russian, econ., Engl., French, geog., geol., German, hist., journalism, Latin, maths (pure, appl., statistical, astronomical, actuarial), med. langs., music, philos., phys. & health educ., phys. ACADEMIC YEAR. Sept 12-May 15 (approx.)—year varies from 32 to 36 wks. among the various facs. and schs.

CORRESPONDENCE AND EXTENSION WORK in winter sessions in some general course subs., offered mainly for teachers and other adult students, either as credit courses towards degrees or as non-credit cultural courses. No degree may be earned entirely in the extension and correspondence div., without attendance at winter or summer sessions. Adult educ. is under the control of the summer sch., correspondence and extension dept.

THE SUMMER SCHOOLS (approx. 1600 students) offer a 7-wk. course at Trois-Pistoles, Que., in French for English-speaking students, and in English for French-speaking students, and a 6-wk. course at University Coll. in standard arts & sci. subs. of the gen. course (for BA) as well as hons. work in Engl., geog., hist. and maths for teachers with degrees who are working for certain teaching certs.

2 summer courses, each of 1 month's duration, in marketing and in management trig. at executive level, for about 200 men.

THE ALUMNI ASSOCIATION assumes some responsibility for the placement of grads. In addition, the asst. to the dean of men supervises a placement service for summer and for permanent employment, and sch. of bus. admin. and engin. sci. fac. have their own placement bureau.

STUDENT RESIDENCES. Spence Hall, London Township (for 104 women), Midway Hall and a new men's residence (not yet named) (for 600 men), Brescia Hall (100 Uxaline Coll. women), Huron Coll. (400 men and women in various residences), Chast. the King Coll. residences for 180 men, St Peter's Coll. (150 men), fraternity houses and sorority houses for men and women above the freshman level, the United Church residences accommodate 300 men and women, Newman House 15 men, and Lutheran Student Centre 10 men.

THE DEPT. OF MILITARY STUDIES offers trg. in the univ. naval trg. div., at the R.C.A.F. univ. reserve trg. plan or the Canadian officers' trg. corps.

THE UNIVERSITY HEALTH SERVICES provide free med. service for students daily, at the campus health centre, and the univ. physician and his staff are on call to visit students in their residences. A group health insurance fee pays for special services.

**GENERAL INFORMATION**

The Univ. was founded in 1942 by incorporation of the Ceylon University Coll., establd. in 1921, and the Ceylon Medical Coll., establd. in 1870. It occupies temporarily the premises of the two colls. in Colombo, but new bldgs. are being erected in Peradeniya, 4 mls. from Kandy, on the banks of the Mahaweli-ganga below the Royal Botanic Gdns. The facs of agric., arts, oriental studies and vet sci moved to Peradeniya in 1952, the general admin. in 1953 and the dental sch. in 1954. When the whole univ. is moved there it will become entirely residential. More land will be required for the facs. of med. and new facs. The main bldgs. are being erected to a plan formulated by Sir Patrick Abercrombie and C. Holliday.

**CONSTITUTION.** The corporation known as the Univ. of Ceylon (establd. under the Ceylon Univ. ordinance no. 20 of 1942) consists of the chancellor (the governor-general), the pro-chancellor (the minister of education), the vice-chancellor, the court, the council and the senate. Financial and

legislative control is vested in the court, which consists of the chancellor, pro-chancellor, vice-chancellor, members of the council, profs and other hds. of depts., reps. of the facs., gads., parliament and other bodies and certain nominated members. The council is the exec. body of the univ. In academic matters it acts on the advice of the senate, which in many matters acts on the recommendation of the facs.

## AFFILIATED INSTITUTIONS

Affiliated to the univ. are 15 Pirivenas (inns. of oriental studies) whose students are eligible to sit the exams. of the univ. as internal students.

## GENERAL INFORMATION

The Vidyalandara Pirivena had from small beginnings in 1873 gradually developed into an important seat of learning which produced several eminent scholars. In recognition of the contribution made to the cause of educn. and natl. culture during 84 yrs., the Pirivena was raised to univ. status as the Vidyalandara Univ. of Ceylon which was establd. on Jan. 1, 1959, by act of parliament.

The univ. is situated in a suburb 6 miles N. of Colombo, the capital of Ceylon.

CONSTITUTION. The chancellor, pro-chancellor, vice-chancellor and the members for the time being of the court, the council and the senate form the corporation known as the Vidyalandara Univ. of Ceylon.

INCOME. At present the univ. has no endowments and is financed by an annual govt. grant.

FACULTIES. Arts, Buddhist studies; languages; philosophy. A fac. of sci. is planned for 1964-65.

UNIVERSITY PRECINCT. There is no room for development in the present precinct of about 10 acres of land, pt. of which is low-lying and unsuitable for bldg. purposes. The bldgs. for the sec. fac. are therefore being constructed in a spacious block of land about a mile distant from the present precinct.

LIBRARY. About 20,000 vols. The sci. depts. will have a sep. library.

THE LANGUAGE OF INSTRUCTION is Sinhala. English is taught as a 2nd lang. to all students who have not passed in the subj. at the exam. for the Ceylon General Cert. of Educn.

STUDENTS. There are 743 students at present in the univ., about 25 per cent. of whom are provided with residential accomm. in hostels. 36 students have after a 3-yr. course of study passed the final exam. held for the 1st time and were eligible to receive the BA degree at the gen. convocation in Sept. 1962.

## GENERAL INFORMATION

The Vidyodaya Univ of Ceylon came into existence on Jan. 1, 1959, on the enactment of the Vidyodaya and Vidyasankara Univs Act No. 45 of 1958. The Univ was formally inaugurated on Feb. 18, 1959, at a ceremony presided over by the chancellor of the Univ. The nucleus of the Univ was Vidyodaya Parivana of Mahagankanda, Colombo, which was founded in 1873 by the late Ven Hikkadure Sri Samanagala Nayaka Thero with the assistance of the Vidyodaya Sabha formed to promote and disseminate the knowledge of Buddhism and oriental authors among both Ceylonese and foreigners. This instn was for 86 yrs the premier seat of Buddhist and oriental learning in Ceylon. It was in recognition and appreciation of the work done by this instn that it was raised to Univ status in 1959.

**CONSTITUTION.** The corporation known as the Vidyodaya Univ of Ceylon is made up of the chancellor, the pro-chancellor, the vice-chancellor, the council and the senate. *Ex officio* the govt.-general of Ceylon is chancellor and the minister of education is pro-chancellor. The vice-chancellor is an eminent Buddhist scholar appointed by the chancellor on the recommendation of the court. He is the principal executive and academic officer of the Univ. Financial and legislative control is vested in the court. The council and the senate are the exec and academic bodies respectively.

## GENERAL INFORMATION

The creation of a Univ. of E. Africa was first proposed in 1958 by the working party on higher education in E. Africa led by Dr J. F. (now Sir John) Lockwood, master of Balliol Coll., Univ. of London. After acceptance in principle by the Inter-University Council for Higher Education Overseas, the 3 E. African govts and the coll. councils, the proposal was confirmed by the white papers issued by the E. African govts in 1959 and by the quinquennial advisory cttee. on higher education in E. Africa (1960). Great interest was also expressed by the conference on E. African education called at Princeton, New Jersey, in December 1960, by the American Council on Education, which gave the scheme its full support.

A provisional council has been functioning since June 1961, with the object of establishing an examining and degree-granting Univ. of E. Africa, consisting of the existing colls. (about which information is given below on pp. 428-437): the Royal Coll., Nairobi; the Univ. Coll., Dar es Salaam; Makerere Univ. Coll. This council is fully supported by the 3 univ. colls. and by the govts of Kenya, Uganda, Tanganyika and Zanzibar; by the Inter-University Council for Higher Education Overseas; and by the Africa Liaison Cttee. of the American Council on Education.

It is hoped that the Univ. of E. Africa will come into being on July 1, 1963, by an enactment of the central legislative assembly of the E. African common services organisation. The univ. will award its own degrees, the standard and recognition of which will be safeguarded in a number of ways.

The constituent colls. will retain their respective identities and will make their own academic appts., though with univ. representation in the selection of profs., readers and hds. of depts. In general, the colls. will remain responsible for the teaching and res. work of the univ., while enjoying and benefiting from a broader academic assocn.

The secretary to the provisional council and registrar designate of the univ. is occupying office at present in Entebbe, provided by the Uganda govt.

**CONSTITUTION** The constitution of the univ. has not yet been finally adopted, but the following is the form proposed.

The univ. will consist of the chancellor, vice-chancellor, principals of the constituent colls., council, senate and convocation (in which grad. of the univ. will predominate); the members of the councils of the constituent colls.; certain officers of the univ. and of its colls., the profs., lects. and other teachers of the constituent colls., and the students of those colls.

The chancellor, to be elected by a constituency comprising convocation and the councils of the univ. and its constituent colls., to be hds. of the univ. and, as such, to be empowered, in name of univ., to confer all degrees. The vice-chancellor, chosen for a 3-yr. term from among principals of constituent colls., to be *ex-officio* chairman of senate and to exercise gen. supervision over academic affairs of univ.

The govt. of univ. to be vested in a council with lav. representation from the 3 E. African

territories, the councils of the constituent colleges and academic representatives from the academic bodies of the colleges. Council to appoint members from univ. and educn. orgns. outside E. Africa, and convocation eventually to elect 3 members.

The senate, responsible for academic matters, to consist of the principals of the constituent colleges, the deans of the univ. facs. and members elected by the college academic bodies.

**ADMISSION** (see also separate colleges). For registration as candidates for 1st degrees of the univ., min. requirements will approximate to those of British univs. and include passes at advanced level in 2 subs. in G.C.E. or its equivalent, with particular groupings of 'A' level passes for admission to certain professional schools. Provision will also be made for 'mature age' entry for selected candidates over age of 25.

**FIRST DEGREES** (see also separate colleges). BA—3 yrs.; BSc—3 yrs. For either of these degrees,

candidates will offer 3 subs. in the 1st yr. Thereafter, there will be 3 alternative routes to the degree: (a) 2 subs. in each of the 2nd and 3rd yrs., or (b) 2 subs. in 2nd yr. and 1 sub. in 3rd yr., or (c) 1 sub. in both 2nd and 3rd yrs. Honours will be awarded to any candidate attaining a prescribed standard in the final exams, whatever the type of curriculum.

The structure of 1st degrees in the professional schools (agric., educn. and med. at Makerere Univ. Coll.; engin., archit. and vet. sci. at the Royal Coll.; law at the Univ. Coll., Dar es Salaam) is under consideration.

**HIGHER DEGREES**. Provision will be made for master's degrees, for a PhD in all facs., and for 2nd doctorates.

**DIPLOMAS, CERTIFICATES, ETC.** The univ. will itself award dipl. and certs. in certain fields, but the constituent colleges will retain the right of making other college awards of this nature.

## GENERAL INFORMATION

The Royal Coll., Nairobi (incorporating the Gandhi Memorial Academy) was founded in 1934 as the Royal Tech. Coll. of E. Africa and became the second inter-territorial univ. coll. in E. Africa in Jan. 1961. There is no distinction of race or creed.

It is situated in Nairobi (pop. 250,000), the capital of Kenya.

The Royal Coll. is an autonomous body governed by its own coll. council. It is at present

in a scheme of spec. relationship\* with the Univ. of London and offers grad. degrees of that univ. in arts and soc. as well as the BSc(Eng).

For proposed assocn. in Univ. of E. Africa, see p. 426

**INCOME.** Total for yr. ending June 30, 1962, was £449,285 (Rockefeller grants, 0.8 per cent., Colonial Development & Welfare grants, 23.3 per cent., govt. grants, 61.4 per cent.; investment

\* For a note on these 'special relationship' arrangements, see p. 1074

income, 2.6 per cent., endowments, 0.3 per cent., fees, 10.4 per cent.; rents receivable, 1.1 per cent.; donations, 0.1 per cent.)

**UNIVERSITY PRINCIPAL.** Campus is situated on edge of centre of Nairobi and includes such new bldgs as a main library, sci. bldg. for phys. and chem., a civil engin. bldg. and an admin. block.

**LIBRARY.** 50,000 vols.

**ADMISSION.** (See also p. 427) Entry to faculties of arts, engin. and sci. is at higher school certificate or G.C.E. (principal or advanced) level with a min. of 2 advanced or principal level passes in selected subj. in accordance with the requirements of the Univ. of London. Students are not normally allowed to enrol as 'occasional students' or 'auditors'.

**FIRST DEGREE.** (See also p. 427) Courses are provided for BA, BSc and BSc(Eng), honours being awarded at end of 3-yr. courses.

For BA gen. degree, students take any 3 of the following subj. for 3 yrs.: econ., Engl., geog., hist., maths. The BSc gen. degree requires students to take 3 of the following subj. in their 1st yr.: bot., chem., geog., geol., maths., phys., zool. Having passed pt. I exam. at end of 1st yr., candidates then take 2 of their 3 subj. for 2nd and 3rd yrs. of course. All BSc(Eng) students take maths., strength of materials and structures, mechanics of machines, engin. drawing, mechanics of fluids, appl. heat, appl. electr. in their 1st yr. and then divide into civil, electr. and mech. engin. specializations for remaining 2 yrs.

**HIGHER DEGREE.** No facilities for higher degrees at present.

**OTHER COURSES.** Students are admitted at Cambridge Overseas Sch. Cert. level with 5 credits, 1 of which must be in Engl. lang., to depts. of art, archt., dom. sci., land surv. and quantity surv. Students of art take a 3-yr. Royal Coll. dipl. course, those in dom. sci. art entered for a teachers' dipl. recognized by Univ. of Manchester while those in archt., land and quantity surv. are entered for the exams of appropriate professional instns.

**RESEARCH.** Activities are at present confined to the academic staff.

**STUDY LEAVE.** is granted where it is possible for temp. replacements to be found.

**FEES.** Residence, £125 p.a. Tuition, £42 p.a. (arts and sci.); £51 p.a. (engin.). They are covered by govt. bursaries from the 3 E. African territories.

**ACADEMIC YEAR.** Oct. to June, 3 ten-wk terms. By 1966-67 it will run from May to March with long vac. in July-Sept.

**STUDENT RESIDENCES.** 4 men's halls of residence house 400 men students and Lady Sydney Hall houses 100 women students (Address & tel. no. for main coll.; for dean and students, see 'Admin. and Other Staff', above.) The coll. is predominantly residential.

**STAFF RESIDENCES.** Academic staff are housed in flats or houses owned or rented by the coll.

**HEALTH SERVICE.** Med. scheme for staff and students and an infirmary staffed by a full-time nursing sister. (For med. staff, see 'Admin. and Other Staff', above.)

## GENERAL INFORMATION

Makerere Coll., founded in 1922 as a Uganda govt. tech. sch., so developed the scope and standard of its courses and the range of its membership that it was recognized 15 yrs. later as the centre of higher studies in E. Africa. The report of the De la Warr commission (1937) recommended its devel. to univ. coll. and later to univ. status. It was reconstituted as an independent coll. with strong support and encouragement both in E. Africa and from the U.K., and after the 1939-45 war when further devel. became possible the Asquith commission confirmed the policy adopted in 1938. Moreover the scheme of spec. reln.\* with the Univ. of London which the commission proposed offered the solution to the problem of how the aims of this policy were to be achieved. The coll. was admitted into spec. reln. in 1949 and courses leading to gen. degrees in arts and sci. were instituted in the following yr.

The coll. is wholly residential. It is open to all students, regardless of race, colour and religion, who have the academic qualifs. necessary for admission. Entries are accepted from any of the E. African territories, i.e. Kenya, Uganda, Tanganyika and Zanzibar. There is a limited number of places for students from other territories.

The coll. is situated on Makerere hill, and the med. school (address: P.O. Box 2072, Kampala) on the adjacent hill of Mulago, both on the outskirts of Kampala (capital of Uganda). The farm for the fac. of agric. is at Kabanyolo, 13 miles from Kampala.

A major bldg. programme has been undertaken since 1948, financed mainly by grants of £3½ millions from C.D. & W. funds. This includes a library, new teaching and res. bldgs. on all facs., 5 halls of residence, and accom. for staff.

Now that a other E. African univ. colls. have been established in Nairobi and Dar es Salaam, the coll. has agreed to join with them in constituting a Univ. of E. Africa (see p. 426). The intention is to establish the univ. in 1963. Meanwhile the coll. is arranging to share some of its former commitments with the other colls. The Tanganyika branch of its dept. of extra-mural studies and the E. A. Swahili cttee. have been transferred to U.C., Dar es Salaam, and the fac. of vet. sci.

which is concentrated at Kabete, near Nairobi, has been transferred to the Royal Coll.

**CONSTITUTION** This follows closely the pattern of the English civic univs., with a council consisting of lay and academic members as the governing body, and an academic bd. responsible for all academic matters.

**INCOME** (1960-61) £663,406 (endowments, 4 per cent.; govt. grants, 90 per cent.; tuition fees, 5 per cent., med., 1 per cent.).

**FACULTIES AND DEANS.** *Agric.*, Dr. Margaret A. Keny (agric. bial.), *arts*, Prof. G. Watson (Engl.), *educn.*, J. A. Bright (lang. method); *med.*, Prof. J. A. Tulloch, *sci.*, Prof. M. Crawford (chem.)

**LIBRARIES** Main library, approx. 70,000 vols., sub-library at med. sch., approx. 16,000 vols.

**LABORATORIES** Bot., chem., geol., phys.; agric. bot., agric. chem., agric. zool., anat. (incl. histol.), physiol. (incl. biochem.), pathol., cancer res., pharmacol., med. microbiol.

**Small OBSERVATORY** (dept. of phys.), med. and zool. museums, bot. garden; rural health centre (dept. of preventive med.)

**CHAPELS AND MOSQUE.** There are a chapel (the chapel of St. Augustine for Roman Catholics) and the chapel of St. Francis for members of other branches of the church) and a mosque.

**TEACHING HOSPITAL.** Govt. hosp. at Mulago, Kampala, on the same site as the med. sch.

**FACILITIES OF SPECIAL INSTITUTIONS.** The East African Inst. of Soc. Res. is administered by the coll. Its main function is field res. in Uganda, Kenya, Tanganyika and Zanzibar, covering anthropol. studies in particular tribes, or urban surveys and comparative studies of particular aspects of problems of interest to all E. African territories in the field of sociol., econ., psychol., public admin. and law, and linguistic res.

**ADMISSION** See Univ. of E. Africa entry (p. 427)

## COLLEGE IN SPECIAL RELATIONSHIP

UNIVERSITY COLLEGE OF CAPE COAST, Private Bag, Cape Coast, Ghana. 90 miles W of Accra, the coll. will provide courses approved by the Univ. of Ghana which, under a scheme of spec

relationship, lead to degrees of that univ. The first students are being admitted in Oct. 1962. Principal—C. A. Aduah, MA PhD *Law*. Registrar—K. A. Obese-Jetty, BA *Law*

## GENERAL INFORMATION

The univ. is an independent instn., governed by a council which was incorporated by the Univ. Act 1961 (Act 79 of Aug. 22, 1961). It grew out of the Univ. Coll. of Ghana which existed between 1948 and 1961.

**CONSTITUTION.** The academic bd. consists of all profs and hds. of depts., hrs. of insts. and schools, profs., assoc. profs. and one elected representative of a dept. The fac. bds., the finance cttee. and other bodies, all consist of members of the academic bd.

**INCOME (1960-61).** Total: £1,006,700 (govt. grant, £865,000; fees, £75,200; other income, £66,500)

**FACULTIES.** Agric., arts & soc. studies, sci.

**UNIVERSITY PREMISES.** All depts. and all students are housed in new bldgs. on the post-nominate site at Legon, an area of 5 sq. miles near Accra, presented by the govt. The first phase of devel. to be completed in 1963, provides for a fully residential coll. of 1000 students. The ultimate devel. is planned for 5000 students.

**LIBRARY.** 150,269 vols., more than 3394 periodicals are taken. African collection.

**BOTANICAL GARDEN.** GEOPHYSICAL RES. STN. AGRIC. RES. STNS. at Nungur, Kade and Kpong.

**INSTITUTE OF EDUCATION** (see also 'Teaching Staff', above). Provides 1-vi courses for grade- and non-grade. (see 'Certificates', below)

**INSTITUTE OF PUBLIC EDUCATION** (see also 'Teaching Staff', above). This new national inst. will take over the functions of the Inst. of Extra-Mural Studies of the Univ. of Ghana and the People's Educn. Asscn. The inst. will under the Council for Higher Educn. provide pt-time degree courses of the Univ. of Ghana and the Kwame Nkrumah Univ. of Sci. and Technol. in workers' colls. and adult residential colls.

**ADMISSION.** The requirements for admission are expressed in terms of the General Cert of

Education and are the same as those of the Univ. of London (see Appendix III). Admission is open to men and women of all nationalities.

**FIRST DEGREE.** All students must take a common 1st-yr. course in either arts or sci. Thereafter, a 2-yr. course leads to BA gen., BA hon. ## GENERAL INFORMATION

In 1887 Sir Patrick Manson, GCMG, started the Hong Kong Coll. of Medicine for the Chinese in the Alcock Memorial Hosp. opened the same yr as a London Missionary Soc. foundation. As students of non-Chinese other than Chinese began to join the coll., the words 'for the Chinese' were struck out of the title in 1907, and the institution was incorporated as 'The Hong Kong College of Medicine'

The coll. offered to amalgamate in a univ., and in March 1911 the Univ. of Hong Kong was incorporated by a local ordinance, embodying the principles of religious tolerance and racial neutrality. H. M. Govt. guaranteed funds for the foundation of 'King Edward VII' scholrs, awarded on entrance exam results. The univ. was opened in March 1922, in a bldg. donated by Sir Haimongre Mody, with facs of med and engin. A tat. of arts

was organized in the following yr., a fac. of sci. in 1939 and a fac. of archit. in 1951. The last was combined with the fac. of engin. in 1958.

A plan has been adopted for the univ.'s expansion which will result in the increase of undergrads to about 1800 by 1965. Degree courses in electr. and mech. engin. have been reinstated, and plans are in preparation for degree courses in dent.

**CONSTITUTION.** The supreme governing body of the univ. is the court, with the governor of Hong Kong as chancellor and chairman. The executive body is the council, composed of the vice-chancellor, the treasurer, the colonial sec., the deans of the facs, 4 members apptd. by the chancellor, 3 elected by the court and 1 elected by the senate. The senate, which deals with academic matters, is composed of the vice-chancellor, the dir. of educn., the profs. and the hds. of teaching depts. who are not profs.

**RECURRENT INCOME (1960-61).** (HK \$16=£1) Interest on investments, \$3,217,211, fees, \$2,241,062, govt. subventions, \$7,936,912; other sources, \$100,953, total, \$13,496,138.

**FACULTIES AND DEANS.** *Arts*, Prof. B. Harrison (hist.); *engin. & archit.*, Prof. S. Mackey (civ. engin.); *med.*, Prof. A. R. Hodgson (orthop. surg.); *sci.*, Dr. I. W. B. Thornton (cool).

**LIBRARIES.** Univ. libr. over 125,000 vols. in Engl. and other European langs., receives over 1300 journals; Fung Ping Shan Chinese section over 123,000 Chinese vols. (incl. 2300 Japanese vols.) and receives 105 current Chinese journals. Sp. collections incl. Hankow collection of invaluable source material on relations between China and the west during the Ch'ing dynasty; and Morrison collection of 2748 vols. incl. some of antiquarian value in the fields of oriental and biblical lit.

**TEACHING HOSPITALS.** Queen Mary H., Tsan Yuk H.

**INSTITUTE OF ORIENTAL STUDIES** (see p. 452). The Inst. of Oriental Studies provides facilities for study of the Mandarin and Cantonese langs. to colonial administration service officers and lang. officers of the army and air force, and for res. in various fields of Far Eastern study.

**ADMISSION.** Minimum qualifi., attainment of age 17; medical exam. of fitness; success in the Univ. of Hong Kong matric. exam. (passes in Engl., a second lang., a sci. or maths subj., 2 subs. at the advanced level and at least 3 subs. at one exam.). In addition there are various fac. requirements.

**EXTERNAL STUDENTS.** Applicants whose educn. standards in Engl. lang. and in the subjects of their choice are considered adequate by the h.d. of dept. concerned may be admitted as external students but may not take exams. of the univ. There are about 25 external students, mostly attending courses in the arts subjects, and 74 lang. sch. students.

**FIRST DEGREES.** 3 yrs.—BA (pass, hons.), BSc general (pass, hons.), BSc(Eng) (pass, hons.), 4

yrs.—BSc special (hons.), 5 yrs.—BArch (pass, hons.), 5 yrs.—MB BS (pass, hons.). The min. residence in the univ. for graduation is 3 yrs., except where individual exemption is given. Students reading for BA may select courses from one, two, or three of the following: Chinese, econ. & pol. sci., Engl., geog. & geol., hist., maths, mod. langs., philos. Courses for BA pass and hons. are identical (hons. awarded on result of final exam.).

Students reading for BSc (gen.) may select from following subs. (3 for 1st yr., 2 for 3rd yr.): bot., chem., maths., phys., zool. (hons. awarded on result of final exam.). Students in sci. courses are required to graduate with BSc (gen.) degree before being permitted to read during 1 further yr. for BSc special degree in chem., phys., bot., zool., pure maths., or appl. maths.

**HIGHER DEGREES.** MA, MSc, MSc(Eng)—conferred on grads. of the univ. or of approved univs. after advanced work extending over at least 2 yrs. MAEd—conferred on suitably experienced grads. of the univ. or of approved univs., holding DipEd of the univ. or other recog. qualif. after not less than 2 yrs.' full-time or 3 yrs.' pt.-time study. ## THE UNIVERSITIES OF INDIA

[Contributed by Mr. S. R. Dongikery, Vice-Chancellor of Marathwada University]

**HISTORY.** Modern university education in India dates from the foundation of the universities of Calcutta, Bombay and Madras in 1857. Educational institutions comparable to the universities of to-day did not exist in pre-Aryan India. Glorification of the idea of a university can be seen in the colleges and schools for advanced study attached to temples, where the Aryans provided education in religious and secular subjects for their youth. The *gurukula* where the guru or teacher imparted the knowledge of the Vedas to the *shishyas* or pupils entrusted to his care was more a residential college than a university, *masirichi* as, beyond providing intimate contacts between the teacher and his pupils, it did not afford opportunities for the association of teachers. Such opportunities were, however, provided by *parishads* or conferences of teachers and scholars organised from time to time. By granting recognition to scholars who exhibited their learning before them, these *parishads* performed one of the functions of a modern university.

Takshashila or Taxila, in Kandahar, the most important of the earliest known seats of learning in ancient India, became a university centre in the seventh century B.C. It flourished for nearly ten centuries as a university to which scholars and students were attracted from all parts of India. Similar university centres sprang up at Ujjain, Valabhi, Vikramshila, Benares and Kanchni (Kanchipuram). At one time, the University of Nalanda in the north (Bihar) and that of Kanchni in the south attained celebrity as centres of Indian culture and scholarship.

With the spread of Buddhism, the *sthanas*, or monasteries, developed into centres of learning which attracted lay students by the fame of their teachers. These *sthanas*, which, unlike the old *gurukulas*, had many teachers in residence, approximated to the modern idea of a university. About A.D. 425, Kumaragupta I, a devout Hindu, founded the *sangharanika* (college) of Nalanda as a residential university. Before him, the Emperor Asoka had built a temple and a *vihara* at the same place. Kumaragupta's successors built more *sangharanikas*. The University of Nalanda possessed eight *sangharanikas*, three extensive libraries and an observatory. It flourished till the thirteenth century A.D., when it was destroyed by invaders. Theology and philosophy were compulsory subjects of study at the university. Great importance was also attached to the teaching of the various systems of logic. The curricula included astronomy, grammar and medicine. The reputation of the great scholars who taught at Nalanda spread not only throughout the length and breadth of India, but even beyond its borders,

and attracted students from China, Tibet and Ceylon. Nalanda had, at one time, as many as ten thousand students and teachers. The method of instruction consisted of individual tuition and guidance rather than formal lectures. The students derived great benefit by listening to the discussions which took place among their teachers. Close personal contacts were established between the teachers and the taught.

Some of these ancient seats of learning continued to thrive even after the Muslim conquest of India, although the Muslim rulers encouraged the setting up of *madrasas*, or colleges, in different parts of India, e.g. at Lahore, Delhi, Rampur, Lucknow, Allahabad and Jaunpur. The subjects of study in the *madrasas* included theology, grammar, logic, rhetoric, law, geometry, astronomy and metaphysics. While Sanskrit was the medium of instruction in the Hindu centres of learning, Arabic was the chief medium in the *madrasas*.

When the East India Company came on the scene, it was in no hurry to change the indigenous systems of education. On the contrary, it established the Calcutta Madrasah and the Benares Sanskrit College on the traditional pattern, with the avowed purpose of preserving and cultivating the laws, literature and religion of the people and training young Indians for the administrative and judicial services. The renewed charter of the East India Company, in 1813, contained a clause stipulating that 'a sum of not less than one lakh of rupees in each year shall be set apart and applied to the revival and improvement of literature, and for the introduction and promotion of knowledge of the sciences among the inhabitants of the British territories in India'. Under the leadership of Raja Rammohan Roy, the Hindu College was founded in Calcutta, in 1817, to provide instruction in the European languages and science. In Bombay, Mountstuart Elphinstone advocated the establishment of schools for teaching English and the European sciences. 'The Elphinstone Institution was founded in Bombay' in 1824, to train persons for high employment in the civil administration. European missionaries, too, were active during this period, establishing schools in the presidency towns for imparting western education through the English language. A controversy arose between those who wanted to impart instruction through Sanskrit and Arabic and those who wanted to do so through English, which provided the occasion for Macaulay's famous minute. Endorsing this minute, the governor-general in council passed a resolution on March 7, 1835, declaring that the great object of the British government ought to be to promote

European literature and science among the Indian people and to employ all funds allocated to education on English education alone. The controversy, in Bombay, over the medium of instruction was settled in favour of English, in 1843. In 1845 the Bengal Council of Education proposed to the court of directors of the East India Company the establishment of a university at Calcutta, but the proposal was turned down as premature.

The next landmark is the dispatch of 1854 of Sir Charles Wood, sometimes called the 'Magna Carta of English education in India', but which may more accurately be described as the *forerunner* of the modern universities of India. This historic document impressed upon the government of India the duty of creating a properly articulated system of education from the primary school to the university, and recommended, *inter alia*, the institution of universities in the presidency towns of Calcutta, Bombay and Madras. It stated that the object of establishing universities was to encourage 'a regular and liberal course of education by conferring academical degrees as evidences of attainment in the different branches of arts and science'. It held out the University of London as a model which might be followed with advantage in India. The dispatch further advised the institution of professorships at the universities in various branches of learning. The educational policy outlined in it was implemented by the establishment of the universities of Calcutta, Bombay and Madras in 1857.

The jurisdiction of the University of Calcutta, extending from the Punjab in the west to Burma in the east, covered practically the whole of north India, while that of the other two universities was restricted to the respective presidencies. For twenty-five years these three universities catered for the educational needs of the whole country. The universities continued to be purely examining and affiliating bodies. To meet the increasing needs of the student population as well as to relieve Calcutta University of its heavy burden, two new universities were created—the University of the Punjab (now in Pakistan), in 1882, and the University of Allahabad, in 1887. Both these universities followed the example of the three earlier ones by confining their activities to examination and affiliation. No addition was made to these universities till 1916, although, meanwhile, higher education was rapidly expanding.

The next landmark in university education is the appointment, during Lord Curzon's viceroyalty, of the Universities Commission of 1902. The important recommendations of this commission were (i) that the senates of the universities should be limited in size, (ii) that teaching powers should be conferred on the universities, (iii) that they should be given greater control over the affiliated colleges and (iv) that they should undertake research. These reforms, incorporated in the Indian Universities Act of 1904, enabled the five existing universities to improve their efficiency by assuming teaching functions, exercising an

effective check over their affiliated colleges and encouraging research.

The next stage in the progress of university education is indicated by the government of India's resolution, published in 1913, which urged that the area of jurisdiction of the existing affiliating universities be reduced so as to provide a separate university for each of the leading provinces, and that simultaneously new local teaching and residential universities be created in each province in harmony with the best modern educational opinion. Government announced their intention to establish teaching and residential universities at Dacca, Aligarh and Banaras, and additional universities at Patna and Nagpur, and expressed their desire that the existing universities should provide and develop teaching facilities and encourage a corporate life which would advance higher study and create an atmosphere conducive to social and moral as well as intellectual progress.

Banaras Hindu University was founded in 1915. It was intended to be a live centre of Hindu culture and to promote the study of the applied sciences, and was the first denominational university to be established in India. Patna University was founded, in 1917, as an affiliating university to cater for the educational needs of the new province of Bihar and Orissa. Aligarh Muslim University, which developed from the Mahomedan Anglo-Oriental College, founded in 1875, was established in 1920 to serve the special cultural and educational needs of the Muslim community. In 1916, the University of Mysore, the first university in an Indian state, was created by the Mysore legislature.

In 1917 the government of India appointed the Calcutta University Commission under the chairmanship of Sir Michael Sadler, which was to have a profound influence on the subsequent progress of secondary and university education in India. The terms of reference of this commission included problems of secondary education as well as those covering all aspects of collegiate and university education. The recommendations of the commission have affected subsequent university legislation in different parts of India. One was the creation of intermediate colleges and boards of secondary and intermediate education. Another was the creation of teaching and residential universities. The universities of Aligarh, Lucknow, Dacca (now in Pakistan) and Delhi, established between 1920 and 1922, followed the model suggested by it. The commission recommended less government control, a greater participation by teachers in the government of the universities, a closer co-operation between the universities and the colleges and the appointment of full-time vice-chancellors. Most of these reforms have been adopted by the older universities and incorporated in the constitutions of the more recent ones. Osmania University was founded at Hyderabad (Deccan), in 1918, before the Calcutta University Commission's report was published. An outstanding feature of this university was the adoption of Urdu, the language

of the state, as the medium of instruction. Since the merger of the states in the Indian union, English has been adopted as the medium of instruction in the colleges of the university, while in a few of them parallel classes are conducted in Hindustani.

The decade following the publication of the Sadler Commission's report witnessed a spate of university activity throughout the country. Aligarh Muslim University (1920) and the universities of Lucknow (1921), Dacca (1921), Delhi (1922), Nagpur (1923), Andhra (1926), Agri (1927) and Annamalai (1929) followed one another in rapid succession. Many of these were unitary, teaching and residential universities. The years between 1929 and 1937 were lean years for university activity. The founding in 1937 of the University of Travancore (now the University of Kerala), the third in an Indian state, gave a signal for the revival of the university movement which, after a slight set-back during the second world war, gained renewed vigour, resulting in the establishment of Utkal University (1943), Saurashtra University (1946), Rajasthan University (1947). Since the attainment of independence by India, twenty-eight more universities have come into existence, namely, Punjab University (1947), Gauhati University (1948), the University of Poona (1948), Jammu and Kashmir (1948), Mahatma Sayajirao University of Baroda (1949), Roorkee University (1949), Gujarat University (1949), Karnataka University (1950), Shreepati Nathibai Damodar Thackersey Women's University (1951), Vija-Bharati (1951), Bihar University (1952), Sri Venkateswara University (1954), Jadavpur University (1955), Sairdar Vallabhbhai Vidyapeeth (1955), Gorakhpur University (1956), Indira Kala Sangraha Vishwavidyalaya, Kharagpur (1956), Vikram University (1957), Jabalpur University (1957), Kurukshetra University (1957), Mamthaada University (1958), Varanaseya Sanskrit Vishwavidyalaya, Varanasi Cantonment (1958), the University of Burdwan in West Bengal (1956), Bhagalpur University, Bhagalpur (Bihar) (1960), Ranchi University, Ranchi (1960), U.P. Agricultural University, Pant Nagar (Naini Tal District) (1960), Darbhanga University, Darbhanga (Bihar) (1960), Kalyani University (West Bengal) (1961), Magadh University, Gaya (1962).

The Shreepati Nathibai Damodar Thackersey Women's University and Vija-Bharati, though established by private agencies in 1916 and 1921 respectively, became statutory universities under acts passed in 1949 by the Bombay government and in 1951 the central government respectively. Sairdar Vallabhbhai Vidyapeeth, which was an offshoot of Gujarat University, was founded in 1935 and is a teaching and affiliating university.

In addition to the above-mentioned universities the Indian Institute of Science, Bangalore, the Indian School of International Studies, New Delhi; Jinnu Milla, Jinnu Nagar, New Delhi, and Gusevali Kungu, Saharapur (U.P.), are deemed to be universities under section 3 of the University Grants Commission Act (1956).

In seventeen universities (Andhra, Bombay, Calcutta, Delhi, Gauhati, Jadavpur, Jammu and Kashmir, Karnataka, Kerala, Madras, Marathwada, Orissa, Punjab, Rajasthan, Roorkee, Sri Venkateswara and Utkal) English is the sole medium of instruction. In the others it is English and Hindi or English and the mother-tongue, alternatively, except in the Shreepati Nathibai Damodar Thackersey Women's University where it is the student's mother-tongue, and the Sairdar Vallabhbhai Vidyapeeth where it is Hindi.

Four important reports dealing with university education were published after that of the Calcutta University Commission, viz. (1) the Hastig Committee's report (1929), (2) the report of the Punjab University Committee (1933), (3) the report of the Central Advisory Board of Education on post-war educational development in India (1944) (known as the Sargent report) and the report of the University Education Commission (1949), presided over by Dr. Radhakrishnan.

The Hastig report was in the nature of a review of the growth of education in British India. It contains some observations on the importance of a corporate life in universities. The authors also observe that the requirements of India cannot be met solely by unitary universities, and that the affiliating university is likely to remain for many years. The Punjab University Enquiry Committee's report did not produce any appreciable change in the constitution of that university on account of the unwillingness of the senate to implement its recommendations, valuable though they were. The Sargent report drew attention to crying defects in the Indian university system, such as the undue importance attached to examinations, the emphasis on book-learning as contrasted with original thinking, the lack of personal contacts between teachers and students, the dependence of universities on examination fees, the absence of schemes for assisting poor but able students and the need for additional universities. Among its important recommendations were the following: (1) that the duration of the degree course should be reduced from four to three years by adding one year of the intermediate course to the schools without lowering standards, (2) that one-third of the students at universities should receive assistance from government by way of scholarships and maintenance grants, and (3) that a University Grants Committee on the lines of the U.G.C. of Great Britain should be constituted.

The report of the University Education Commission (1949) is the most recent, authoritative and comprehensive document on the subject of university education in India. The second world war and the achievement of India's independence, accompanied by the partition of the country, hastened the need for a complete and comprehensive enquiry into all aspects of university education, as it was realised that the uncoordinated of the country's educational policy to meet the future requirements was one of the first essential

steps in her national progress. The report gives to the teacher the place which, though due, has been denied to him hitherto in the educational structure, a place above books and curricula, buildings and equipment, administration and the rest. It recommended suitable scales of salary for university teachers in keeping with their importance and status so that the best men and women would be attracted to the profession, the raising of the age of superannuation from 55 to 60, with extensions up to 64 in special cases, so that ripe scholarship and experience should not be lost to the country, and more congenial conditions of work. Deploying the colossal wastage resulting from the failure of students at university examinations, the commission recommended the raising of the level of education in secondary schools, the provision of occupational institutes to divert students, unfit for university education, to suitable vocations, the raising of the standard of admission to universities, the increase in the duration of pass and honours degree courses from two to three years, the raising of the percentage of marks prescribed for passing degree examinations, credit for class work throughout the degree course and other reforms in the examination system, restrictions on the admissions to colleges, compulsory tutorial classes for undergraduates and the introduction of courses in general education. One of the important chapters of the report is on the problem of the medium of instruction which is facing the Indian universities to-day. While recommending the compulsory study of English as a subject, the commission realized the inevitability of English giving place as the medium of instruction to an Indian language, sooner or later, and accordingly recommended that it be replaced by an Indian language other than Sanskrit, that Hindi be developed through the assimilation of words from different sources, including those forming the international technical and scientific terminology, and that universities should be free to use Hindi as the medium of instruction for some or all subjects as an alternative to the regional language. The commission pointed out that pupils at the higher secondary and university stages will need to learn at least three languages—the regional language, the federal language (Hindi) and English. The report recommended the inclusion of university education in the concurrent legislative list (the list of matters falling within the jurisdiction of the central as well as the state legislatures) and the contribution by the centre (to the extent of 50 per cent) to the cost of postgraduate and research work in the universities, in addition to capital grants for buildings and equipment and the setting up of a University Grants Commission.

Since the publication of the report of the University Education Commission in 1949, two important events have occurred in the educational history of India, which have had far-reaching consequences on university education in the country, namely, the publication of the report of the Secondary Education Commission in 1952-53

and the setting up of a University Grants Commission in 1956 by an act of the Indian parliament.

By its terms of reference the Secondary Education Commission was asked to report on the position of secondary education in India in all its aspects and to suggest measures for its reorganization and improvement. In making its recommendations, the commission, while expressing its anxiety not to encroach on the purview of the universities, nevertheless strongly advocated the advisability of abolishing the intermediate stage in the four-year degree course in arts and science, increasing the period of secondary education by one year, and planning a three-year degree course at the university stage. By a strange irony, the universities, with one solitary exception (Bombay), agreed in principle to accept the pattern of the three-year degree course recommended by the commission, and many of them have implemented this course long before the introduction of the reform of the addition of one year at the secondary stage on a wide scale. The result has been that the affiliated colleges have undertaken the responsibility of conducting the pre-university course, and may be obliged to continue to do so for a long time.

By virtue of the enlarged powers given to it by statute, the University Grants Commission is able effectively to promote and co-ordinate university education, maintain standards and assist universities with funds to expand their activities. Realizing the importance of raising standards of university education, the commission has given top priority to the improvement of libraries and laboratories, by making grants to universities and to affiliated colleges, and of the quality of teaching by subsidizing the increased scales of salaries of university and college teachers. It has also made grants to affiliated colleges to meet the additional expenditure incurred by them in introducing the integrated three-year degree course. It also makes grants to universities for postgraduate work and research. The universities find it much easier to get financial assistance from the commission than from the government direct, on account of the less formal relations and better understanding existing between them and the commission, with which they are in close and constant touch (see also pp. 464-465).

**CONSTITUTION** (a) *Structure of universities.* Indian universities are of four main types, viz. (i) unitary teaching, (ii) federal teaching, (iii) teaching and affiliating and (iv) purely affiliating. The majority of them are teaching and affiliating, that is, they carry on teaching activities in their own departments and/or through constituent colleges, the instruction being given either by their own teachers or by teachers of constituent colleges recognised by them. They also affiliate colleges within their jurisdiction which teach under university supervision. The colleges have to abide by their conditions of affiliation with regard to finance, adequacy of staff, equipment, libraries, laboratories, buildings and hostels. In

some universities falling in this category the central co-ordination predominates, as in Andhra University or in Poona University in the Poona area; in others, the affiliated colleges do most of the teaching, the university's teaching being restricted to a few departments. There are eleven unitary teaching universities in India. A unitary university has been defined as 'one, usually localized in a single centre, in which the whole of the teaching is conducted by teachers appointed by or under the control of the university'. The control of the teachers, the teaching, the courses of study and the administration are centralized in the university. A unitary teaching university is usually residential, and vice versa. Aligarh, Allahabad, Annamalai, Banaras, Baroda, Jadavpur, Kurukshetra, Lucknow, Patna, Roorkee and Visva-Bharati conform to this type. Most of the Indian universities began as affiliating universities, being mainly concerned with laying down courses of study and examining students sent up by their affiliated colleges. They had no control over the teaching imparted in the affiliated colleges and were, for all practical purposes, no more than external, governing bodies. Gradually these universities began to assume teaching functions, and associated the teachers in the affiliated colleges with the framing of their courses and their general administration, until to-day there are only two purely affiliating universities (Agra and Vikram) in the country. The University of Bombay, as reconstituted in 1953, is a federal, teaching university as is the newly constituted University of Kerala (formerly the University of Travancore). Its colleges, in which all the undergraduate teaching is carried on, are constituent colleges, enjoying a great measure of autonomy in their internal administration, but they can be required to pool their resources for both post-graduate and post-intermediate teaching. Their principals are ex-officio members of the senate, the academic council and boards of university teaching and the heads of their departments are ex-officio members of the university's boards of studies. There is thus a close link between the university and its colleges. Poona University, too, so far as the Poona area is concerned, is a federal, teaching university, though it is an affiliating university in relation to the colleges situated outside Poona.

(b) *Internal government.* The main authorities of the universities and their relation to one another follow more or less the same pattern with minor variations. With a few exceptions, the governor of the state is the ex-officio chancellor or nominal head of the university. The chief academic and executive officers of the university is the vice-chancellor, who in most universities to-day is a full-time, paid officer, appointed for a fixed term. His appointment is made by the chancellor from a panel of names submitted by the supreme governing body. In a few universities (Bombay, Nagpur, Poona, Gujarat, Baroda and Shriemati Nathibai Damodar Thackersey Women's Universities and Sardar Vallabhbhai Vidyapeeth) the appointment is still an honorary one. Each univer-

sity has at least three authorities, viz. the senate or court, the syndicate or executive council, and the faculties. In some there is also an academic council. The senate or court is the supreme governing body, which holds the purse-strings and decides broad questions of policy. Its membership is large, represents a variety of interests and includes ex-officio, nominated and elected members. Heads of government departments, university professors and principals of colleges are included among the ex-officio members. A certain number are nominated by the chancellor and the rest are elected by university and college teachers, headmasters, registered graduates, local bodies, associations, the state legislature and donors of large amounts. The syndicate or executive council, which runs the day-to-day administration and handles its finances, is perhaps the most effective body in a university. It consists of the vice-chancellor, the director of public instruction, elected representatives of the supreme governing body, the faculties and principals. The academic and the lay element in it are usually evenly balanced. The faculties usually function through boards of studies in the several subjects included in them. They and the academic council, which consists mainly of teachers and heads of affiliated institutions, deal with purely academic questions, such as the framing of courses, the organization of teaching and regulation of examinations. In a few universities there are special boards of university teaching. Except in Roorkee University and the Shriemati Nathibai Damodar Thackersey Women's University, which have each one faculty only, namely engineering and arts respectively, the number of faculties varies from four to twelve.

*Relationship to Government.* Only four Indian universities, viz. Aligarh, Banaras, Delhi and Visva-Bharati, were established by acts of the central government. All the other universities have been created by state legislatures. In the sense that they are dependent on the central or the state government, as the case may be, for their constitution and powers, they may be said to be under government control, but they enjoy the greatest measure of autonomy in their internal administration. They stand midway between the British and the continental universities. While government control over them is nothing like the all-pervading control of the state over the universities of France or Italy, they do not enjoy the full freedom of the British universities. The control of government is more indirect than direct. Thus the governor of the state is, as a rule, the chancellor and he appoints the vice-chancellor. When the vice-chancellor is nominated from a panel, the final power of approval or veto rests with the chancellor. The chancellor's approval is necessary in some universities before a statute or regulation passed by their supreme governing bodies can become effective. In many universities the final power with regard to the affiliation and disaffiliation of colleges is in the hands of the government. Heads of certain

government departments are *ex-officio* members of the supreme governing bodies, and the chancellor has the right to nominate a number of their members. The president and the governors of states are usually invested with visitatorial powers or powers of enquiry and inspection, though these are rarely exercised. The accounts of the universities are subject to government audit.

**Government Grants and the University Grants Commission.** Under the Indian constitution, university education, excluding the four central universities, is a state subject. The universities have to look to their state governments for financial assistance. They also receive special grants, mainly for postgraduate and research work, from the funds placed at the disposal of the University Grants Commission by the government of India.

A University Grants Committee, consisting of four members, was formed in 1945 to advise the central government on the grants to be made to central universities. In 1946, and again in 1947, its membership was increased and it was empowered to deal with the other universities also. Its chairman was not a full-time officer. The Radhakrishnan commission recommended drastic changes in the constitution and powers of this committee, the most important of which was that it should be an expert body with power to allocate grants, within the total limits set by the government, instead of merely recommending their allocation to the finance ministry. In November 1953 the University Grants Commission, consisting of a full-time chairman and secretary and eight members, was set up by a resolution of the government of India to act as an expert body of advisers to the central government on the allocation of funds for grants-in-aid to the universities, and the disbursements of grants out of the funds placed at its disposal. By act of parliament (no. 3 of 1956) the commission was made a statutory body, consisting of nine members, including the chairman, whose office is a whole-time, salaried one. All the members, including the chairman, are appointed by the central government. Not more than three of them must be chosen from among the vice-chancellors of universities, two must be officers of the central government. The remaining members must be educationists or persons who have obtained high academic distinction. The commission is assisted in its work by a full-time paid secretary and staff. It is empowered to associate with itself persons whose assistance or advice it may need. Its duties and functions are to enquire into the financial needs of universities, allocate and disburse out of its fund grants to the central universities for their maintenance and development and to other universities for their development, advise the central and state governments on the allocation of grants, establishment of new universities, or proposals for expanding the activities of existing universities, collect information from and on behalf of universities and generally to take steps for the promotion and co-ordination of university education and maintenance of university standards. The Uni-

versity Grants Commission is under a statutory obligation to present annual reports of its activities to the central government. These reports are laid before both houses of parliament. Three such reports have so far been published. Mr. D. S. Kothari is the chairman of the commission and Mr. S. Mathur is its secretary. The address of the commission is Old Mill Road, New Delhi, 2.

Realising the importance of raising the standards of education in the universities, the University Grants Commission decided to give top priority to the improvement of libraries and laboratories and of the quality of teaching in the universities in its programme under the second five-year plan (1956-61). It accordingly made grants for the strengthening of their libraries and laboratories and for raising the salaries of their teachers.

**Grants to universities and colleges.** The University Grants Commission has continued the development programme which it had undertaken at the beginning of the second plan period and made grants for the building of libraries, laboratories, hostels, etc., and also to enable the universities and colleges to carry out a large number of minor projects. The total grants paid to the universities for development schemes in the humanities, science and technology during 1960-1961 were

	Rs
Humanities	22,702,530
Science	9,251,769
Technology	6,797,438
Central universities	29,049,815
Centenary grants to Bombay, Calcutta and Madras universities	1,000,000
	68,801,552

In accordance with the recommendations of the expert and visiting committees appointed by the University Grants Commission, universities were helped to strengthen existing facilities for training and research in basic science subjects and to establish new postgraduate departments. Assistance was also given for the introduction of courses in newer branches of study and to some extent also for the improvement of scientific education at the undergraduate level. With the increase in the number of universities from 31 to 44 during the second plan period, there has been a corresponding rise in the number of scientific as well as arts departments at the postgraduate level. In particular on the science side, the number of postgraduate departments increased from 363 to 466.

Of the 103 new postgraduate departments in science established during the second plan period, 64 were opened in the universities and the remainder in the affiliated colleges. The University Grants Commission gave assistance towards the establishment of all the new departments. Of the 642 additional posts that were created during the second plan, 96 were professorships, 102 research

posts, 226 lectureships and the remaining 128 were teaching staff.

Assistance was also given,

- (a) to the introduction of the five-year integrated course in engineering,
- (b) for special research schemes in certain fields of engineering & technology;
- (c) for postgraduate scholarships and fellowships in engineering subjects.

The new engineering courses that were developed with the help of the commissions include:

- (1) Mining engineering (Osmania University),
- (2) Chemical engineering & technology (Anna-malai, Osmania and Punjab universities),
- (3) Telecommunication engineering (Jadavpur, Osmania and Roorkee universities),
- (4) Architecture (Roorkee University).

The question of establishing units for postgraduate studies in basic medical sciences in the universities was also considered by the University Grants Commission and the possibility of training non-medical men also in basic medical sciences so as to fit into the schemes of medical education and research in the country has been studied now. Sanction was accorded for the establishment of one such postgraduate unit at Calcutta University at a total cost of Rs. 25.7 lakhs, of which the commission's share was Rs. 17.13 lakhs. More units may be established in selected centres during the third plan.

On the humanities side, assistance was given as usual for establishment and development of courses in a wide variety of subjects, including (a) archaeology; (b) museology; (c) languages, and (d) Buddhist studies.

The University Grants Commission continued its assistance to colleges for various specific purposes such as construction of hostels, non-resident student centres, and purchase of library books.

**Other grants.** The University Grants Commission also makes grants for the holding of periodic conferences and seminars on various subjects for the benefit of university and college teachers and makes grants to individual teachers to enable them to visit centres of research in particular subjects for short periods.

**FINANCE.** In 1958-59\* the total income of universities and colleges was Rs. 57.90 crores. Of this amount, Rs. 22.75 crores represented the income of universities and the constituent colleges maintained by them. The balance of Rs. 35.15 crores was received by the affiliated colleges and such constituent colleges as were not maintained by the universities. Of the total income, Rs. 44.06 crores was recurring, and Rs. 13.84 crores non-recurring. The total contribution towards the income of the universities and their colleges from government and local boards funds was to the extent of Rs. 31.85 crores, while fees, endowments and other sources contributed Rs. 18.27 crores, Rs. 1.40 crores and Rs. 6.34 crores respectively.

**PRE-UNIVERSITY EDUCATION.** The examination which a student has to pass before he can enter upon a course of university study is the secondary school (leaving) certificate examination held by the board of secondary education set up for the area in which the university is situated, or the matriculation or entrance examination held by the university itself. Very few universities in India to-day (e.g. Nagpur and Punjab) hold their own matriculation or entrance examinations.

The majority of pupils completing their high-school course take one of the school certificate examinations. The duration of the high-school course is ten years in most of the states and eleven years in Bombay. This period includes the time spent in the four primary standards and the three standards of the middle school. Instruction in the secondary schools, except in a few English teaching schools, is given through the pupil's mother-tongue or the regional language of the area. Not every holder of a secondary school certificate is eligible for admission to a university. The universities prescribe the subjects and minimum percentage of marks necessary for the purpose. In addition to the secondary schools, which provide education only in literary subjects, there are technical, agricultural and commercial high schools from which pupils can take the school certificate. Subject to certain restrictions, certificate holders from such vocational schools are also eligible to join a university. Pupils who join schools which prepare them for the Cambridge school certificate or higher school certificate examination are also admitted to the arts or science courses, provided that they pass in certain subjects or obtain a certain number of credits. In many universities, especially in north India, a Cambridge school certificate holder is admitted straight to the second year of the four-year arts or science degree course. For admission to Delhi University, which has a three-year degree course, a candidate has to complete the course for the higher secondary examination and pass it. The entrance qualification for the Aligarh, Agra and Lucknow universities is the passing of the intermediate examination of an Indian university, of the board of high school and intermediate examination (Uttar Pradesh), or an equivalent examination. When the three-year degree course is introduced in the universities, pupils who have completed the school-leaving certificate course will have to spend one more year in a pre-university course of study, either in a higher secondary school or in a college, before they are permitted to enter upon the degree course.

**ADMISSION.** In theory, all qualified applicants have the right of admission to university courses of study, but, in practice, owing to the limited number of places, it often becomes necessary for the authorities of the institutions to make a selection from among the applicants. This happens especially in the medical, engineering, commerce and teachers' training colleges. The

\* Figures supplied in 1962 by Ministry of Education, Government of India.

relevant authority lays down its own criteria for making the selection. Performance at the qualifying examination, distinction in sports and extra-curricular activities and membership of the national cadet corps are the chief determining factors.

Mention has been made above of the requirements for admission to the first-degree courses in arts and science. As regards professional courses leading to the first degree, the minimum requirements vary to some extent from university to university, except for the medical and engineering courses, where there is a greater degree of uniformity. Thus, the universities with four-year degree courses insist on the passing of the intermediate science examination with physics, chemistry and biology for admission to the MB BS course and the intermediate science examination with mathematics for admission to the BE or BSc(Eng) course. Those universities which have a three-year degree course require the passing of the pre-professional examination with biology and mathematics respectively. Owing to the comparatively small number of places available and the large number of applicants, candidates who have not obtained good marks at the qualifying examinations have little or no chance of securing admission to these courses. Some universities have laid down further conditions, such as the securing of 45 or 50 per cent. of the marks, or passing in the first division, as the minimum requirements for admission to the medical or the engineering course. Except in Bombay and Karnataka universities, only graduates are admitted to the LLB or BL degree course. In the two above-mentioned universities, a student passing the intermediate examination in arts, science or commerce, or part I of the BA examination, is admitted to the law course, though he has to study for three years, whereas for graduates the course is one of two years. The qualification for admission to the degree course in commerce is the intermediate arts, science or commerce, or the pre-university examination, except in some universities where admission to the course, which is one of four years, is made after the secondary school certificate examination, e.g. in Benares, Bombay, Gujarat, Karnataka and Poona universities, and in Delhi, where the minimum requirement is the passing of the higher secondary examination and the course is one of three years. The minimum qualification for admission to the BSc Agriculture course is intermediate science, pre-professional, or intermediate science (agriculture), except in the Gujarat, Karnataka, Marathwada and Poona universities, where the course is one of four years after the secondary school certificate examination.

The requirement for admission to postgraduate study and research is the possession of a first degree in the same faculty. The higher degrees are, as a rule, open to graduates of other universities on a reciprocal basis. The master's degree by papers can be taken after two years of study. In Annamalai, Andhra and Madras universities,

a candidate who had passed the BA (hons.) or BSc (hons.) examination was until recently entitled to take the master's degree by mere efflux of time. In some universities the master's degree can also be taken by research. The PhD degree can be taken only by research, not less than two years after the master's, or three years after the bachelor's, degree. For research degrees the candidate has to work under the guidance of a recognized university teacher. He has also to submit a thesis and undergo a viva voce test, unless he is exempted therefrom on the recommendation of his referees. In certain universities only students who have done well in the first degree examination are permitted to undertake post-graduate study or research.

#### STRUCTURE OF DEGREE AND DIPLOMA COURSES

Most of the universities have decided to adopt the integrated three-year course for the BA and BSc degrees, involving the abolition of the intermediate examination, as recommended by the Secondary Education Commission (1952-53). The details of the course have yet to be settled by the universities, and there are bound to be certain variations in them. The main idea underlying this course is to alter the former pattern of university education by transferring one year of the old four-year degree course to higher secondary schools, making it a pre-university course. Until the secondary high schools are upgraded into higher secondary schools, this pre-university course will be taught in the affiliated colleges. Simultaneously with the introduction of the new three-year courses, 'integrated' courses in general education, on the lines recommended by the Radhakrishnan commission in chapter V of their report, are likely to be adopted by most universities. By 'integrated' courses in general education is meant courses that not only lead to an understanding of the major fields of knowledge in the humanities, the natural sciences and the social sciences, but also of the inter-relationships between these fields. The University Grants Commission is giving financial aid to the universities to implement their schemes in this regard.

All the teaching and affiliating universities in India, except Bombay, have agreed in principle to accept the scheme of the three-year degree course. The universities of Uttar Pradesh propose to have a three-year degree course after a twelve-year school-cum-intermediate course and the University Grants Commission has agreed to assist these universities on a 100 per cent. basis towards their capital projects (excluding hostels). The implementation of the scheme in the state universities was financed until recently on an equal sharing basis between the state governments and the universities and managements of colleges on the one hand, and the government of India and the University Grants Commission on the other. On the recommendation of the planning commission, and with the concurrence of the ministry of education, the University Grants Commission has agreed to take over the entire responsibility for the implementa-

tion of the three-year degree course scheme in all Indian universities from the financial year 1960-61. The three-year degree course has already been introduced in the following twenty-six universities: Aligarh, Andhra, Annamalai, Banarus, Baroda, Calcutta, Delhi, Jabalpur, Jadavpur, Kanarak, Kerala, Madras, Marathwada, Mysore, Nagpur, Osmania, Patna, Poona, Rajasthan, Sardar Vallabhbhai Vidyapeeth, Saugor, S.N.D.T. Women's, Sri Venkateswara, Utkal, Vikram and Vivek-Bharati.

The three-year degree course is preceded by the pre-university course examination which is at present being conducted by the universities. The course includes compulsory and optional subjects. The universities hold an examination at the end of the second year in the compulsory subjects and in some papers of the optional subjects. In some universities there is an examination at the end of the first year also. Failure in these examinations does not prevent a student from proceeding to the final or third year of the degree course in which he is examined in the optional subjects only.

Students wishing to join a professional course in medicine or engineering are required to undergo what is called a pre-professional course in science subjects, with a professional bias, which as at present being taught in the degree colleges in arts and science, although it is the intention that these courses should eventually be catered for by the professional colleges themselves. The pre-professional examinations correspond to the old intermediate science examinations.

Under the pattern of the old four-year degree course some universities had a special honours examination with advanced courses of the duration of two or three years after the intermediate examination. Andhra, Annamalai and Madras had a three-years' honours course, and conferred the MA degree, without further examination, on candidates taking the honours degree, after the lapse of a certain period. They have discontinued these courses since the introduction of the three-year degree course. Among the universities which have already switched over to the three-year degree courses only one (Poona) has an honours course of the same duration as the pass or general course, but with a larger number of papers and with specialization, on the lines of the honours courses of Delhi University. The other universities have not instituted honours courses so far. Bombay University, which still follows the old pattern of the four-year degree course, has two types of courses, known as 'general' and 'special', each of two years' duration, the difference depending upon the groups and selection of subjects. A candidate can secure honours in either course, depending upon the level of his performance at the examination. In practice, however, a very small number of candidates select the 'general' course.

The duration of courses leading to the BSc(Eng) or BE (civil, electrical and mechanical) degrees varies from three to five years after the intermediate science, or pre-professional, ex-

amination. In some universities the course includes practical training, varying from six months to a year; in others, there is no provision for practical training. The course for the MB BS degree varies from five to six years after the intermediate science, or pre-professional, examination. It includes internship from six months to a year in all universities except Andhra and Mysore. The course for the LLB or BL degree varies from two to three years. The course for the bachelor's degree in commerce varies from one year after the pre-university examination, or two years after the intermediate arts, science or commerce examination, to four years after matriculation. Two universities (Andhra and Madras) have honours courses, and in one university (Bombay) candidates passing in the second class are deemed to have passed with honours. The BSc(Agr) course varies from three years after the intermediate science or the higher secondary examination to five years after matriculation. The degree courses in dentistry and veterinary sciences are each of four years' duration after the intermediate science examination, and the BEd or BT course covers one year after graduation in all universities. The courses in technological subjects (other than engineering) are usually of four years' duration after the intermediate science examination or two or three years after the BSc degree. It may be broadly stated that those universities which have adopted three-year degree courses in arts and science have substituted the pre-professional or some other examination corresponding to the intermediate as the springboard for admission to the professional course.

Study for a postgraduate qualification normally involves attendance at advanced courses of lectures, clinics or practicals, as the case may be. Where the degree is by research, the candidate has to work under the supervision of a recognized teacher except for the DLit and DSc degrees, which are awarded on the basis of independent research.

Most universities conduct diploma courses in a variety of subjects, cultural, technical and professional, such as foreign languages, journalism, public administration, foreign affairs, music, soap-making, pottery, teaching, librarianship and medical subjects. Some are postgraduate diplomas, others undergraduate. The duration of the courses varies from one to three years.

Some universities confer 'oriental titles' (corresponding to degrees or diplomas) on candidates who pass their examinations in courses in languages such as Sanskrit, Arabic or Urdu, or in Ayurveda or Unani (indigenous systems of medicine), or in theology or music. These courses are taught at the university level, and must not be confused with courses provided by institutions other than universities which confer their own titles on those who pass their examinations. These institutions are colleges maintained or sponsored by state governments or by learned bodies with a view to encouraging traditional courses and methods of instruction in Sanskrit or other

oriental languages. For a list of oriental titles conferred by universities, see p. 473.

**STAFF.** The teaching staff in university departments

consists of professors, readers, lecturers and demonstrators. The affiliated colleges have professors, assistant professors, lecturers and demonstrators, but no readers.

\* Figures are provisional

The scales of pay in the universities are more or less uniform, whereas in the colleges they vary considerably. Some universities have prescribed minimum scales of pay for their college teachers. As a result of the subsidies given by the University Grants Commission, the revised scales of salaries of universities which receive such subsidies are uniform. The professors are paid Rs. 800-50-1250 per month, the readers Rs. 500-25-800 and the lecturers Rs. 250-500, with annual increments of not less than Rs. 20. The commission pays to the universities 80 per cent. of the increased expenditure due to revision, while the remaining 20 per cent. is borne by the state government or the university concerned. The four central universities pay according to the same scales as those mentioned above, with slight variations in the lecturers' scales to meet local requirements. Bombay University pays its lecturers Rs. 300-25-600. Panjab University also has slightly higher scales for its teachers. Many of the affiliated colleges have recently upgraded the salaries of their teachers on a sharing basis, the commission subsidizing the increased expenditure to the extent of 50 per cent. and the state government or the college contributing the balance.

The usual method of instruction consists of the lecture, the tutorial and the seminar. Lectures predominate. Tutorials and seminars are held, once a week or fortnight, in different subjects. A college teacher is usually not burdened with more than fifteen lectures in a week, if he does not take postgraduate classes. Teachers of undergraduate classes generally get very little time to do their own research.

The practice of sabbatical leave as such is non-existent in the colleges. Teachers in the university departments are permitted to go on study leave up to a maximum of three or four years during the entire length of their service. The age of superannuation in most universities is sixty years, which may be extended by two to five years in special cases. In a very few universities it is fifty-five. No distinction is made in the case of those coming from abroad, unless the appoint-

ment is on contract for a fixed period.

The usual method of filling vacant teaching posts is by advertisement in the Indian newspapers, and sometimes also in foreign newspapers. Appointments are ordinarily made by the executive council on the recommendation of statutory selection committees, which include experts unconnected with the university.

There is no statutory bar to the appointment of nationals of other countries to university or college teaching posts, although the number of such persons is rapidly decreasing on account of the availability of Indians with high academic qualifications obtained in foreign universities. The majority of teachers are persons who have taken their first degrees in India. Only a small minority have received their first degree training abroad. The older universities have on their staffs a fair proportion of teachers who have graduated from other universities, although the majority are from the home university.

**STUDENTS.** Most universities enrol only full-time students but some have students taking diploma or evening courses. In Agra University about 25 per cent. of the students are part-time, in Gauhati about 17 per cent. and in Baroda about 12 per cent. About 13 per cent. of the students in Poona University are external students, i.e. persons gainfully employed in the university area, who are allowed to appear for its examinations without keeping terms, after registering their names in the university office. Calcutta, Delhi, Madras and Utkal universities have small numbers of part-time students. Some of the universities, e.g. Agra, Nagpur, Osmania, Rajawade and Utkal, permit certain categories of persons, such as school teachers, educational inspectors, women, librarians, library clerks and laboratory assistants, to appear as private candidates at their examinations. Very few universities conduct vacation courses or summer schools. Poona University, for example, conducts such a course for the MEd examination for secondary school teachers. The majority of students live in their own homes. About 10 to 20 per cent. live in halls of residence or hostels maintained by the universities or

affiliated colleges. It is usual for a university, when affiliating a college, to lay down a condition that it shall make provision for the accommodation of a certain proportion of its students in its own hostel.

Most universities and colleges have their own students' unions or representative councils. Every college has its own athletic club and a number of societies conducting cultural activities such as literary, dramatic, debating, historical and philosophical societies or clubs.

Almost every university has its contingent of the national cadet corps. Girls' divisions have recently been started in many universities. Student welfare activities are on the increase. The government of India organises an annual inter-university youth festival. Students take part in training camps, village apprenticeship and development schemes, and labour corps, for which the universities receive financial assistance from government. Universities and colleges have their own medical officers to look after the health of their resident students. In some universities there are arrangements for the medical examination of entrants. Some universities have made physical training compulsory in the first two years of the degree course. A few universities have foreign universities' information bureaux, and Calcutta University has also an appointments board. As the number of students from overseas is increasing, the universities are considering a proposal to appoint advisers for them. A few universities have student counsellors.

The tuition fee varies from Rs. 120 to Rs. 250 per annum for arts and science courses, and from Rs. 250 to Rs. 400 for professional and technological courses. The cost of residence in hostels, including boarding, varies from Rs. 80 to Rs. 100 per month. For overseas students, it may go up to Rs. 150 per month, but much depends on whether the university is situated in a small town or a large city.

The major sources of financial assistance by way of research studentships, fellowships and scholarships are (a) the government of India and/or the state government, (b) university or college funds and (c) endowments. The government of India awards a certain number of scholarships to students coming from abroad. They also award scholarships to backward class students. The universities and colleges, too, award free studentships to deserving but poor students. As a rule, however, scholarships and other financial awards are made on the basis of merit. Figures are not available to show to what extent students receive financial assistance, though, on a rough estimate, it may be said that about 10 per cent. receive financial aid. Vacation employment of students is practically unknown.

The University Grants Commission gives grants to students' aid funds established in the universities and colleges for rendering financial assistance to poor students to meet their tuition or examination fees or to purchase books or meet similar

other expenses in connexion with their studies. Such grants are made on a fifty-fifty basis, subject to a maximum amount of Rs. 10,000 for a university and Rs. 2000 for a college.

The average age of Indian students joining universities is 17 plus. Foreign students (for statistics, see pp. 473-474) are usually much older, i.e. between 18 and 24, as many of them come only for professional or postgraduate studies.

The total number of students has been increasing from year to year. It increased from 420,000 in 1951 to 980,380 in 1961-62. Of the 980,380, 569,627 were women. See also 'Statistics', p. 473.

**ACADEMIC YEAR.** The academic year is divided into three terms in most universities. Some have only two terms. The academic year usually begins in June or July and ends in March or April. In the Jammu branch of the Jammu and Kashmir University and in Roorkhee University it begins in September, and in the Punjab University in October. The long (summer) vacation, except in these three universities, falls between March and July. The difference in the terms and vacations is mainly due to climatic conditions. Most universities have a short break of a fortnight to a month in October, and another short break of ten days to a fortnight in December. No vacation courses are held in summer to enable students to earn credit for attendance.

**ADULT EDUCATION.** The idea of extra-mural classes and university extension is comparatively new. Some universities have, however, recently been moving in that direction, for example, Poona University has established a board of extra-mural studies which is responsible for adult education in the university area. It had 84 extra-mural centres where 600 lectures were delivered in 1961-62. It also conducts summer and autumn schools, mainly for school teachers, at a few extra-mural centres. Marathiwada University has a statutory board of extra-mural studies. It has 17 centres where 193 lectures were delivered in 1961-62. Bornhay University has recently started adult education classes in Hindi and Marathi in labour areas for labourers in mills and factories and in English for office employees desirous of acquiring a knowledge of cultural subjects. Some other universities also conduct adult education classes through their own lecturers and college teachers. The University Grants Commission gives financial assistance for university extension courses to universities undertaking them.

**INTER-UNIVERSITY ORGANISATIONS.** In pursuance of a resolution passed by the first conference of Indian universities held at Simla in 1924, the Inter-University Board of India was established in 1925 to co-ordinate the work of the Indian universities, by providing for the discussion of common university problems, acting as a bureau of information, facilitating the exchange of professors, assisting the universities in obtaining recognition for their degrees by other

universities, and in other ways. Member universities are represented on the board by their vice-chancellors and, in their absence, by members of the syndicate or executive council. The universities of Rangoon and Ceylon are also members of the board. The board meets annually to consider proposals from individual universities and the government of India, and also convenes quinquennial conferences to discuss important university problems. Through a subsidiary sports board it conducts inter-university tournaments in the major games and in athletics. In addition to the proceedings of its annual meetings and conferences, its *Bulletin*, *Lists of subjects in which research is in progress in the universities and research institutes* and the *Bibliography of Doctorate Theses* accepted by the universities, it publishes a *Handbook* giving detailed information about the Indian universities and research institutes. It is in relationship with the Association of Universities of the British Commonwealth. The board has a standing committee, elected biennially, which acts as its executive body. The presidency rotates annually among the vice-chancellors. The office of the board is located at Rouse Avenue, New Delhi, 1, India. The chairman of the standing committee of the board is P. P. Parry, OBE, MA Camb, DSc Paris & Urol, FNT, Vice-Chancellor of Utkal University. The secretary of the board is B. D. Laxma, DIC, PhD Lond, BA Oxon.

There is no national association of university teachers in India, although there are local associations in some universities, e.g. Bombay and Poona, whose activities are mainly social.

There is a body called the National Union of Students, to which a few students' unions are affiliated, but it cannot be said to be a very representative body.

**THE UNIVERSITIES TO-DAY.** The universities are faced to-day by a number of problems, largely the result of the situation in which India finds herself since independence, and the rethinking which has become necessary for them to fulfil the requirements of the country in which they must play their rôle as integral parts of her national life. The main problems are inadequacy of staff and equipment, the pressure of an ever-increasing number of students and the replacement of English by a suitable Indian language as the medium of instruction. In a way, the universities are in a better position now than they ever were before, inasmuch as the University Grants Commission is always willing to help them. With its assistance they have been able to improve the pay scales of their teachers, build or extend their scientific and technological laboratories, strengthen their libraries and provide more accommodation for their students and staff, and, in particular, to extend their research facilities. They are anxious to bring about closer contacts between teacher and student by laying greater emphasis on tutorials and seminars than on lectures, and to improve the examination system by making the examinations

more objective and giving credit to the students for their class work. They realize the importance of character-building and physical welfare for their students and the creation in them of a spirit of self-sacrifice and a desire to render social service by encouraging them to take part in labour camps and village development schemes and impressing upon them the dignity of manual labour; in a word, to make them keenly alive to the need of making their individual contribution to the building up of a more contented, prosperous and happy India. Student welfare and activities, therefore, loom large in their programmes. These students are keen on building roads and schools for the poor villagers and swimming pools and open-air theatres for themselves by voluntary labour during their vacations. The universities themselves are extending their teaching activities and giving greater scope to their teachers and students for the development of research. Among the new specialized courses recently introduced are business management, industrial engineering and industrial administration. Nuclear research is also receiving special attention. Building programmes are going forward all over the country. New scientific laboratories and more and better hostels are being built. The constitutions of the universities are being amended with a view to strengthening the academic element. The prospect for university education for the next few years is promising, although the heavy demands made on the country's finances by the urgent need for agricultural reform and industrial expansion have made it difficult for the government to provide adequate funds for the expansion of university education. The problem of the medium of instruction has yet to be satisfactorily solved amidst the conflicting claims of Hindi and the other regional languages.

**'INSTITUTIONS OF NATIONAL IMPORTANCE.'** In order to provide facilities on an extensive scale for postgraduate courses, advanced work and research in the various branches of science, engineering and technology, the Sarkar Committee recommended in 1945 that four institutions on the lines of the Massachusetts Institute of Technology be established, one in each of four regions of the country. Government accepted this recommendation and the first institution, named as the Indian Institute of Technology, Kharagpur, was established in 1950 in the eastern region as a government institution. Later, this institute at Kharagpur was declared by parliament as an institution of national importance under the Indian Institute of Technology (Kharagpur) Act, 1956. Three other institutions, named as the Indian Institute of Technology, Bombay, the Indian Institute of Technology, Madras, and the Indian Institute of Technology, Kanpur, were started in 1958, 1959 and 1960 respectively, and were registered under the Societies Registration Act, 1860. They have also since been declared as institutions of national importance, and all four institutions have been incorporated by an act of parliament, namely, the

Institutes of Technology Act, 1961. This Act came into force on April 1, 1962. Each of these institutes grants its own degrees, diplomas and other academic distinctions or titles. When fully developed, each will have 1600 undergraduate students and 400 postgraduate students (For further information about each of these four institutes, see separate entries below.)

**OTHER INSTITUTIONS OF HIGHER EDUCATION.** Although the universities cover the major part of the instruction in the field of higher education, it cannot be said that 'higher education' is synonymous with 'university education'. There are a number of institutions of higher education and research which work in collaboration with, or independently of, the universities. Thus, the Bhandarkar Oriental Research Institute, Poona, is a constituent, recognised institution of Poona University. The Tata Institute of Fundamental Research at Bombay, which provides instruction of a high order in specialized branches of physics, mathematics and other allied sciences, is recognised for the guidance of candidates for the masters' and doctors' degrees of Bombay University. The University of Bombay recognizes for its postgraduate degrees the research work carried on in the Indian Cancer Research Centre, Bombay, and in the Atomic Energy Establishment, at Trombay, under the guidance of the members of the research staffs of these institutions in subjects for which they have special facilities. The Central Building Research Institute, Roorkes, which is one of the national laboratories, works in close liaison with the University of Roorkes. The Lesther Research Institute, Madras, and the Harcourt Butler Technological Institute, Kanpur, stand in a similar relation to the universities of Madras and Agra respectively. The national laboratories, set up by the government of India, and some of the central research institutes, are recognised by many of the Indian universities as institutions which can send students working in them for the postgraduate research degrees of the universities concerned. The All-India Institute of Medical Sciences, New Delhi, established under an act of parliament (Act 25, 1956), and the Indian Institute of Technology, Bombay, give their own degrees in medicine and engineering, respectively. The Forest Research Institute, Dehra Dun, is a centre for the whole country for technical in-

struction in forestry, and confers the diploma of forestry research in India at the end of a year's course. The Central Food Research Institute, Mysore, conducts fundamental and applied research in different branches of food and a post-graduate course of two years in fruit technology, leading to an associateship of the institute. The Indian Statistical Institute, Calcutta, provides teaching courses leading to its associateship and fellowship. The Serampore College, West Bengal, functions as a university in the faculty of theology, while submitting its students in arts and science to the examinations of the University of Calcutta.

For further information about institutions of higher education and research other than statutory universities the reader is referred to the current edition of the *Directory of Institutions for Higher Education* published by the Ministry of Education, Government of India, New Delhi.

## DIRECTORY TO SUBJECTS OF STUDY

The following subjects in arts and science may be studied at most Indian universities: botany, chemistry, economics, English, French, geography, geology, German, Hindi, history of India and Europe (ancient, medieval and modern), mathematics, modern Indian languages spoken in the area, Pali, Persian, philosophy, physics, political

science, psychology, Sanskrit, sociology, statistics and zoology.

A list is given below of certain other subjects which may be studied at universities. Unless otherwise stated, the courses mentioned are for a first degree. Most universities which make provision for first degree courses also provide facilities

for master's and/or doctor's degrees in the same subject.

**African Studies** Delhi awards an MA in African studies

**Agriculture.** Courses leading to the BSc(Agr) or BA degree are provided by Agra, Allahabad, Andhra, Annamalai, Banaras, Bihar, Calcutta, Delhi, Gauhati, Gorakhpur, Gujarat, Jabalpur, Karnataka, Kerala, Madras, Marathwada, Mysore, Nagpur, Osmania, Panjab, Poona, Rajasthan, Sardar Vallabhbhai Vidyapeeth, Saugar, Utkal and Vikram. A BSc(Dairying) is awarded by Panjab and a diploma in horticulture by Madras.

**Architecture.** Courses leading to a BArch are provided by Baroda, Bombay, Calcutta, Delhi, Madras and Roorkhee. Nagpur awards a diploma.

**Commerce and Business.** Except for Jadavpur, Roorkhee, S N D T Women's and Visva-Bharati, all universities have a bachelor of commerce degree. A master's degree in business administration is awarded by Andhra and diplomas by Aligarh, Bombay, Delhi and Madras. Bombay offers a diploma in industrial management and Baroda a diploma in banking.

**Dentistry.** The BDS is awarded by Bombay, Calcutta, Kerala, Lucknow, Madras, Mysore and Panjab.

**Education.** All universities except Bihar, Jadavpur and Roorkhee have courses leading to a BEd or BT or MEd degree, which are open to graduates in arts, science or commerce.

**Engineering, Agricultural.** Allahabad awards a BSc(AgrEngg) and Annamalai an MSc.

**Engineering, Automobile.** Bombay awards an ME.

**Engineering, Chemical.** Courses leading to BE or BSc(ChemEngin) are offered by Agra, Andhra, Annamalai, Banaras, Bombay, Delhi, Jadavpur, Madras, Nagpur, Osmania and Panjab.

**Engineering Civil, Electrical, Mechanical.** ABE or BSc(Eng) is awarded by all universities except Allahabad, Gorakhpur, Jammu and Kashmir, Lucknow, S N D T Women's and Visva-Bharati. See also Technology.

**Engineering, Highway.** Courses at Madras, Panjab (for MSc(Engg)) and Roorkhee (for ME).

**Engineering, Mining.** Courses at Banaras for BSc(Min) and MSc(Min), and at Rajasthan and Saugar for BE.

**Engineering, Public Health.** Annamalai awards an MSc and Roorkhee an ME.

**Engineering, Telecommunication.** Jadavpur, Madras, Poona, Rajasthan and Saugar have courses leading to a BSc(Tech) or BE or BT/IE.

**Fine Arts.** Degrees in the fine arts are offered by Baroda and S N D T Women's, and diplomas by Allahabad, Annamalai, Banaras, Baroda and Visva-Bharati.

**Forestry.** Courses at Delhi.

**Home Science.** Degree or diploma courses at Allahabad, Baroda, Calcutta, Delhi, Jabalpur, Madras, Nagpur and S N D T Women's.

**Indigenous Medicine.** Degrees in Ayurveda are offered by Banaras, Kerala, Lucknow and Poona, and in Unani medicine and surgery by Aligarh. Madras awards a BIM (Indian medicine).

**Journalism.** Diploma courses in journalism are offered by Calcutta, Madras, Nagpur, Osmania, Panjab.

**Law.** With the exception of Annamalai, Baroda, Jadavpur, Jammu and Kashmir, Roorkhee, S N D T Women's, Sri Venkateswara and Visva-Bharati, all universities have courses leading to the LLB or BL.

**Liberal Science.** Aligarh and Delhi each have degree and diploma courses. Kerala awards a degree. Aligarh, Andhra, Banaras, Baroda, Bombay, Calcutta, Madras, Nagpur, Osmania, Poona and Vikram have diploma or certificate courses only.

**Medicine.** The MB BS degree is awarded by Agra, Andhra, Banaras, Baroda, Bihar, Bombay, Calcutta, Delhi, Gauhati, Gujarat, Jabalpur, Karnataka, Kerala, Lucknow, Madras, Mysore, Nagpur, Osmania, Panjab, Patna, Poona, Rajasthan, Sri Venkateswara, Utkal and Vikram. Postgraduate diplomas are awarded as follows: *anaesthesia/anaesthesiology* Agra, And., Bda, Bom., Calc., Delhi, Madr., Osm., Panj., Patna; *cardiology* Calc.; *child health* Agra, And., Calc., Delhi, Madr., Osm., Patna, S. Venkat., Vikram; *clinical pathology* Kerala, Luck., Madr., Osm., Patna, Poona, S. Venkat.; *dermatology* And., Calc., Madr.; *forensic medicine* Bom.; *gynaecology and obstetrics* And., Bda, Calc., Kerala, Luck., Madr., Osm., Patna, S. Venkat., Vikram; *industrial health* Calc.; *laryngology and otology* And., Bda, Luck., Osm., Patna, S. Venkat.; *medical radiology and electrology/electrinity* Agra, Bda., Calc., Luck., Vikram; *ophthalmic medicine and surgery* Agra, Alg., Calc., Luck., Mys., Panj., Vikram; *ophthalmology* And., Bda., Medi., Nag., Osm., Patna, S. Venkat., *orthopaedics* Agra, Madr.; *oto-rhino-laryngology* Madr.; *psychological medicine* Bom., Madr.; *public health* Bom., Calc., Poona; *radiology* Madr.; *tropical medicine and hygiene* Calc.; *tubercular/tuberculosis/tuberculosis diseases* Agra, And., Bda., Calc., Delhi, Luck., Medi., Panj., Patna, Vikram, *venereology* And., Calc., Madr.; *venereology and dermatology* Bda., Bom.

**Metallurgy.** Banaras, Calcutta, Poona and Saugar provide courses leading to a BSc or BE.

**Military Science.** Lucknow awards a diploma.

**Museology.** Diploma courses at Baroda and Calcutta.

**Music.** Degrees in music are awarded by Annamalai, Banaras, Baroda, Calcutta, Madras, S. Venkat. and Visva-Bharati, and diplomas or certificates by Agra, Allahabad, Andhra, Anne-

Madras, Banaras, Benares, Gorakhpur, Madras, Patna, Poona and (music and dance) Visva-Bharati.

**Nursing.** Calcutta, Delhi, Madras and S.N.D.T. Women's offer a BSc in nursing.

**Oriental Learning.** Courses in oriental learning leading to bachelor's or master's degrees or diplomas, or (see below) oriental titles are provided by Andhra, Annamalai, Banaras, Baroda, Bihar, Jamia and Kashmir, Kerala, Madras, Osmania, Nagpur, Panjab, Patna, Poona, Rajasthan, Saugar and Utkal. Sanskrit, Pali and the modern Indian languages are taught in almost all universities.

**Pharmacy.** Degrees (BPharm or BScPharm) are offered by Agra, Andhra, Banaras, Bombay, Gujrat, Madras, Mysore, Nagpur, Panjab, Rajasthan and Saugar.

**Photography.** Allahabad awards a certificate and Gorakhpur a diploma.

**Physical Education.** A degree (BPE) is awarded by Vikram and diplomas by Lucknow, Madras, Osmania and Panjab.

**Public Administration.** Nagpur has a post-graduate course for the MA. Lucknow, Madras, Osmania and Patna have diploma courses. A diploma in local self-government (administration) is awarded by Allahabad and Nagpur.

**Religion and Culture.** Aligarh awards a degree in religion (BTh). Courses at Osmania.

### GENERAL INFORMATION

Founded in 1827, the univ. concerned itself mainly with exams, having no teaching staff (except that of its sch. of law) until 1914. Thereafter it establd. chairs and readerships, etc., for res. work in econ. and mod. hist fac grad. students. In 1922 an act was passed for the reorganization of the univ. as a unitary teaching and residential instn., with control, however, over the quality and character of the teaching in constituent colls. The Muir Central Coll. became the nucleus of a teaching univ., the jurisdiction of which was limited to a territorial area of 10 mls. radius from the convocation hall of the univ.

Within this area there are 7 instns. which supplement instrcn. given in the univ. The women's dept., which undertakes full matricn for the degree course, has now been transferred from the Crosthwaite Girls' Coll. to the univ. area. In 1955, by a further amendment to the univ. act, 2 categories of coll. came into existence, colls. of the univ. (which are residential colls. for students of the univ. or recog. by the univ. in which tutorial and supplementary instrcn. is provided) and associated colls. (which are also residential, but provide full degree courses as distinct from tutorial instrcn.).

The univ.'s jurisdiction is within 10 mls.' radius of Senate Hall. It serves a pop. of about half a million.

**CONSTITUTION.** The principal univ. authorities are the exec. and council, academic council, fac. bds. The vice-chancellor, a full-time officer, is the principal exec. and academic hd. of the univ. He is ex-officio chairman of the exec. council and academic council and in the absence of the chancellor he presides at meetings of the univ. court and convocation. The court is the supreme governing body. The exec. council is vested with the control of the univ. admin. The academic council is the supreme academic body. The function of the fac. bds. is to make recommendations to the academic council on academic matters.

**INCOME** (1960-61): Govt. grant (recurring and non-recurring), Rs. 3,313,491; fees, Rs. 1,081,845, other sources Rs. 603,977.

### GENERAL INFORMATION

The act of the Madras legislative council constituting the Andhra Univ. 'in and for the Telugu districts of the presidency of Madras' came into force in 1926. By a later act, the area has been narrowed down by the exclusion of certain districts, leaving the following within the affluence jurisdiction of the Univ.: Srikakulam, Visakhapatnam, East Godavari, West Godavari, Krishna and Guntur. The act establishes 5 categories of colls.: 'univ. colls.', providing for pass and hon. or postgrad. courses for higher degrees; 'first grade colls.', providing courses for the ordinary degrees in arts or sci.; 'second grade colls.' (there are none at present), preparing for the pre-univ. exam.; 'professional colls.', providing courses in agric., engin., teaching, and for med. degrees, and 'oriental colls. (recognized)', providing courses for oriental titles.

CONSTITUTION The supreme governing body

is the senate. The vice-chancellor, a whole-time salaried officer and principal executive, is nominated by the chancellor for a period of 5 yrs. The other principal authorities of the Univ. are: an executive body called the syndicate comprising 15 members, incl. the vice-chancellor, financial sec. to the state govt and dir. of public instrcn. ## GENERAL INFORMATION

The idea of establishing a univ. at Baroda had engaged the attention of the govt. of the former state of Baroda as early as 1908, and in 1927 the Baroda univ. commission apptd. by the govt. of Baroda submitted a report making a strong case for the immediate estab. of a univ. Circumstances, however, did not permit this. In 1949 another cttee., consisting of eminent educationalists apptd. by the govt. of Baroda, recommended the estab. of a residential univ. The univ. was estab. in April 1949 under the Maharaja Sayajirao University of Baroda Act.

It is a unitary, teaching and residential univ. Its jurisdiction extends over a radius of 10 miles from the office of the univ.

**CONSTITUTION.** His Highness the Maharaja of Baroda is chancellor of the univ. The vice-chancellor is the principal exec. and academic officer and is aided by a pro-vice-chancellor or rector. The vice-chancellor and pro-vice-chancellor or rector are elected by the senate from amongst the names of persons of 3 persons submitted by the syndicate. The senate is the supreme governing body and authority of the univ. and the syndicate its exec. authority. Among the other authorities are the council of postgrad. studies and res. which deals with all postgrad. matters, and the fac. and bds. of studies which are principally responsible for all other academic matters. Provision has also been made in the act for the estab. of a bd. of extra-mural studies, bd. of sports, students' welfare bd. and public bd.

**INCOME (1961-62)** Total income Rs 6,022,936 (principal sources: govt. grants, 41.7 per cent.; fees, 37 per cent.; endowments, 0.5 per cent.).
